NHESP BIOMAP AREAS OF THE WAQUOIT BAY ACEC

0.5 0 0.5 Miles

This map is intended to be used with the written boundary description contained in each ACEC designation document. The map is not to be used by itself for definitive ACEC boundary delineation or regulatory interpretation. For review of site specific projects within the ACEC boundary, determinations need to be made in the field or in consultation with ACEC Program staff. June, 2003.

The NHESP BioMap project highlights areas in Massachusetts with high biodiversity and most in need of protection.
