Category 2, Fixed Pricing

The delivery of No.2 Heating Oil is purchased as a fixed adder over the weighted average price of the NYMEX for No. 2 Heating Oil. The weighted average will be determined at time of purchase by averaging the number of months and/or gallons needed. It is strongly encouraged that eligible entities solicit quotes in zones with multiple awarded vendors. Vendors will work with the individual purchasing entities to determine specific time to lock into the NYMEX, when it is deemed to be most advantageous. The specific volume will be verified when NYMEX is locked in by the purchasing entities. Purchasing Entities reserves the right to roll over purchases to additional months if needed. It is the responsibility of the Contractor and Purchasing Entity to come to a decision of how unused gallons will be handled prior to entering into an agreement and to ensure that this agreement is in writing.

How to Purchase From The Contract

Contract users should place orders by directly contacting the appropriate vendor. Orders should not be placed through COMMBUYS. 4. In the line for the gallons, enter the total gallons received in the Quantity and the total price in the Unit Price. **The total price should not include taxes.**
5. In the line for taxes, enter 1 in the Quantity and enter the total amount of taxes in the unit price.
6. Enter accurate invoice numbers in the mandatory Invoice Number field for each item.
7. Attach scanned copies of all records pertaining to order placement, the receipt of goods or services, and the final invoice in the "Attachments" section.

The final invoice amount should match the Release Requisition total on the Summary tab.
