RPA Release: This contract has been set up as RPA Release enabled to allow contract users who place reoccurring orders directly with the vendor to capture spend after-the-fact associated with this contract. Contract Managers have carefully selected the contracts that would qualify for RPA Release transactions. Typically this is due to system or process impracticality and/or emergency situations preventing the standard COMMBUYS purchase order processes from being followed to process paper invoices. For more details please consult the COMMBUYS Policy Document.

Once the paper invoice for the goods or services is received by the agency, follow the directions in the [RPA Release Job Aid](#) located at Job Aids for Purchasers when entering the information into COMMBUYS; use below guidance for entering items off of the paper invoice and into a Release Requisition in the “Items” Tab:

1. Follow directions in RPA Release Enabled Requisition Job Aid until you come to the Search field in the “Items tab.”
2. In the “Items” tab Search field, type in the following to get the items: contract description (“GRO32”), and the vendor name.
3. Select the appropriate catalog line; a line has been setup for RPA Release transactions.
4. In the zero dollar line items, accurately fill in the data.
5. Enter accurate invoice numbers in the mandatory Invoice Number field for each item.
6. Attach scanned copies of all records pertaining to order placement (could be an unofficial email quote), the receipt of goods or services, and the final invoice in the “Attachments” section.
7. The final invoice amount should match the Release Requisition total on the Summary tab.

Enter only one invoice per Release Requisition.
