Please do not allow changes in any law or regulation that would permit anyone, including solar providers, to cut down the forests of Massachusetts for any reason. These forests sequester carbon dioxide, help to clean our water and hold the soil and are part of the ecosystem that prevents flooding and provides a home for wildlife of many varieties.

If it is destroyed, the damage spreads through all parts of our environment.

Thank you.
Roslyn Feldberg

If you are from Brookline MA, join me in "Opting Up" to 100% renewable electricity through our town's Brookline All Green plan! It takes 5 minutes, costs little, and doesn't change your billing or electric service. Go to https://brooklineoptup.com/.

Please follow Brookline Mother's Out Front on Twitter @BrooklineMOF and "like" our Facebook Page to check out what we're up to!
