

Public Utility Analyst

Economist II

Agency Name:	Department Of Public Utilities
Official Title:	Economist II
Functional Title:	Public Utility Analyst
Occupational Group:	Other
Position Type:	Civil Service
Full-Time or Part-Time:	Full-Time
Salary Range:	\$43,978.48 to \$63,379.42 Annually
Bargaining Unit:	06
Shift:	Day
Confidential:	No
Number Of Vacancies:	1
City/Town:	Boston
Region:	BOSTON
Facility Location:	Department of Public Utilities One South Station Boston, MA 02110
Application Deadline:	03-28-2008
Apply Online:	No
Posting ID:	J13686

Duties:

The Public Utility Analyst will work within the Electric Power Division, focusing primarily on two areas: (1) the operation of the retail electricity supply markets in MA (both regulated and competitive), and (2) the deployment of demand-side (energy efficiency, distributed generation, and demand response) and renewable resources. The Public Utility Analyst will (i) review and analyze filings submitted to the Department, (ii) gather data and perform research to be used in preparation of Department decisions, (iii) provide recommendations regarding the disposition of issues before the Department, and (iv) write Department reports. He/she will work with other Public Utility Analysts, regional planners, economists, accountants, engineers, and attorneys within the Department, and will interact with representatives of other state, regional, and federal government agencies, as well as with groups representing the interests of the general public and private businesses. The position requires the ability to write concisely, to express thoughts clearly, and to develop ideas in logical sequence. Incumbents of positions at Public Utility Analyst/Economist II level receive general supervision from employees of higher grade who assign work and review performance through verbal and written reports for effectiveness.

Qualifications:

Minimum Entrance Requirements: Applicants must have at least (A) three years of full-time, or equivalent part-time, professional experience in the field of economics, or (B) any equivalent combination of the required experience and the substitutions below. Substitutions: I. A Bachelor's degree with a major in economics may be substituted for a maximum of two years of the required experience.* II. A Graduate degree with a major in economics may be substituted for the required experience.* III. A Bachelor's or higher degree with a major other than in economics may be substituted for a maximum of one year of the required experience.* Special Requirements: None.

Preferred Qualifications:

Strong analytical skills are essential, excellent computer, oral, and written communication skills are necessary and must be demonstrated.

Comments:

This is a Civil Service position.

The successful candidate may be required to attend a two week utility regulation course held out of state.
