

# PUBLIC ADVISORY

## Transported Firewood Prohibited!

Beginning in the 2010 camping season, transportation of firewood into or out of MA State Park campground facilities is prohibited.

Your parks and forests are at risk of infestation by the Asian Longhorned Beetle and other pests or diseases. Invasive species have devastated forests in the U.S. Midwest, and have recently been found in the Worcester, Massachusetts area.

- Leave firewood at home. Get firewood at the campground.
- Firewood is available for a \$5 donation per bundle, or \$10 for 3 bundles at the park. Parks with campstores, pricing will vary.
- Burn all firewood at your campsite, or leave firewood for the next camper. Never bring firewood home.

Male Asian Longhorned Beetle  
approximately 1 3/4 " long
