The variables depicted on this map are for guidance and planning purposes only and are not intended to replace site specific resource area delineations necessary for applications prepared pursuant to the Coastal Wetlands regulations or other related regulations.
The Shoreline Type variable is determined along the 2001 high-water shoreline.
Dashed black lines show littoral cell boundaries.
Littoral Cell 1
Littoral Cell 2
Stony Beach
Hull Bay
Atlantic Ocean
Nantasket Beach
This map is from the South Shore Coastal Hazards Characterization Atlas, published by the Massachusetts Office of Coastal Zone Management (CZM). CZM makes no representations or warranties with respect to the definitiveness of the data presented. Prepared by Applied Coastal Research and Engineering, Inc., December 2005.
