Subject: SMART program site concerns
Date: Wednesday, September 4, 2019 3:43:45 PM

Dear DOER representative,
I'm writing to request that SMART program site eligibility requirements be revisited so that proposals for forested sites do not get the support of this state program. It is counter-productive to our overall goals to increase deforestation and lose forest canopy, both for combatting climate change as well as for habitat and natural resource conservation.

Thank you for considering this feedback. I would appreciate hearing back if my concerns can be addressed.

Sincerely,
Michelle Durocher
