TABLE OF CONTENTS

Report Organization	1
Table 1: Summary of Commonwealth-Owned Real Property by Executive Office Total land acreage, buildings, and gross square feet under each Executive Office	7
Table 2: Summary of Commonwealth-Owned Real Property by County Total land acreage, buildings, and gross square feet under each County	11
Table 3: Commonwealth-Owned Real Property by Executive Office and Agency Detail site names with acres, buildings, and gross square feet under each Agency	15
Table 4: Commonwealth Buildings and Improvements at Each State Facility or Site by Municipality Detail building list under each facility with site acres and building area by City/Town	77
Table 5: Commonwealth Active Lease Agreements by Municipality Leases between the Commonwealth and Public and Private Entities	221
Appendices	233
Appendix I: Data Sources	235
Appendix II: Glossary of Terms	239
Appendix III: Municipality Index Key	247
Appendix IV: Data Reconciliation Forms	253

Report Organization

This page was intentionally left blank.

REPORT ORGANIZATION

This report contains five tables offering various ways of organizing, analyzing and displaying information about the property owned and leased by the Commonwealth.

Table 1: Summary of Commonwealth-Owned Real Property by Executive Office

This table shows statistical groupings of Commonwealth-owned property by Executive Office and User Agency. The table lists the total land area in acres, the total number of improvements and the gross square footage of all improvements for each agency and executive office.

Table 2: Summary of Commonwealth-Owned Real Property by County or Region

This table is a statistical grouping of Commonwealth-owned property by County. Since some county governments have been abolished in recent years, where applicable, the names used refer to the geographic region they once encompassed and not the governmental body¹. This table shows the executive office overseeing property in each county. Summarized are total acreage, number of improvements and gross square footage of improvements for each executive office within each county.

Table 3: Commonwealth-Owned Real Property by Executive Office and Agency

This table is a facility detailed list depicting Commonwealth-owned facilities by Executive Office and User Agency. The facility or site name under each agency is alphabetical by municipality and shows totals of acreage, number of improvements and gross square footage for each facility. Open land sites will show no improvement or gross square feet.

Table 4: Improvements at Each State Facility by Municipality

This table is a detailed list of Commonwealth-owned buildings, structures and other improvements at each Commonwealth facility. This table is organized by City and Town, showing alphabetically each State user agency managing a facility or overseeing a site in that municipality. The total acreage for each site is listed, the name of each improvement at that site is listed, and the total number of any same type structure (for instance 3 sheds) is listed, as well as the gross square footage of each improvement. Open land sites will show no improvement or gross square feet. Totals for Commonwealth property in each municipality are shown. This listing is determined by the reporting to this department (MAssets) of all land and buildings in a particular community by either the user agencies or the municipalities.

Table 5: Active Lease Agreements

This table lists sites occupied by a State agency, but not owned by the Commonwealth. Table 5 provides the start and end date of the lease agreement, location of the space and building usable square footage occupied. For more detailed information on a particular lease agreement, please contact the Division of Capital Asset Management and Maintenance, Office of Leasing and State Office Planning at (617) 727-8000.

How to Find a State Owned Property

If you know which State Agency manages or occupies a facility...

See Appendix 2, Glossary of Terms for a helpful explanation of the letter acronyms for agencies as well as other terms used in this report. Look in Table 1 to find the executive office and agency of a property. In Table 3 the same executive office and agency will be listed by municipality with all the properties under that agency. Finally in Table 4 look up the municipality and improvements will be listed under all facilities under each agency.

For example, to find the Bay State Correctional Center knowing it is managed by DOC, you would find DOC in the Glossary of Terms spelled out as the Department of Corrections. Looking up DOC in table 1 you see DOC listed under the Executive Office of Public Safety. Looking through the section on the Executive Office of Public Safety in Table 3 indicates that the Bay State Correctional Center is located in Norfolk, and that these twenty-one improvements are located on 25 acres of land. A list of the improvement / building names for this facility is available in Table 4 in the municipality of Norfolk.

If you know the city or town where the facility is located, but not the managing agency...

Look in Table 4, Improvements at Each State Facility by Municipality. Table 4 will also show other facilities in the municipality that are managed by other state agencies.

To find out what facilities (sites) are managed by the same agency statewide...

Go to Table 3, where facility detailed information on agencies is located. Under Environmental Affairs you will see, DCR the Department of Conservation and Recreation is the management agency of the Henry Graf Skating Rink in Newburyport. In this table you will see all other properties managed under DCR. To find more details about the Henry Graf Skating Rink go to Newburyport in Table 4. Here you'll see the Skating Rink is 29,614 gross square feet. The Rink together with the other improvements occupies a site of 6.9 acres.

To determine the geographic distribution of state-owned property...

You can find the data in Table 2, Summary of Commonwealth-Owned Real Property by County or Region. Keep in mind that some county functions have been dissolved; where applicable, we refer to counties as a geographic region only in relation to the placement of a property within a particular area of the state.

If you want to compare how the properties are allocated between Executive Offices...

See Table 1, Summary of Commonwealth-Owned Real Property by Executive Office.

USING THE APPENDICES

Appendix 1 describes the **Data Sources** used to prepare this report.

See the **Glossary of Terms** in **Appendix 2** for an explanation of all User Agency Codes as well as any other abbreviations used in this report. This Appendix also defines technical terms used both in collecting data and in generating the report.

Appendix 3: Municipality Index Key will help you locate the, county and section of the county in which a municipality resides. For example: Medway – Norfolk – West Norfolk

Appendix 4: Data Reconciliation Forms to correct information on an existing property. Please notify us of an acquisition, a disposition or building and data changes. Please update any information found in the report by filling out one of these forms and forwarding it to us. We appreciate your knowledge of property you oversee. Thank you.

Legislation

Sheriff's Departments

In the Acts of 2009 Chapter 61 The Legislature designated certain Sheriff Department land in the viable counties of Barnstable, Bristol, Norfolk, Plymouth and Suffolk be transferred to the Commonwealth. Therefore in the Sheriff's Department listings you will see new facilities under Sheriff's Department Barnstable (SDC), Sheriff's Department Bristol (BSD), Sheriff's Department Norfolk (SDN), Sheriff's Department Plymouth (SDP) and Sheriff's Department Suffolk (SDS). Ongoing negotiations with the viable Counties will determine additional real estate transactions to be reported at a future date.

Department of Transportation

In the Acts of 2009 Chapter 25 legislation has reformed and integrated transportation agencies and authorities into a new streamlined Massachusetts Department of Transportation. Various transportation agency property data will be updated in this report as The Department of Transportation communicates with DCAMM.

Energy and Environmental Affairs

The Legislature has addressed the change in functions and property of the former and new Executive Office of Energy and Environmental Affairs (EOEEA) agencies as well as several other state agencies in Chapter 41 of the Acts of 2003.

The former Metropolitan District Commission (MDC) and Department of Environmental Management (DEM) are now the Department of Conservation and Recreation (DCR).

The former Department of Food and Agriculture (DFA) is now the Department of Agricultural Resources (DAR).

The former Department of Fisheries, Wildlife and Environmental Law Enforcement (DFWELE), the former Division of Fisheries and Wildlife (FWE) and the former Division of Marine Fisheries (DMF) are now all under the Department of Fish and Game (DFG).

For comments or questions about this report or any state-owned property, please contact us.

Division of Capital Asset Management and Maintenance, Enterprise, Strategy and Operations, One Ashburton Place, 16th Floor, Boston, MA 02108. If more convenient, e-mail Linda.Alexander@state.ma.us. Or call at (617) 727 4006 Ext 31578.

1 Counties currently dissolved are Berkshire, Essex, Franklin, Hamden, Hampshire, Middlesex, and Worcester.

I Data Sources

This page was intentionally left blank.

Appendix I: DATA SOURCES

Massachusetts Asset Management System (MAssets) initially collected data from the 351 municipalities across the Commonwealth in the late 1980s and from state agencies reporting their land and building holdings. Reporting on the Commonwealth's Real Property is in accordance with the requirements of Chapter 7, Section 40K.

Mapping efforts began at that time to record the geographic location of all state-owned land parcels and buildings which enables MAssets staff to map and analyze the property more effectively using GIS (**G**eographical **I**nformation **S**ystems). The GIS format maintained by MAssets staff members allows each office of the Division of Capital Asset Management and Maintenance to benefit from many applications of mapping and property analysis in the acquisition, improvement, re-use, disposition and leasing of Commonwealth properties.

In 1999 pursuant to legislative authorization, DCAMM initiated the Capital Asset Management Information System (CAMIS). Through this program DCAMM conducted a comprehensive condition assessment of the state's capital assets and procured software to manage the collected data. Through the office of Facilities Management and Maintenance, DCAMM has implemented the CAMIS program to both assist facilities in their daily maintenance activities and to provide data for DCAMM staff to optimize statewide capital maintenance and repair planning.

The continuing communication efforts between CAMIS and MAssets involving new construction, demolition, facility management, surplus property, building use and agency space sharing, continues to keep the real property inventory up to date.

In addition, Property Transaction Project Managers in the Office of Real Estate Services, who manage the purchase and sale of real property for the majority of Commonwealth agencies, work closely with MAssets staff to ensure that each acquisition and disposition of land and buildings is logged into the Commonwealth portfolio of real property. They are processing approximately two hundred land transactions at any one time. They also report on information regarding telecom leases on state property, easements, land swaps and care & control agreements between agencies.

DCAMM's Legal staff informs MAssets of final real estate closings with deed reference information. The Division of Capital Asset Management and Maintenance Court Facilities Unit further helps to keep MAssets staff members apprised of changes in the Commonwealth's Court inventory.

MAssets staff consults with assessors of cities and towns statewide to verify information on parcels in their municipalities,¹ and with various state agencies to confirm their land holdings and update any change in status. During Master Planning MAssets staff is an integral part of mapping and facility reconciliation.

At the Division of Capital Asset Management and Maintenance the Office of Leasing and State Office Planning maintain information on properties leased on behalf of Commonwealth agencies. The information contained in the Leasing database is constantly changing, based on the commencement and expiration, as well as the terms, of each agreement. The Leasing Office diligently seeks the most appropriate and inexpensive rental space available to suit each agency's needs and record information on each agreement in their database as each transaction is completed.

¹ Note that properties in each of Boston's neighborhoods are listed under Boston, with the neighborhood subdivisions, rather than listing each neighborhood separately.
