

Climate Change Adaptation References

The references below are offered as an indicative list of the many materials available on the internet as well as in the offices of EEA for review. This is not intended as a full compendium of materials available, but a helpful guide for our adaptation subcommittees to use in their deliberations.

V. Natural Resources and Habitat

A. Scientific Studies

2008

1. Biodiversity management in the face of climate change: A review of 22 years of recommendations. Environmental Studies Department, University of California, Santa Cruz. May, 2008.
