

The Massachusetts Department of Transportation
and
The Department of Conservation and Recreation
have scheduled three
Public Information Meetings
to discuss the
Charles River Basin Connectivity Study

Tuesday, October 11, 2011

6:30 to 8 PM

Shriners Hospitals for Children
51 Blossom Street, Boston

Thursday, October 13, 2011

6:30 to 8 PM

Community Rowing Boathouse
20 Nonantum Road, Brighton

Tuesday, October 18, 2011

6:30 to 8 PM

Morse School Auditorium
40 Granite Street, Cambridge

The purpose of these meetings is to provide an overview of the Charles River Basin Connectivity Study and gather comments at three locations within the study area.

MassDOT's design consultant will present the existing conditions analysis completed to date, and describe in detail how the study will identify the various gaps that preclude a seamless connection across the ten Charles River Basin bridges, their adjacent intersections and along the path system throughout the Charles River Reservation. Following the presentation, MassDOT and DCR staff will lead a discussion to answer questions and gather public comments.

The community has declared that these facilities are accessible to all in compliance with the ADA/Title II. However, persons in need of ADA/Title II accommodations should contact John Lozada by phone at (617) 973-7171 or email to MASSDOT.CivilRights@dot.state.ma.us. To be added to the Charles River Basin email distribution list, please contact Stephanie Boundy, Public Outreach Coordinator for MassDOT's Accelerated Bridge Program, at Stephanie.Boundy@state.ma.us.
