Hi Commonwealth of Massachusetts,

I truly thank you for watching out for the safety of Massachusetts residents, but I am trying to install a residential elevator for my daughter who has extreme fatigue. We can't fit the residential elevators that are currently approved in MA into her home, though if we only lived in New Hampshire or Rhode Island, we could have a pneumatic elevator! I understand their safety records are excellent. They are much less expensive AND easier to add into an existing home. I hope you will reconsider and approve these for home use.

Sincerely,

--
