Record Request No.: AG-RR-43

The following information is requested: a) to the extent that they have not, and will not, be produced in response to the supplemental responses to AG-RR-1, provide all remaining documents, memos, e-mails, invoices, letters, reports, et cetera related to the Princeton Paper bankruptcy, specifically including all documents to and from Mr. Collin; and b) please have Mr. Collin identify which documents from the index list AG-RR-1(c) may not bear his name but that he may have seen or obtained a carbon copy of.

Response:

a) As discussed at hearings, Attachment AG-RR-43 is an additional index of documents contained in LLGM's files in New York related to Princeton Paper. Irena Goldstein, the attorney representing FG&E in the PPC bankruptcy, is resident in LeBoeuf's New York office. Upon review, most of these documents have already been provided as part of AG-RR-1, with the exception of legal memoranda. Because this list is largely duplicitous of that material already provided, to the extent any party seeks something identified on this list that is not privileged, it can be provided upon request.

b) Mr. Collin has not conducted the analysis requested by the Attorney General because he cannot make this type of determination from an index list. However, the Attorney General has been supplied with copies of each non-privileged document referenced, per the Attorney General's request, as part of AG-RR-1(c).

Person Responsible: Mark H. Collin
