JUN 25 2012

DEAR MR KAMANZI 6/20/12

If my wife was able to she would be at the Globe Tel meeting. unfortanatly she can not drive. I will pass word around to other inmates in hopes some of their family members or friends can send word.

Please forward this letter that I have for the Attorneys Representing the petition to D.T.C.

The phone is the only form of communication I have beside writting letters to keep in contact w/ my wife & children so it's very important to me that Rates be lowered. I appreciate Prison legal services fighting for me as well as every other inmate.

Thank you

Sincerly

Steven Morello

RECEIVED
JUL 19 2012
MASS. DEPT OF
TELECOMMUNICATIONS & CABLE

Letter inclosed for The Dept, of telecommunications & cable

TO (DTC)

Im writting in hopes that prison Telephone Rates will drop. I personally do not Recieve much money to live and I use it all on phone calls to keep in contact with my Family. My wife is unable to drive do to illness and Im not able to See my young children. All my communication is ~~of~~ via The telephone. If I was to call my family once a day it would cost me $3.00 folk a 30 minute call. If you were to do the math that would add up to a great deal of money over time. Some inmates do not Recieve financial income from family So they Rely on working a prison Job that pays $2.00 day. The phone is important for inmates to maintaine contact w/ Relitives / friends & Attorneys, and its hard to do that with such high Rates. I ask you to consider lowering calling Rates So that everyone can afford to contact family & friends & most importantly w/ their children

Thank you for your times

Sincerly

Steven Morello
