**C. C&D Operations**

**1. C&D Materials Accepted**

Please record the tons of Materials Accepted by each Material Type for each State of Origin. Next, sum each Material Type into the TOTALS column, then sum that column into the Total Accepted box. For Material Type definitions refer to the Material/Waste Type Table on pages 3 - 5 in the accompanying “Instructions for Annual Solid Waste Facility Report – Construction and Demolition Processors and Transfer Stations”.

- Round all amounts to the nearest ton. If any material type is less than 0.5 tons, do not include that material.
- No NOT include Municipal Solid Waste accepted in this table.
- Do NOT include any waste oil or household hazardous waste/products.
- If the state of origin is not listed or an additional state is needed, fill in the blank column or cross out a state in an unused column and fill in the other state.
- If the material type is not listed, use one of the “Other” lines and fill in the name of the material. If more “Other” lines are needed, cross out an unused material type and fill in the other material name.

**2. C&D Materials Recycled or Used**

On the chart below, please complete all the columns. For each Material Type, list tonnage that was recycled or used and the location (including the City/Town and State) where the material was recycled or used. Use applicable Recycled or Used Types listed in the table above. For Material Type definitions refer to the Material/Waste Type Table on pages 3 - 5 in the accompanying "Instructions for Annual Solid Waste Facility Report – Construction and Demolition Processors and Transfer Stations". If more than one Material Type applies to a single location, list the location separately for each combination of Material and Use Type. Attach additional sheets if needed. Do NOT include MSW in this table.

Please record all municipal solid waste Diverted from disposal. List the names of all vendors for recycling/composting, material end-user(s) (including for Beneficial Use Determinations), and other transfer/processing/handling facilities. Record the tonnage (to the nearest ton) and material type handled by each vendor/end user. If a single vendor handles a number of common recyclables, like glass, cans and paper, then list that vendor once with the Material Type of "General Recyclables". Do NOT include C&D material in this table.

**E. Waste Bans**

Please provide load counts (numbers, not text like 'all') based on Waste Ban compliance activities. For the number of loads failing by material type, enter the number of failed loads, not the count of items or percent of the loads. For example, two failed loads for CRTs where one load has 5 CRTs and one load has 3 CRTs should be entered as 2 loads, not 8 CRTs.
