The Massachusetts Board of Registration in Nursing, as an administrative agency of state government, protects the health, safety, and welfare of the citizens of the Commonwealth through the regulation of nursing practice and education. General Law Chapter 112, section 81A, authorizes the Board to establish regulations (i.e. standards) for the approval of nursing education programs that prepare graduates for initial nurse licensure. The Board also monitors each approved program's compliance with the established standards to ensure that program graduates are prepared to practice nursing safely. The Board's regulations for the approval of nursing education programs can be found at 244 CMR 6.00: Approval of Nursing Education Programs and the General Conduct Thereof.

Approval of a nursing education program is a public action, which signifies regulatory compliance. It is the legal recognition by the Board that a nursing education program is approved to operate. Nursing education programs receive one of the following approval designations based on their ability to demonstrate compliance with 244 CMR 6.00.

- ❖ **Prerequisite Approval:** a parent institution has provided satisfactory evidence of its *potential* ability to establish a nursing education program complying with the Board's regulations at 244 CMR 6.00.
- ❖ **Initial Approval:** a parent institution has provided satisfactory evidence of its ability to achieve compliance with the Board's regulations at 244 CMR 6.00. It is the prerequisite for the admission of students and remains in effect through the Board's determination of the program's ability to achieve Full approval status
- ❖ **Full Approval:** a parent institution has provided satisfactory evidence of the program's continuous compliance with the Board's regulations at 244 CMR 6.00.
- ❖ **Approval with Warning:** issued to a parent institution to signify that the program has not satisfactorily demonstrated *ongoing* compliance with the Board's regulations at 244 CMR 6.00. Programs must correct the regulatory deficiencies identified by the Board within 12 months, unless otherwise directed. Graduates of programs designated the Approval with Warning status are eligible to write the National Council Licensure Examination.

A list of Board-approved nursing education programs is attached. The following list identifies the approval status of these programs, as of October 2008:

- **Prerequisite Approval Status:** Practical Nurse Program, Bay Path Regional Vocational Technical School; Practical Nursing Program, Blackstone Valley Regional Vocational Technical School.
- **Initial Approval Status:** Baccalaureate Degree Nursing Program, Massachusetts College of Pharmacy and Health Sciences; Practical Nurse Program, C.H. McCann Technical School; Practical Nurse Program, Medical Professional Institute.
- **Approval with Warning:** None.
- **Full Approval Status:** All other programs.
- **Discontinued Program:** Practical Nursing Program, U.S. Army, Region A 91WM6 Program, 11th BN(HS/PN), 98th DIV(IT)3
