Subject: Industrial Solar Siting Incentives
To: <doer.smart@mass.gov>

To whom it may concern,

We need to transition to sustainable energy while preserving the integrity and health of our ecosystems. Our solar incentive programs need to be in line with this imperative. I urge you to continue to favor industrial solar siting on already developed locations, and discourage it on forest or undeveloped land through the design and implementation of the industrial solar incentive program.

Sincerely,
Helen Harrison
