2009 Exercises

MASSACHUSETTS STATEWIDE EXERCISE CALENDAR

PURPOSE

The purpose of this calendar is to ensure consistent statewide communication and coordination of all homeland security/emergency preparedness exercises in the Commonwealth. This calendar will enhance the planning of exercises, prevent duplication of efforts, ensure resources are not overextended during training or exercises, and maximize the efficiency of training and exercise appropriations. Moreover, schedule collaboration can present opportunities for jurisdictions and agencies to fulfill multiple grant / program requirements by coordinating exercises. This calendar will be available to all federal, state, and local partners and will be updated on a monthly basis. The Massachusetts Statewide Exercise Calendar can be viewed at the MEMA website: www.mass.gov/mema under the *Training Department* section.

If you have any questions regarding this Calendar please feel free to contact Mike Russas, Exercise Coordinator of MEMA at (508) 820-2018, or via email at michael.russas@state.ma.us.

EXERCISE GUIDANCE / RESOURCES

For assistance in designing, conducting and evaluation of homeland security / emergency preparedness exercises, the Commonwealth is utilizing the Homeland Security Exercise and Evaluation Program (HSEEP). HSEEP is a capabilities and performance based exercise program which provides a standardized process, methodology, and terminology for exercise design, development, conduct, evaluation, and improvement planning.

In addition to providing a standardized exercise process, HSEEP also facilitates the creation of self-sustaining, capabilities-based exercise programs by providing tools and resources such as guidance, training, and technology. This blended approach to HSEEP implementation promotes exercise expertise, while advancing a standardized means of assessing and improving preparedness across the Nation.

HSEEP Website: <http://hseep.dhs.gov>

MASSACHUSETTS STATEWIDE EXERCISE CALENDAR

CURRENT PARTICIPATING AGENCIES / DEPARTMENTS

State:

Executive Office of Public Safety & Security (EOPSS)
Massachusetts Emergency Management Agency (MEMA)
Department of Environmental Protection (DEP)
Department of Public Health (DPH)
Massachusetts Port Authority (MassPort)
Massachusetts Turnpike Authority (MTA)
Massachusetts State Police (MSP)
Office of the Chief Medical Examiner (OCME)
1st Civil Support Team – Massachusetts National Guard

Homeland Security Advisory Council Regions:

Northeast Region Homeland Security Advisory Council (NEHSAC)
Southeast Region Homeland Security Advisory Council (SEHSAC)
Central Region Homeland Security Advisory Council (CRHSAC)
Western Region Homeland Security Advisory Council (WRHSAC)
UASI – Metro Boston (UASI)

Federal:

Federal Emergency Management Agency Region 1 (FEMA)
United States Coast Guard – Sector Boston (USCG)

MASSACHUSETTS STATEWIDE EXERCISE CALENDAR

EXERCISE TYPES

(HSEEP)

Discussions-based Exercises:

Seminar. A seminar is an informal discussion, designed to orient participants to new or updated plans, policies, or procedures (e.g., a seminar to review a new Evacuation Standard Operating Procedure).

Workshop. A workshop resembles a seminar, but is employed to build specific products, such as a draft plan or policy (e.g., Training and Exercise Plan Workshop is used to develop a Multi-year Training and Exercise Plan).

Tabletop Exercise (TTX). A tabletop exercise involves key personnel discussing simulated scenarios in an informal setting. TTXs can be used to assess plans, policies, and procedures.

Game. A game is a simulation of operations that often involves two or more teams, usually in a competitive environment, using rules, data, and procedure designed to depict an actual or assumed real-life situation.

Operations-based Exercises:

Drill. A drill is a coordinated, supervised activity usually employed to test a single, specific operation or function within a single entity (e.g., a fire department conducts a decontamination drill).

Functional Exercise (FE). A functional exercise examines and or validates the coordination, command, and control between various multi-agency coordination centers (e.g., emergency operation center, joint field office, etc.). A functional exercise does not involve any “boots on the ground” response (e.g., firefighters decontaminating mock victims).

Full-scale Exercise (FSE). A full-scale exercise is a multi-agency, multi-jurisdictional, multi-discipline exercise involving functional (e.g., joint field office, emergency operation centers, etc.) and “boots on the ground” response (e.g., firefighters decontaminating mock victims).
