Ms. Mary L. Cottrell, Secretary
Department of Telecommunications and Energy
One South Station, 2nd Floor
Boston, MA 02110

Re: Fitchburg Gas and Electric Light Company Semi-Annual Report in D.T.E. 03-87

Dear Secretary Cottrell:

Pursuant to the Hearing Officer's Procedural Ruling of June 16, 2005, Fitchburg Gas and Electric Light Company d/b/a Unitil ("Unitil) submits the attached semi-annual report regarding the status of "double poles" to the Department of Telecommunications and Energy ("Department"). Enclosed for filing are the original and four (4) copies of this status report. As indicated in the June 24, 2005 letter filed jointly by Boston Edison Company, Cambridge Electric Light Company, Commonwealth Electric Company, Massachusetts Electric Company and Nantucket Electric Company, Verizon Massachusetts, Western Massachusetts Electric Company, and Unitil, much of the data requested with respect to historical pole removal is unavailable at this time and is therefore not included in the attached report.

The Procedural Ruling also requested that Unitil provide the Department with an express deadline for the removal of all backlogged double poles. According to the PLM reports, Unitil has a total of 84 backlogged double poles: 1 in Ashby; 34 in Fitchburg; 1 in Lunenburg and 48 in Townsend. Of these 84 backlogged poles, Unitil is awaiting transfers from Verizon on 77 and from Comcast on 2. Unitil will be able to remove 4 of the backlogged poles without action by any attachee.

Unitil intends to arrange for a meeting with Verizon representatives as soon as possible and propose a plan to eliminate the current backlog of double poles, as well as implement a process by which both companies may avoid the accumulation of a backlog in the future. Unitil will report to the Department the results of this meeting and update the status of its double pole inventory as well. Unitil also commits to eliminating all backlogged poles by December 31, 2005.

Gary Epler
Senior Counsel
