

MEMORANDUM

TO: DCAMM Business Partners
RE: Potential Additional Opportunities for Veterans
FROM: DCAMM's Office of Access and Opportunity
DATE: November 7, 2016

Dear DCAMM Business Partner:

Last year Massachusetts spent more than \$4 billion procuring goods and services, including DCAMM's construction projects, design services and other DCAMM-related goods and services.

Please see the enclosed information about new opportunities for veteran owned businesses. In keeping with Governor Charlie Baker's expansion of the state's Supplier Diversity Program as a way to create additional opportunities for our Veterans, DCAMM encourages those who have served our country through military service to become certified with the Commonwealth's Supplier Diversity Office and take advantage of this certification.

If you are a Veteran-Owned Business (VBE) or a Service-Disabled Veteran-Owned Business (SDVOBE) and are seeking ways for your business to become more marketable on DCAMM and DCAMM-related projects, we urge you to become SDO Certified and increase your business opportunities.

For more information on how to become SDO Certified, please see the attached letter from Kathleen K. Reilly, Acting Assistant Secretary for Operational Services Division.
