- ✦ State Solar & Wind Incentives - DOER
  - ✦ Green Communities - DOER
  - ✦ The Procurement Process - DOER
  - ✦ Utility Ownership Model - Northeast Utilities
- 3:00 p.m. Wrap-Up & Networking

Generating solar and wind power on former municipal landfills makes both environmental and economic sense. It provides clean renewable energy, reduces greenhouse gas emissions, and creates new revenue streams for cities and towns. This workshop, the second in a series, will provide you with the tools you need to assess the redevelopment potential of closed landfill sites, navigate the permitting process, and harness state renewable energy incentives.

## DIRECTIONS

- ✦ From the Massachusetts Turnpike:  
Take Exit 4 to Interstate 91 North
- ✦ From Interstate 91:  
Take Exit 16 to Route 202 South and drive 0.8 mile to the HCC campus
- ✦ Using a GPS Device or Web-Based Mapping Service?  
Set your destination as:  
303 Homestead Avenue  
Holyoke, MA 01040
