

Operational Services Division  
State Surplus Property Office  
One Ashburton Place, Room 1017  
Boston, MA 02108

Thank you for your interest in the Massachusetts Surplus Property Program. The program uses two primary methods to sell state owned surplus property which are listed below:

**Public On-Site Auctions**

In most cases, vehicles and related equipment are sold at on-site public auctions. Currently our office uses Auctions International Inc. to perform these sales. Their web site is: [www.auctionsinternational.com](http://www.auctionsinternational.com). When the State Surplus Property Office schedules an auction, the sale is advertised on their web site as well as in the auction section of the Boston Globe on the Sunday proceeding the day of sale. In addition, this office has installed an auction hot-line (617-720-3199), which you are free to call for information about our sales.

Most on-site auctions are held on either a Friday or Saturday at 10:00 a.m. The public may view vehicles slated for sale on a day and time to be specified prior to the auction. A complete list of the items along with terms and conditions of the sale will be available at the particular auction site where the on-site auction will be held.

Auctioned items are sold "as is, where is". Full payment must be made at the conclusion of the auction and must be made by cash, money order or bank check with two forms of identification, one of which must be a valid driver's license.

Auctions are scheduled several times throughout the spring, summer, and fall. Due to inclement weather conditions, auctions are not conducted during the winter months.

**Online Auctions**

On occasion, vehicles and other equipment are sold online using the Auction International web site. Other surplus property such as medical, computer, and office equipment may be listed online using the Property Room website ([www.propertyroom.com](http://www.propertyroom.com)) and GovDeals Inc. ([www.govdeals.com](http://www.govdeals.com)) web sites. All sites are fairly simple to use and navigate.
