Follow the Full Moon – December Blue Moon Wednesday, December 30 7:00 – 8:30 p.m.

The full moon has been a vital and revered part of many cultures for centuries. A “Blue”, actually *belewe* moon occurs only every 2.75 years, when 13 full moons happen within the calendar year.

We are lucky enough to finish out this year with a Blue Moon! Start your New Year’s Eve celebration with this moon program at Halibut Point State Park. Program includes explanation of moon phases and moon cycle, viewing of the Full Moon with telescope, as well as night time activities. Meet at the visitors center. Call 978-546-2997 for
