## RPO Program Recap

We are the **Health Policy Commission**, an independent state agency that develops policy to reduce health care cost growth and improve the quality of patient care.

**Chapter 224** charged the HPC with developing and implementing the RPO Program.

Provider Organizations subject to the law must register with the HPC **every two years** and complete an **annual filing with CHIA**.

The HPC **divided Initial Registration into two parts** in the first year of the program. Provider Organizations submitted their Part 1 information in November 2014.

This presentation will review the **Part 2 requirements**.
HPC Registration Cycle

- **Year 1**: Initial Registration: Part 1
- **Year 2**: Initial Registration: Part 2
- **Year 3**: Reregistration
- **Year 4**: Reregistration
- **Year 5**: Reregistration
Goals of Part 1

- Identify Provider Organizations subject to the law
- Allow Provider Organizations to familiarize themselves with requirements
- Gain general understanding of registrants’ size and structure
- Come to agreement on reportable corporate affiliates and contracting affiliates before requiring additional data
Goal of Part 2

Create a relational database by collecting information about each Provider Organization and its relationships with other Providers.
Program Structure

- Self-reported
- Uniform
- Linkable
- Public
Registration of Provider Organizations

Many data elements have been removed from the proposed DSM or redesigned to reduce administrative burden.

RPO-25 - RPO-30

Secondary Reporter

- Provide the name and contact information for the second person that your organization has designated as its contact for the RPO Program

See p. 14-15 of DSM

RPO-40

Description of Community Advisory Boards

- Community Advisory Boards include patient and family advisory and community benefit advisory boards
- If your organization provides information about one of its community advisory boards to the AGO, you may state this instead of describing that board
- If your organization does not have community advisory boards, select the appropriate checkbox

See p. 17 of DSM
Indicate whether your organization is in compliance with all applicable registration and filing requirements of the Corporations Division of the Secretary of the Commonwealth and the Non-profit/Charities Division of the Office of the Attorney General.

Use this question to indicate which files are applicable to your organization.

Contracting Entity File – Content

You will complete this file for each of your Corporately Affiliated Contracting Entities.

This question will be automatically prepopulated with the names of each corporate affiliate that you identified as being a Contracting Entity in RPO-48.

Select the payer groups with which the Contracting Entity establishes at least one contract.

Private Commercial
- Private commercial with BCBS, HPHC, and/or THP
- Other private commercial

Medicare
- Medicare ACOs (e.g., Pioneer ACO, MSSP, Next Generation ACO)
- Medicare Advantage

Medicaid
- Medicaid Managed Care

See p. 31 of DSM
Contracting Entity File – Content

- Indicate whether the Contracting Entity establishes contracts on behalf of a Health Care Professional that it, or a corporate affiliate, does not employ, or on behalf of a Provider with which the Contracting Entity does not have a Corporate Affiliation.

- If you were not required to list contracting affiliates because your Contracting Entity only has a relationship with individual physicians, rather than with medical groups (e.g., through PPAs), you should select “Yes.”

See p. 31 of DSM
If the Contracting Entity establishes contracts on behalf of Health Care Professionals that it, or a corporate affiliate, does not employ, or on behalf of a Provider with which the Contracting Entity is not corporately affiliated, indicate which services you offer to these individuals or organizations:

- Administrative Support: Billing
- Administrative Support: General
- Care Management
- Carrier Contract Management
- Information Technology
- Other Management
- Professional Training
- None of the above

Examples of services in the DSM (see page 36)
Contracting Entity File – Content

- Indicate whether the Contracting Entity establishes contracts that include Global Payments for participating Providers or Provider Organizations

  □ The Contracting Entity only establishes contracts with Global Payments through which it is eligible for surpluses, but is not responsible for deficits.

  □ The Contracting Entity establishes contracts with Global Payments through which it is eligible for surpluses and responsible for deficits.

  □ The Contracting Entity does not establish any contracts that include a Global Payment.

- If the Contracting Entity does not establish any contracts that include a Global Payment (option 3), skip to question RPO-73

See p. 32 of DSM
Contracting Entity File – Content

Global Payments – Eligibility for Surplus

- Indicate the types of Providers that are eligible for surplus under at least one of the Contracting Entity’s Global Payment arrangements

- This question is limited to Global Payment arrangements that were negotiated by the Corporately Affiliated Contracting Entity for which you are completing the question

☐ Primary Care Physicians
☐ Specialists – Behavioral Health
☐ Specialists – Non-Behavioral Health
☐ Hospital(s)
☐ Post-Acute
☐ Ancillary
☐ Other
☐ None of the above

See p. 33 of DSM
Contracting Entity File – Content

- Indicate the types of Providers that are responsible for deficits under at least one of the Contracting Entity’s Global Payment arrangements.

- This question is limited to Global Payment arrangements that were negotiated by the Corporately Affiliated Contracting Entity for which you are completing the question.

  - Primary Care Physicians
  - Specialists – Behavioral Health
  - Specialists – Non-Behavioral Health
  - Hospital(s)
  - Post-Acute
  - Ancillary
  - Other
  - None of the above

- If the Contracting Entity only establishes contracts with Global Payment arrangements through which it is eligible for surplus, but not responsible for deficit, skip this question.

See p. 33 of DSM
Contracting Entity File – Content

- Indicate if and how the Contracting Entity uses withholds with regard to its subdivisions or to individual physicians

  ☐ In the case of organizational surplus, the Contracting Entity returns withholds to all subdivisions (or individual physicians).

  ☐ In the case of organizational surplus, the Contracting Entity returns withholds only to subdivisions that meet performance metrics (or individual physicians that meet performance metrics).

  ☐ In the case of organizational deficit, the Contracting Entity does not return withholds to any subdivision (or individual physicians).

  ☐ In the case of organizational deficit, the Contracting Entity returns withholds only to subdivisions that meet performance metrics (or individual physicians that meet performance metrics).

  ☐ The Contracting Entity uses other methods to determine whether to return withholds.

  ☐ Not applicable; the Contracting Entity does not use or make decisions about the return of withholds.

- If the Contracting Entity only establishes contracts with Global Payment arrangements through which it is eligible for surplus, but not responsible for deficit, skip this question
In the case of **organizational surplus**, the Contracting Entity returns withholds only to subdivisions that meet performance metrics (or individual physicians that meet performance metrics).

In the case of **organizational deficit**, the Contracting Entity does not return withholds to any subdivision (or individual physicians that meet performance metrics).

In the case of **organizational surplus**, the Contracting Entity returns withholds to all subdivisions (or individual physicians).

In the case of **organizational deficit**, the Contracting Entity returns withholds only to subdivisions that meet performance metrics (or individual physicians that meet performance metrics).
Indicate how the Contracting Entity determines the methodology by which subdivisions distribute funds and/or deficit responsibility to their component subdivisions

- The Contracting Entity determines the method by which subdivisions allocate surplus and/or deficit.
- The Contracting Entity sets standards regarding allocation of surplus and/or deficit that subdivisions must follow.
- Subdivisions are required to inform the Contracting Entity how they decide to allocate surplus and/or deficit.
- The Contracting Entity does not have any subdivisions and therefore the Contracting Entity makes all decisions about allocation of surplus and/or deficit to individual physicians.
- None of the above.

- Indicate how you are providing the Physician Roster for this Contracting Entity
- Abbreviated applicants do not have to provide a Physician Roster
- If you have multiple Contracting Entities that establish contracts on behalf of the same group of physicians, you may be able to submit a single physician roster. Please set up a one-on-one meeting if you wish to pursue this option.

Facilities File – Content

- In the Facilities file, you must report each licensed Facility with which you are corporately affiliated
  - You are not required to report unlicensed sites
  - You are not required to list Facilities with which you are not corporately affiliated

- Each entry in the Facilities file represents a location, rather than a license
  - If a building holds multiple licenses (e.g., an Acute Hospital license and Mental Health Facility license), you are only required to list it once
  - If a Facility has multiple satellite locations covered by the same license, the locations must be listed separately
  - A Campus may be reported as a single entry in the Facilities file, provided that the licensed buildings, areas, and structures are operating under a single license

Physician Roster File – Key Terms and Explanations

- A **practice site** is the physical location where the physician is providing direct patient care services
  - This site may or may not be owned by the physician’s medical group
  - Each physician must have a primary practice site listed in the Physician Roster
  - If the physician provides direct patient care services at more than one physical location, the Provider Organization must enter the physician’s secondary practice site as well
A **medical group** is the solo or group practice with which the physician is associated

- Large medical groups may have multiple practice sites
- Small medical groups may only have one practice site
- The medical group may have the same EIN and NPIs as each of its practice sites
- Some physicians (e.g., hospitalists) may not be members of a medical group
A Local Practice Group is a group of Health Care Professionals that function as a subgroup of the Provider Organization (i.e., groups broken out from the larger Provider Organization for purposes of data reporting and market comparisons).

- Other commonly used names for Local Practice Groups include Regional Service Organizations, Local Care Organizations, or Local Care Units
- Local Practice Groups often include physicians from multiple medical groups who practice in the same region, or who are affiliated with the same hospital
- A Local Practice Group may or may not be a separate legal Entity
- Not all Provider Organizations will have Local Practice Groups
- The HPC strongly recommends scheduling a one-on-one meeting with RPO Program staff to discuss which groups, if any, should be considered Local Practice Groups for your organization

Complete or substantial staffing of an Acute Hospital service line

**Description**

The Provider Organization must report the sharing of physician resources when an Entity with which the Provider Organization is not corporately affiliated is providing complete or substantial staffing of an Acute Hospital inpatient or outpatient service line, either at the main site or a satellite site of the Acute Hospital.

- For guidance on what constitutes a service line:
  - See the list in RPO-88
  - Hospital medicine and intensive care medicine are also included
  - Sub-specialties (e.g. pediatric oncology) do not themselves constitute a service line

**Reporting**

Reported by the Provider Organization that is corporately affiliated with the Acute Hospital whose service line is being staffed
