## **Introduction**

Chapter 275 of the Acts of 1989, as most recently amended by Chapter 78 of the Acts of 1998, (the Act) established the Drinking Water State Revolving Fund loan program in Massachusetts contemplated by Title XIV of the Amendments to the federal Safe Drinking Water Act (SDWA). It further created the Massachusetts Water Pollution Abatement Trust (the Trust) to implement the program. The Trust, together with the Massachusetts Department of Environmental Protection (MassDEP), is authorized under the Act to make loans to Public Water Suppliers (PWS) to finance the costs of eligible drinking water protection projects. In order to receive a loan, a potential borrower must file an Application for Financial Assistance with MassDEP, Bureau of Resource Protection (BRP). Once MassDEP has approved the Application, it will forward a Project Approval Certificate to the Trust. The Trust will then be authorized to fund the loan, subject to the availability of funds and subject to review by MassDEP and the Trust of financial information contained in the Application and development of terms and conditions for the loan.

Eligible projects will be determined in accordance with the priority lists established annually by MassDEP. ***A project must appear on the current MassDEP Intended Use Plan project listing to be eligible to apply for financial assistance.*** Applications for loans will be reviewed in accordance with the provisions of 310 CMR 45.00 (<http://mass.gov/dep/service/regulations/310cmr45.pdf>).

This package includes the Application Forms, Instructions and other information relative to supporting documentation required to be submitted as part of the Application. Do not submit the instructions with the Application. Applicants should note that neither the filing of an Application nor issuance by MassDEP of a Project Approval Certificate constitutes a binding commitment of the Trust or MassDEP to make a loan. Binding commitments, subject to the availability of funds, will be issued by the Trust after review of the financial information contained in the Application.

## **Changes for 2009**

**Loan Application Submission Requirements** - For 2009 we are requesting that applicants submit one paper copy and one PDF copy of the Loan Application. In an effort to reduce the amount of paper submitted, applicants may submit a ½ size set of plans rather than full size ones.

**Use of Road Flaggers and Police Details on Public Works Projects** - The Commonwealth promulgated new regulations (701 CMR 7.00) that identify when road flaggers or police details shall be used on Public Works projects. These regulations are applicable to SRF funded projects and also require the preparation of a construction zone safety plan. Both police details and road flaggers are eligible costs within the SRF program. The regulations and other guidelines can be found on the MassHighway web site at: [http://www.eot.state.ma.us/default.asp?pgid=content/police\\_detail&sid=about](http://www.eot.state.ma.us/default.asp?pgid=content/police_detail&sid=about).

**Excavation and Trench Safety Regulations** - The Massachusetts Department of Public Safety (DPS) passed new regulations (520 CMR 14.00) that require all excavators to obtain a permit prior to the excavation of a trench on public or private land. Permits will be issued by the municipality in which the excavation takes place. These regulations go into effect on March 1, 2009 and primarily deal with the safety of unattended trenches. The regulations may be found on the DPS website at: [http://www.mass.gov/Eeops/docs/dps/inf/520\\_cmr\\_14.00\\_excavation\\_trench\\_safety\\_final.pdf](http://www.mass.gov/Eeops/docs/dps/inf/520_cmr_14.00_excavation_trench_safety_final.pdf)

**Diesel Retrofit Requirements** - Last year, the Bureau of Waste Prevention began conducting inspections of SRF projects to assess the level of compliance with the Diesel Retrofit requirements. Inspections will continue in 2009 and compliance with these requirements is expected.

**PLEASE NOTE THAT THIS APPLICATION PACKAGE IS SUBJECT TO REVISION. IT DOES, HOWEVER, REFLECT THE BEST CURRENT INFORMATION ANTICIPATED TO BE NEEDED BY MassDEP AND THE TRUST TO REVIEW AND APPROVE YOUR PROJECT. PLEASE CONTACT MassDEP PRIOR TO SUBMISSION OF THIS APPLICATION.**

## **General Information**

***Please complete all parts of this application; incomplete or incorrect applications may delay review.***

1. *Use of This Application* - This is an application form for financial assistance from the Massachusetts Water Pollution Abatement Trust's State Revolving Fund (SRF) Program. This form is to request subsidized loan assistance and/or to request refinancing of debt obligations incurred by the local governmental unit (LGU) for the construction of drinking water protection projects. LGUs interested in receiving an SRF loan must complete and return this application.
2. *General Eligibility* - A project must meet the eligibility criteria of the SRF program in order to be eligible for financial assistance under the SRF Program. (See 310 CMR 45.04 and 45.07 at <http://mass.gov/dep/service-regulations/310cmr45.pdf>).
3. *Deadlines*- Please keep in mind three important deadlines: A vote on the local appropriation by the City Council, Town Meeting or Water District must be completed by June 30, 2009 and should be scheduled as far in advance of that date as possible. A complete application must be submitted by October 15, 2009. Construction must commence within 6 months of issuance of the Project Approval Certificate by MassDEP (this will usually mean by June 30, 2010).
4. *The Application Consists of Three Parts and a Checklist:*  
**Part I** - General information about the applicant and the project, and an applicant certification statement.  
**Part II** - Project specific data with supporting documentation.  
**Part III** - Supplemental Requirements.  
**Loan Application Checklist** - The checklist must be completed and submitted with the application. MassDEP recommends that the application be assembled in a 3-ring binder, with inserts for each of the applicable items.
5. Please refer to the instructions for each section to determine which types of additional information are required for submission with the application. MassDEP may require other supporting information or documentation in addition to that requested in this application.
6. *Plans and Specifications* - Plans and specifications may be submitted prior to submitting the other parts of the application. Early submittal will help expedite MassDEP's review of the project. In any event, plans and specifications must be submitted no later than the application due date, and the loan application is not complete until they have been submitted
7. *Submission* - Please submit an original signed application (**including the loan application checklist**) to:

Steven McCurdy, Director  
Division of Municipal Services  
Massachusetts Department of Environmental Protection  
One Winter Street, 6th Floor  
Boston, Massachusetts 02108-4747  
(617) 292-5779

**Instructions for Part I - Applicant Information Section**

1. Provide the legal name and the PWSID Number of the eligible borrower (Public Water Supplier) that will undertake the proposed project. If the applicant is not a municipality provide information regarding the entity that will be responsible for executing contracts and documents.

List the applicant's Department of Revenue (DOR) identification Number (this is the I.D. number used on all state revenue aid programs).

List the applicant's Federal Employer Identification Number (FEIN).

**Authorized Representative-** (*Checklist Items 3 and 4*) List the name, title, complete address, e-mail address, and telephone and fax numbers of the authorized representative. The application must contain a resolution or authorization designating by title the official (Mayor, City or Town Manager, Chairman of the Board of Water Commissioners, Board of Selectmen, etc.) to act as the representative of the applicant to sign for, accept, and take whatever action is necessary relative to the project. In the city form of government, the City Council will generally name the authorized representative. If the community is governed by Town Meeting, then the Town Meeting action will name the appropriate group, such as the Board of Selectmen or Board of Public Works. The appropriate governing body will then name the authorized representative. If the authority to file statement names an office, then a certified statement is required specifically identifying the individual currently holding that office. For water districts, provide the requisite authorization of the governing board.

The Authority to File statement must be certified. This is accomplished by either a certification at the bottom of the authority to file or by submitting a separate certifying statement. Suggested forms for Authority to File and Certifying Authority to File are included in **Appendix A**.

In the event the authorized official is replaced while the project is still active, a certified statement naming the new incumbent and the effective date of appointment must be submitted. It is for this reason that it is recommended the Authority to File name only an office or position (Mayor, City or Town Manager, Chairman of the Board of Water Commissioners, Chairman of the Board of Selectmen, etc.) so when there is a change in the Authorized Representative, only a new Certifying Authority to File needs to be submitted.

2. If an individual other than the Authorized Representative will serve as the Applicant's contact person for day-to-day management of the project, provide that person's name, address, e-mail address, and telephone and fax numbers.
3. Provide the name and Federal Employer Identification Number (FEIN) of the engineering firm, contact person, address, e-mail address, and telephone and fax numbers.
4. List the project's ID number and name from the current DWSRF Priority List/Intended Use Plan, and provide a brief description of the planned project.
5. If the project is serving more than one municipality or water district, list all municipalities involved and any PWSID numbers, as applicable.
6. Indicate the amount of financial assistance you are requesting.
7. **Local Appropriation** - (*Checklist Item 5*) The applicant must demonstrate that sufficient funds are available to cover the total (both eligible and ineligible) project costs. This is accomplished by means of a vote of Town Meeting, City Council, Water Supply District, or other appropriate action. Recommended authorizing language is included in **Appendix B**. Local bond counsel should be consulted for exact language.

Important points to remember to include in any authorizing language:

- a. Note that the applicant can borrow from the Massachusetts Water Pollution Abatement Trust in accordance with Chapter 29c, as amended, of the General Laws.

- b. The resolution must be certified.
  - c. It must denote who can act on behalf of the applicant to file for and accept financing.
  - d. It must specifically state the project(s) being authorized.
8. Check **ALL** forms of financial assistance the applicant is requesting.
  9. The application certification must be signed by the authorized representative designated in item 1 above. **Please review carefully the 13 conditions (in Part I) with which construction projects financed through the SRF must comply.** Failure to meet these conditions may preclude MassDEP's approval of the project.
  10. Describe the environmental/public health benefits of the project. Examples include elimination of MCL violations, providing emergency connections for neighboring communities, etc.

### **Instructions for Part II - Project Section**

1. **PLANS & SPECIFICATIONS** - One copy of the final engineering plans and specifications for each contract should be submitted as soon as possible, but no later than the date the application is submitted (Please note that this submittal is in addition to plans and specifications provided to the MassDEP Regional Office in conjunction with the Drinking Water Program permit application). Plans and specifications must be consistent with the MassDEP "Guidelines for the Preparation of Plans and Specifications" and a copy of the Plans & Specifications Checklist contained in the Guidelines must be included with the submittal. These documents may be found on the MassDEP web site at <http://mass.gov/dep/water/approvals/pspkg.pdf>. The comments of other interested parties, such as MassDEP regional offices, are to be incorporated into the documents. Applicants are encouraged to submit the final plans and specifications as early as possible to the same address noted on Page 2. In an effort to reduce the amount of paper used, a ½ size set of plans may be submitted in lieu of a full size set.
2. **DETAILED PROJECT SCHEDULE** - The application must contain a realistic schedule with cash flow outlining important milestones in the construction program, including bidding requirements. Since the Trust will sell its bonds based on the proposed schedules, it is critical that the schedule and cash flow be as accurate as possible. Please include month, day, and year.
3. **SUMMARY OF COSTS** - Provide detailed construction bid sheets from the specifications showing the engineer's estimate of construction cost, including eligibility. Eligibility must be consistent with the MassDEP "Policy on Eligible Project Costs" (<http://mass.gov/dep/water/laws/dwsrfpol.pdf>). Please note that a contingency of 10% of the estimated construction contract cost should be included in the estimate prior to receiving bids. The contingency will be reduced to 5% when based on actual bid amounts.

If the project includes costs for police traffic details, provide an explanation of the need and submit a traffic management plan that includes a detailed breakdown of the man-hour requirements to implement. The traffic management plan should be developed in conjunction with the local communities traffic management officer. MassDEP reserves the right to require that the traffic management plan be certified by the appropriate police official should the estimated needs appear to be excessive (Note that costs for police traffic details are considered an administrative cost of the LGU, and are not to be included in the construction contract).

In addition to the above requirements for police details, the LGU is required to comply with 701 CMR 7.00 Use of Road Flaggers and Police Details on Public Works Projects. These regulations identify when road flaggers or police details shall be used and also require the preparation of a construction zone safety plan. The regulations and other guidelines can be found on the MassHighway web site at [http://www.eot.state.ma.us/default.asp?pgid=content/police\\_detail&sid=about](http://www.eot.state.ma.us/default.asp?pgid=content/police_detail&sid=about). Both police details and road flaggers are eligible costs within the SRF program.

**Instructions for Part III - Supplemental Requirements (Items Nos. 6 through 24 on Checklist)**

6. LAND TITLE/EASEMENTS - The applicant must demonstrate that all required land, easements, or real property have been obtained, bona fide options taken, or condemnation proceedings initiated. An attorney must prepare a document certifying the ownership or easement rights to all property. A sample form is included in **Appendix C**.
7. PROJECT EVALUATION REPORT (PER) - Include a copy of MassDEP's letter approving the PER. As provided by 310 CMR 45.08 (<http://mass.gov/dep/service/regulations/310cmr45.pdf>) every DWSRF project must be the result of an approved PER.
8. INTERMUNICIPAL AGREEMENTS - If the project will serve two or more municipalities, or one municipality's project must connect to another's water system, the applicant must submit an executed intermunicipal agreement or another legally binding document covering financing, construction, and operation of the proposed treatment works. The requirement may be waived if:
  - a. Evidence of historic relationships for other services between the parties exist; or
  - b. The financial strength of the applicant is adequate to continue the project, even if one of the proposed communities fails to participate.
9. USER CHARGE SYSTEM - Prior to the award of financial assistance, the applicant's user charge system must be approved by MassDEP. If such a system is already in effect, then it must be shown that the system is adequate and is being enforced. In addition, the system must be in effect by the time the treatment works are placed in operation.
10. MassDEP DRINKING WATER PROGRAM PERMIT - Prior to the award of financial assistance, the applicant must obtain all MassDEP Drinking Water Program permits and approvals applicable to the proposed project.
11. CONSTRUCTION PERMITS/ORDER OF CONDITIONS/CERTIFICATES/ LICENSES - If applicable, the following construction permits must be filed and documented in the loan application. For the purposes of awarding financial assistance, the application for the permit(s) is acceptable, however the final permit(s) must be incorporated into the specifications prior to MassDEP authorization to advertise:
  - a. U.S. ARMY CORPS OF ENGINEERS (404 Permit) - An Army Corps of Engineers Section 404 Permit is required if a structure is to be located in, or if excavation, discharge of dredged or fill material will be performed in waters of the United States. For projects, this may involve the excavation and backfilling associated with lines crossing a waterway or wetland, outfall pipes, and any fill material (including rip-rap) used for bank stabilization or any fill associated with treatment facilities.
  - b. MassDEP PERMITS AND APPROVALS
    - (i) MassDEP DIVISION OF WATERWAYS (Chapter 91 Permit) - A Chapter 91 Permit must be obtained for the construction of any structure or the filling of land, the driving of piles, or the making of excavations, in, over, or upon the waters below the high water mark of any tidal areas or in or over any great pond or any river or stream. In addition, a permit is also required if it is proposed to either dredge in the tidal areas or dispose of any dredged material therein. For further guidance on this issue, please refer to 310 CMR 9.00 (<http://mass.gov/dep/service/regulations/310cmr09.pdf>).

- (ii) WATER QUALITY CERTIFICATE - Any project requiring a federal or state license or permit to conduct activities which may result in a discharge to waters of the United States must be evaluated for compliance with applicable effluent limitations and water quality standards, during the construction and subsequent operation of the proposed facility. State certification must be obtained before a license or permit may be issued. Such activities include NPDES regulated discharges, dredge and fill operations, and the construction of structures in water. For further guidance on this issue, please refer to 314 CMR 9.00 (<http://mass.gov/dep/service/regulations/314cmr09.pdf>).
  - (iii) MassDEP DIVISION OF AIR QUALITY (Permit) - Any proposed new or modified source of air contaminants, such as carbon monoxide, hydrocarbons, nitrogen oxides, sulfur dioxide, particulate matter, volatile organic compounds, and any pollutant covered by the National Emission Standards for Hazardous Air Pollutants promulgated by EPA, must be approved. For further guidance on this issue, please contact the Division of Air Quality Control and refer to 310 CMR 7.00 (<http://mass.gov/dep/service/regulations-/310cmr07.pdf>).
  - c. LOCAL CONSERVATION COMMISSION (Order of Conditions) - Under Chapter 131, Section 40, the applicant must file a notice of intent with the local conservation commission if construction is to occur within 100 feet of wetlands or floodplains. Note that both natural and man-made coastal dunes are included within the definition of wetlands.
  - d. MASSACHUSETTS HIGHWAY DEPARTMENT (MassHighway) PERMIT - A permit must be obtained from the regional MassHighway office for any project that crosses or does any type of work within the boundaries of a state highway.
  - e. MBTA/CONRAIL LICENSE - A license is required if the project will impact property owned by either the MBTA or CONRAIL. The appropriate agency should be contacted for further information.
  - f. OTHER STATE/FEDERAL PERMITS - Depending upon the project, other permits may be required and must be filed for.
12. CZM CONSISTENCY CERTIFICATE - The issuance of federal permits for activities located within the coastal zone or affecting this zone requires that the applicant obtain a certification that the activities are consistent with the state coastal zone policy. For further guidance on this issue, contact the Office of Coastal Zone Management.
  13. MASSACHUSETTS ENVIRONMENTAL POLICY ACT (MEPA) COMPLIANCE - Prior to the award of financial assistance, an Environmental Notification Form (ENF) must be filed with the MEPA Unit of the Executive Office of Energy and Environmental Affairs (EOEEA) if the project exceeds the review thresholds contained in 301 CMR 11.00 (<http://www.mass.gov/envir/mepa/thirdlevelpages-/meparegulations/301cmr11.pdf>). After a review period, the Secretary of EOEEA will decide whether an Environmental Impact Report (EIR) is required or not. If not, then the project can proceed, subject to any conditions that MEPA may place on the project. If an EIR is required, it must be completed by the proponent and submitted to the Secretary for an additional public comment period. Once the comment period has expired, the Secretary will render a decision on the final EIR. If it is found acceptable, and once the 60-day legal challenge period expires, the project can then proceed. The application must contain documentation that the requirements of MEPA have been satisfied.
  14. FLOOD INSURANCE PARTICIPATION - If the project involves structures within a flood hazard area, the applicant must furnish evidence that it is either participating in the flood insurance program or a letter of intent that it will obtain the required insurance both during construction and for the useful life of the project.

Insurable structures are defined as being \$10,000 or more in value, and are new or reconstructed surface structures that are walled and roofed, such as a pump station or treatment plant control building. Facilities such as sewers, which are not likely to be damaged by flooding, are not eligible for insurance.

15. MASSACHUSETTS HISTORICAL COMMISSION (Approval) - A construction loan cannot be made until all work required by the Massachusetts Historical Commission (MHC) has been completed and approved by them in accordance with 950 CMR 71.00. The loan may be conditioned, in some instances, to require recovery of archaeological material during construction when a sensitive area will be affected and no reasonable alternative is available. Documentation that the requirements of MHC have been met must be included with the application.
16. LEGISLATION (IF NEEDED) - There are several instances where special legislation from the Massachusetts General Court could be required prior to the initiation of construction. Examples include:
  - a. Construction in dedicated conservation land, including parkland;
  - b. Construction by one community within the municipal boundaries of another;
  - c. Formation of a water supply district;
  - d. Easements for construction in state owned land.
17. PROFESSIONAL SERVICES AGREEMENT - The application must contain draft agreements for all professional services which clearly outline the duties and responsibilities of the applicant and the contractor. The agreement will include, but not be limited to:
  - a. Scope of work for the various tasks, including basic, resident, and special construction services.
  - b. Time of Completion.
  - c. For certain drinking water protection facilities, start-up and post-construction services,

**For professional services agreements receiving SRF subsidy, the following requirements apply:**

- a. MODEL SUBAGREEMENT CLAUSES - The provisions of **Appendix D** are to be made a part of all professional services agreements.
- b. SRF 90-01 COST/PRICE SUMMARY - The request for financial assistance for professional services in excess of \$25,000 shall include a breakdown of cost and price considerations in accordance with the provisions. The following items will be included:
  1. Direct salary costs by job category.
  2. Provisional overhead rate.
  3. Other direct costs (travel, expenses, subcontracts, etc.)
  4. Profit.

The form (**Appendix E**) must be signed by both the contractor and the applicant.
- c. DETAILED FEE BREAKDOWN - All fees shall be broken out by task (shop drawings, resident services, start-up, etc.), job category (vice president, project engineer, draftsman, etc.), and cost.
- d. SUBCONTRACTS WHERE APPLICABLE - All lower tier subcontracts in excess of \$25,000 must be submitted in draft form with the application, including an executed BRP 90-01 form, and a detailed fee breakdown.
- e. MINORITY/WOMEN BUSINESS ENTERPRISE - Applicants receiving assistance must make positive efforts to use minority and women owned businesses for professional services. Such efforts should achieve a goal of 4.65% participation for minority business (MBE) and 16.03%

participation for women owned business (WBE) but, at a minimum, should allow these sources the maximum feasible opportunity to compete for subagreements to be performed using state trust monies. Sample forms are provided in **Appendix F**.

- f. **CHAPTER 233 - COMPLIANCE STATEMENT ON MA TAXES** - A statement must be signed by the consultant engineer(s) for the project that states that the engineer(s) is in compliance with Massachusetts tax laws. A sample statement is provided in **Appendix G**.
  
18. **MAP OF PROJECT** - Each application must be accompanied by a project map, denoting the drinking water facilities and/or the site plan of the treatment plant. It should delineate:
  - a. Jurisdictional Boundaries.
  - b. Existing versus proposed facilities.
  
19. **BASIC DESIGN DATA** - A detailed copy of the basic design data for the drinking water facilities must be included.
  
20. **PROVISION FOR O&M PROGRAM** - The applicant must clearly demonstrate that it has the capability to properly operate and maintain the drinking water facilities. To this end, an operation and maintenance manual (O&M) must be prepared for all water treatment plants, which describes the equipment, develops staffing requirements, and outlines the procedures necessary to keep the facilities operating in an optimum fashion. A provision for the preparation of an O&M manual should appear in the Professional Services Agreement.
  
21. **DISPLACEMENT OF PERSONS OR BUSINESSES** - The application must state whether this project has caused, since January 1, 1971, or will cause, the displacement of any individual, family business, or farm as required by the Uniform Relocation and Real Property Assistance Policies Act of 1970 (PL 91-646).
  
22. **PLAN OF OPERATION** - Prior to the award of financial assistance for water treatment facilities, a preliminary plan of operation must be approved by MassDEP. By the 50% stage of construction, a final plan must be completed and approved. For further guidance on this issue, please contact the appropriate MassDEP program manager.
  
23. **START-UP SERVICES** - For facilities, the Professional Services agreement must provide for start-up services during the first year following the initiation of operation. The extent of the services will vary depending on the size and complexity of the project. For further guidance on this issue, please contact the appropriate MassDEP program manager.
  
24. **POST-CONSTRUCTION SERVICES** - For facilities, the applicant must notify MassDEP in writing of the actual date of initiation of operation. During the first year following initiation of operations, the applicant will monitor the performance of the facilities. One year after initiation of operations, the applicant shall submit a report to MassDEP outlining whether the project meets performance standards.

		Refinancing of debt incurred
If refinancing, list amount of outstanding debt and maturity dates.		
Amount	Date of Issue	Maturity Date

9. CERTIFICATION
In submitting this Application to MassDEP, the Applicant certifies that it shall comply with the following Project related conditions, and understands that the Applicant's non-compliance with one or more of these conditions may preclude MassDEP's issuance of a Project Approval Certificate or entry into a Project Regulatory Agreement.
(1) The Applicant shall obtain MassDEP's prior written approval to: (a) advertise any Invitation To Bid or Request for Proposals to procure contracts for the Project; and (b) award any contracts for the Project.
(2) The Applicant shall comply with the Affirmative Action and Minority/Women Business (M/WBE) requirements in MassDEP's Regulations. The Applicant shall comply with the Civil Rights Act of 1964, 42 USC s.2000(a) et seq., as amended, and all Executive Orders and regulations promulgated thereunder. The Applicant shall sign and deliver to MassDEP a Nondiscrimination in Employment form. The Applicant shall ensure that any prime contracts or subcontracts for services, construction, goods or equipment for the Project contains the applicable M/WBE utilization goals: construction [MBE – 5.30%, WBE – 4.40%]; services [MBE – 4.65%, WBE – 16.03%]; goods [MBE – 7.89%, WBE – 14.82%]; and equipment [MBE – 2.48%, WBE – 7.51%]. The applicable M/WBE goals depend on the predominant character of the specific contract being procured by the Applicant, as determined by MassDEP. The Applicant shall ensure that all vendors submitting bids or proposals as prime contractors or subcontractors in response to Project-related procurements complete the Commonwealth of Massachusetts Vendor Information Form (VIF). The Applicant shall also be responsible for submitting the completed VIFs to MassDEP when it requests MassDEP's approval to award the contract.
(3) The Applicant shall at all times provide and maintain competent and adequate resident supervision and inspection of the Project under the direction of a licensed professional engineer. Such resident site engineer shall ensure that the implementation of the Project conforms with the approved plans and specifications, and shall certify to the Applicant and MassDEP at the completion of the Project that the implementation of the Project is in accordance with MassDEP approved final plans and specifications for the Project. The Applicant also agrees to submit an executed copy of the contract for resident site engineering services to MassDEP within sixty (60) days of the date of the contract award. The Applicant understands that no payments for the Project will be processed until such contract has been submitted to MassDEP.
(4) Prior to receiving final payment for the Project, the Applicant shall certify to MassDEP that the Project has been completed and performed in accordance with the Project Regulatory Agreement.
(5) The Applicant shall be solely responsible for the implementation and completion of the Project in accordance with MassDEP approved plans and specifications and MassDEP permit(s) issued for the Project, and for the economical and efficient operation and administration of the Project. The Applicant's responsibilities include retaining sufficient operating personnel and conducting operational tests and other needed evaluations to ensure the economical and efficient operation and administration of the Project.
(6) The Applicant shall establish accounts for the Project which shall be maintained in accordance with generally accepted government accounting standards.
(7) The Applicant understands that if MassDEP issues a Project Approval Certificate for this project, such action does not constitute MassDEP's sanction or approval of any changes or deviation from any applicable state regulatory or permit standards, criteria, or conditions, or from the terms or schedules of state enforcement actions or orders applicable to the Project.
(8) The Applicant shall maintain all Project records for seven years after the issuance of final payment or until

any litigation, appeal, claim, or audit that is begun before the end of the seven-year period is completed and resolved, whichever is longer.	
(9) The Applicant agrees to provide any Project information and documentation requested by MassDEP.	
(10) The Applicant shall obtain fee simple title or such other property interest in the Project site, including any easements and rights-of-way, necessary to ensure the undisturbed use and possession of the Project site for the purposes of implementation and operation of the Project for its estimated life.	
(11) Any proposed change in Project-related contracts which substantially modifies the Project initially proposed shall be submitted to MassDEP for prior approval.	
(12) The Applicant's implementation of the Project, including the procurement of related contracts, shall comply with all applicable requirements of state and local laws, ordinances, by-laws, rules and regulations.	
(13) MassDEP representatives shall have access to Project work whenever it is in preparation or progress, and shall be provided proper facilities for such Project access and inspection. All of the Applicant's construction and other relevant contracts shall contain the above provision.	
<p><b>To the best of my knowledge and belief, data provided in this application is true and correct; the documentation has been duly authorized by the governing body of the applicant. Furthermore, the applicant certifies that it possesses the legal authority to apply for the loan, and to finance and construct the proposed facilities. A resolution, motion, or similar action has been duly adopted or passed as an official act of the applicant's governing body, authorizing the filing of the application. The same resolution, motion, or similar action is directing and authorizing the person identified below as the authorized representative of the applicant to act in connection with the application and to provide such additional information as may be required.</b></p>

## **Appendix A**

### **Authority to File And Certifying Authority to File**

*Sample: Resolution Authorizing Officer to File Application with the Massachusetts Department of Environmental Protection, for State Financial Assistance for Drinking Water Protection Projects.*

**AUTHORITY TO FILE**

Whereas, \_\_\_\_\_, after thorough investigation,  
(Applicant)  
has determined that the work activity consisting of: \_\_\_\_\_

\_\_\_\_\_  
(describe project)

is both in the public interest and necessary to protect the public health, and that to undertake this activity, it is necessary to apply for assistance; and

Whereas, the Massachusetts Department of Environmental Protection (MassDEP) and the Massachusetts Water Pollution Abatement Trust (the Trust) of the Commonwealth of Massachusetts, pursuant to Chapter 21 and Chapter 29C of the General Laws of the Commonwealth ("Chapter 21" and "Chapter 29C") are authorized to make loans to municipalities for the purpose of funding planning and construction activities relative to Drinking Water Protection Projects; and

Whereas, the Applicant has examined the provisions of the Act, Chapter 21 and Chapter 29C, and believes it to be in the public interest to file a loan application.

NOW, THEREFORE, BE IT RESOLVED by \_\_\_\_\_  
(Governing Body)

as follows:

1. That \_\_\_\_\_ is hereby authorized on behalf  
(Title of Official)  
of the Applicant to file applications and execute agreements for grant and/or loan assistance as well as furnishing such information, data and documents pertaining to the applicant for a grant(s) and/or loan(s) as may be required; and otherwise to act as the authorized representative of the Applicant in connection with this application;
2. That the purpose of said loan(s), if awarded, shall be to fund construction activities.
3. That if said award is made the Applicant agrees to pay those costs which constitute the required Applicant's share of the project cost.

*Sample: Certification to the Massachusetts Department of Environmental Protection, as to Authority to File Applications for State Financial Assistance for Drinking Water Protection Projects.*

**CERTIFYING AUTHORITY TO FILE**

I hereby certify that the \_\_\_\_\_ of  
(Name of Governing Body)

the \_\_\_\_\_  
(Corporate Name of Local Government Unit)

(hereinafter referred to as the Applicant), at a meeting noticed and conducted in accordance with all applicable legal requirements, duly voted to authorize

\_\_\_\_\_  
(Title of Local Government Unit Official)

to act on behalf of the Applicant, as its agent, in filing applications for, executing agreements regarding, and performing any and all other actions necessary to secure for the Applicant such loan(s) for construction or planning of Drinking Water Protection Projects as may be made available to the Applicant pursuant to the provisions of the Massachusetts Clean Waters Act (M.G.L. c.21, section 27-33E, inclusive, as amended) and the Water Pollution Abatement Revolving Loan Program (M.G.L. c.29C) for the following project:

\_\_\_\_\_  
(describe project)

I hereby certify that \_\_\_\_\_ is the present incumbent  
(Name of Person)  
of the position referenced above, and do hereby certify:

1. That the attached resolution is a true and correct copy of the resolution as finally adopted at a meeting of the governing body held on the \_\_\_\_ day of \_\_\_\_\_, 20\_\_, and duly recorded in my office:
2. That said meeting was duly convened and held in all respects in accordance with law and to the extent required by law, due and proper notice of such meeting was given; and a legal quorum was present throughout the meeting, and a legally sufficient number of members of the governing body voted in the proper manner and for the adoption of said resolution; that all other requirements and proceedings under the law incident to the proper adoption or passage of said resolution, including publication, if required, have been duly fulfilled, carried out, and otherwise observed; and that I am authorized to execute this certificate:

3. That if an impression of a seal has been affixed below, it constitutes the official seal of the Applicant and this certificate is hereby executed under such official seal; but if no seal has been affixed, the Applicant does not have an official seal:

IN WITNESS WHEREOF, I have hereunto set my hand this

\_\_\_\_\_ day of \_\_\_\_\_, 20\_\_\_\_\_

## **Appendix B**

### **Sample Language for Local Appropriations**

## MASSACHUSETTS WATER POLLUTION ABATEMENT TRUST

**NOTE: The following are suggested forms of a town meeting article and vote and city council loan order. These forms are provided as guidance only. Bond counsel to the municipality should be consulted to determine the exact form of authorization required and to determine which local body or official must approve the terms of the borrowing and the forms of documentation. Note also that districts and regional local governmental units may have substantially different authorization requirements from those indicated below for towns and cities.**

### SUGGESTED FORM OF TOWN MEETING ARTICLE AND VOTE

#### Article

To see if the Town will vote to appropriate a sum of money for the [construction] [planning] of (insert description of the drinking water protection project); to determine whether this appropriation shall be raised by borrowing from the Massachusetts Water Pollution Abatement Trust or otherwise; and to take any other action relative thereto.

#### Vote

Voted: that \$\_\_\_\_\_ is appropriated for the purpose of financing the [construction] [planning] of (insert description of the drinking water protection project) including without limitation all costs thereof as defined in Section 1 of Chapter 29C of the General Laws, as most recently amended by St. 1998, c.78; that to meet this appropriation the Treasurer with the approval of the Selectmen is authorized to borrow \$\_\_\_\_\_ and issue bonds or notes therefore under (Chapter 44 of the General Laws or insert reference to other applicable general or special law governing the issuance of local bonds) and/or Chapter 29C of the General Laws, as most recently amended by St. 1998, c.78; that such bonds or notes shall be general obligations of the Town unless the Treasurer with the approval of the Selectmen determines that they should be issued as limited obligations and may be secured by local system revenues as defined in Section 1 of Chapter 29C, as most recently amended by St. 1998, c.78; that the Treasurer with the approval of the Selectmen is authorized to borrow all or a portion of such amount from the Massachusetts Water Pollution Abatement Trust established pursuant to Chapter 29C, as most recently amended by St. 1998, c.78; and in connection therewith to enter into a loan agreement and/or security agreement with the Trust and otherwise to contract with the Trust and the Department of Environmental Protection with respect to such loan and for any federal or state aid available for the project or for the financing thereof; that the (Board of Selectmen, Board of Public Works or other appropriate local body or official) is authorized to enter into a project regulatory agreement with the Department of Environmental Protection, to expend all funds available for the project and to take any other action necessary to carry out the project.

## SUGGESTED FORM OF CITY COUNCIL LOAN ORDER

Ordered: that \$ \_\_\_\_\_ is appropriated for the purpose of financing the [construction] [planning] of (insert description of the drinking water protection project) including without limitation all costs thereof as defined in Section 1 of Chapter 29C of the General Laws, as most recently amended by St. 1998, c.78; that to meet this appropriation the Treasurer with the approval of the (Mayor or Manager) and the (Auditor, Finance Committee or other appropriate local body or official) is authorized to borrow \$ \_\_\_\_\_ and issue bonds or notes therefore under (Chapter 44 of the General Laws or insert reference to other applicable general or special law governing the issuance of local bonds) and/or Chapter 29C of the General Laws, as most recently amended by St. 1998, c.78; that such bonds or notes shall be general obligations of the City unless the Treasurer with the approval of the (Mayor or Manager) and the (Auditor, Finance Committee or other appropriate local body or official) determines that they should be issued as limited obligations and may be secured by local system revenues as defined in Section 1 of Chapter 29C, as most recently amended by St. 1998, c.78; that the Treasurer with the approval of the (Mayor or Manager) [and the (Auditor, Finance Committee or other appropriate local body or official)] is authorized to borrow all or a portion of such amount from the Massachusetts Water Pollution Abatement Trust established pursuant to Chapter 29C, as most recently amended by St. 1998, c.78; and in connection therewith to enter into a loan agreement and/or a security agreement with the Trust and otherwise to contract with the Trust and the Department of Environmental Protection with respect to such loan and for any federal or state aid available for the project or for the financing thereof; that the (Mayor or Manager) is authorized to enter into a project regulatory agreement with the Department of Environmental Protection, to expend all funds available for the project and to take any other action necessary to carry out the project.

## **Appendix C**

### **Certificate As To Title To Project Site**

CERTIFICATE AS TO TITLE TO PROJECT SITE

I, \_\_\_\_\_, Attorney At Law, representing the (City/town)  
of \_\_\_\_\_, Massachusetts, herein called the Applicant, as title counsel,  
do hereby certify:

1. That I have investigated and ascertained the location of, and am familiar with the legal description of the site or sites being provided by the Applicant for all elements (treatment plant, transmission mains, outfalls, pumping stations, distribution pipes, and appurtenances) of the drinking water protection project for which State Financial Assistance has been offered, identified as DWSRF- \_\_\_\_\_.
2. That I have examined the deed records of the county or counties in which this project is to be located and, in my opinion, the Applicant has a legal and valid fee simple title or other estate or interest in the site of the project, including the necessary easements and rights-of-way as are necessary to undisturbed use and possession for the purposes of construction and operation for the estimated life of the project.
3. That any deeds or documents required to be recorded, in order to protect the title of the owner and the interest of the Applicant, have been duly recorded or filed for record wherever necessary with reference to Contracts \_\_\_\_\_ through \_\_\_\_\_, inclusive.

Dated this \_\_\_\_\_ day of \_\_\_\_\_, 20\_\_\_\_.

## **Appendix D**

### **Model Sub-Agreement Provisions**

## **Professional Services Agreements -Required Provisions**

All contracts between DWSRF borrowers and professional services consultants shall contain the following provisions.

- (1) The owner and the contractor agree that the following provisions apply to the eligible work to be performed under this agreement and that such provisions supersede any conflicting provisions of this agreement.
- (2) The work under this agreement is funded in part by the water pollution abatement fund. Neither the Commonwealth of Massachusetts nor the Massachusetts Department of Environmental Protection (MassDEP) nor the Water Pollution Abatement Trust is a party to this agreement. As used in these clauses, the words "the date of execution of this agreement" means the date of execution of this agreement and any subsequent modification of the terms, compensation or scope of services pertinent to unperformed work.
- (3) The owner's rights and remedies provided in these clauses are in addition to any other rights and remedies provided by law or this agreement.
- (4) The contractor shall be responsible for the professional quality, technical accuracy, timely completion, and the coordination of all designs, drawings, specifications, reports, and other services furnished by the contractor under this agreement. The contractor shall, without additional compensation, correct or revise any errors, omissions, or other deficiencies in his designs, drawings, specifications, reports, and other services.
- (5) The contractor shall perform such professional services as may be necessary to accomplish the work required to be performed under this agreement, in accordance with this agreement and applicable MassDEP requirements in effect on the date of execution of this agreement.
- (6) The owner's or MassDEP's approval of drawings, designs, specifications, reports, and incidental work or materials furnished hereunder shall not in any way relieve the contractor of responsibility for the technical adequacy of his work. Neither the owner's nor MassDEP's review, approval or acceptance of, nor payment for, any of the services shall be construed to operate as a waiver of any rights under this agreement or of any cause of action arising out of the performance of this agreement.
- (7) The contractor shall be and shall remain liable, in accordance with applicable law, for all damages to the owner or MassDEP caused by the contractor's negligent performance of any of the services furnished under this agreement, except for errors, omissions or other deficiencies to the extent solely attributable to the owner, owner-furnished data or any third party not controlled by the contractor. The contractor shall not be responsible for any time delays in the project caused by circumstances beyond the contractor's control. Where innovative processes or techniques are recommended by the engineer and are used, the engineer shall be liable only for gross negligence to the extent of such use.
- (8) The services to be performed by the contractor shall include all services required to complete the scope of work as defined and set out in the professional services agreement to which these provisions are attached in accordance with applicable regulations.
- (9) The owner may, at any time, by written order, make changes within the general scope of this agreement in the services or work to be performed. If such changes cause an increase or decrease in the contractor's cost of, or time required for, performance of any services under this agreement, whether or not changed by any order, an equitable adjustment shall be made and this agreement shall be modified in writing accordingly. The contractor must assert any claim for adjustment under this clause in writing within 30 days from the date of receipt by the contractor of the notification of change, unless the owner grants a further period of time before the date of final payment under this agreement.
- (10) No services for which an additional compensation will be charged by the contractor shall be furnished without the written authorization of the owner.

(11) In the event that there is a modification of MassDEP requirements relating to the services to be performed under this agreement after the date of execution of this agreement, the increased or decreased cost of performance of the services provided for in this agreement shall be reflected in an appropriate modification of this agreement.

(12) Either party may terminate this agreement, in whole or in part, in writing, if the other party substantially fails to fulfill its obligations under this agreement through no fault of the terminating party. However, no such termination may be effected unless the other party is given (1) not less than ten calendar days written notice (delivered by certified mail, return receipt requested) of intent to terminate and (2) an opportunity for consultation with the terminating party before termination.

(13) The owner may terminate this agreement, in whole or in part, in writing, for its convenience, if the termination is for good cause (such as for legal or financial reasons, major changes in the work or program requirements, initiation of a new phase) and the contractor is given (1) not less than ten calendar days written notice (delivered by certified mail, return receipt requested) of intent to terminate, and (2) an opportunity for consultation with the terminating party before termination.

(14) If the owner terminates for default, an equitable adjustment in the price provided for in this agreement shall be made, but (1) no amount shall be allowed for anticipated profit on services not performed or other work, and (2) any payment due to the contractor at the time of termination may be adjusted to the extent of any additional costs the owner incurs because of the contractor's default. If the contractor terminates for default or if the owner terminates for convenience, the equitable adjustment shall include a reasonable profit for services or other work performed. The equitable adjustment for any termination shall provide for payment to the contractor for services rendered and expenses incurred before the termination, in addition to termination settlement costs the contractor reasonably incurs relating to commitments which had become firm before the termination.

(15) Upon receipt of a termination action under paragraphs (13) or (14), the contractor shall (1) promptly discontinue all services affected (unless the notice directs otherwise), and (2) deliver or otherwise make available to the owner all data, drawings, specifications, reports, estimates, summaries, and such other information and materials as the contractor may have accumulated in performing this agreement, whether completed or in process.

(16) Upon termination under paragraph (13) or (14), the owner may take over the work and prosecute the same to completion by agreement with another party or otherwise. Any work the owner takes over for completion will be completed at the owner's risk, and the owner will hold harmless the contractor from all claims and damages arising out of improper use of the contractor's work.

(17) If, after termination for failure of the contractor to fulfill contractual obligations, it is determined that the contractor had not so failed, the termination shall be deemed to have been effected for the convenience of the owner. In such event, adjustment of the price provided for in this agreement shall be made as paragraph (14) provides.

(18) Except as this agreement otherwise provides, all claims, counter-claims, disputes, and other matters in question between the owner and the contractor arising out of or relating to this agreement or the breach of it will be decided by arbitration if the parties hereto mutually agree, or in a court of competent jurisdiction pursuant to the laws of Massachusetts.

(19) The Contractor shall maintain books, records, documents, and other evidence directly pertinent to performance on eligible work under this agreement in accordance with generally accepted accounting principles and practices consistently applied. The contractor shall also maintain the financial information and data used by the contractor in the preparation or support of the cost submission and a copy of the cost summary submitted to the owner. The Governor, the Secretary of Administration and Finance, MassDEP and State Auditor's Office or any of their duly authorized representatives, shall have access to such books, records, documents, and other evidence for inspection, audit, and copying. The contractor will provide proper facilities for such access and inspection.

(20) The contractor agrees to include paragraphs (19)-(23) in all his contracts and all subcontracts directly related to project performance that are in excess of \$25,000.

(21) Audits conducted under this provision shall be in accordance with generally accepted auditing standards and established procedures and guidelines of the reviewing or audit agency(ies).

(22) The contractor agrees to the disclosure of all information and reports resulting from access to records under paragraphs (19) or (20), to any of the agencies referred to in paragraph (19), provided that the contractor is afforded the opportunity for an audit exit conference and an opportunity to comment and submit any supporting documentation on the pertinent portions of the draft audit report and that the final audit report will include written comments of reasonable length, if any, of the contractor.

(23) The contractor shall maintain and make available records under paragraph (19) and (20) during performance on eligible work under this agreement and until 7 years from the date of final payment for the project. In addition, those records which relate to any "Dispute", appeal under an assistance agreement, to litigation, to the settlement of claims arising out of such performance, or to costs or items to which an audit exception has been taken, shall be maintained and made available until 3 years after the date of resolution of such appeal, litigation, claim, or exception if such date is later than seven years from the date of final payment.

(24) (This clause is applicable if the amount of this agreement exceeds \$100,000). If the owner or MassDEP determine that any price, including fee, negotiated in connection with this agreement or any cost reimbursable under this agreement was increased by any sums because the contractor or any subcontractor furnished incomplete or inaccurate cost or pricing data or data not current as certified in his certification of current cost or pricing data, then such price, cost, or fee shall be reduced accordingly and the agreement shall be modified in writing to reflect such reduction.

(25) Any subcontractors and outside associates or consultants required by the contractor in connection with services under this agreement will be limited to such individuals or firms as were specifically identified and agreed to during negotiations, or as the owner specifically authorizes in writing during the performance of this agreement. The owner must give prior approval for any substitutions in or additions to such subcontractors, associates, or consultants.

(26) The contractor agrees that he will not discriminate against any employee or applicant for employment because of race, religion, color, sex, age, handicap status or national origin.

(27) The contractor warrants that no person or selling agency has been employed or retained to solicit or secure this contract upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee, excepting bona fide employees. For breach or violation of this warranty the owner shall have the right to annul this agreement without liability or in its discretion to deduct from the contract price or consideration, or otherwise recover, the full amount of such commission, percentage, brokerage, or contingent fee.

(28) If it is found, after notice and hearing, by the owner that the contractor, or any of the contractor's agents or representatives, offered or gave gratuities (in form of entertainment, gifts, or otherwise), to any official, employee or agent of the owner, or of the state, in an attempt to secure a contract or favorable treatment in awarding, amending, or making any determination related to the performance of this agreement, the owner may, by written notice to the contractor, terminate the right of the contractor to proceed under this agreement. The owner may also pursue other rights and remedies that the law or this agreement provides. However, the existence of the facts upon which the owner bases such findings shall be in issue and may be reviewed in proceedings under the remedies clause of this agreement.

(29) In the event this agreement is terminated as provided in paragraph (28), the owner shall be entitled: (1) To pursue the same remedies against the contractor as it could pursue in the event of a breach of the contract by the contractor, and (2) as penalty, in addition to any other damages to which it may be entitled by law, to exemplary

damages in an amount (as determined by the owner) which shall be not less than three nor more than ten times the costs the contractor incurs in providing any such gratuities to any such officer or employee.

(30) MassDEP has the right to use, duplicate, and disclose, in whole or in part, in any manner for any purpose whatsoever, any plans, drawings, designs, specifications, computer programs (which are substantially paid for with Trust funds), technical reports, operating manuals, and other work submitted with an application or which are specified to be delivered under this agreement or which are developed or produced and paid for under this agreement. The owner and MassDEP reserve a royalty-free, non-exclusive, and irrevocable license to reproduce, publish, and use such materials, in whole or in part, and to authorize others to do so. The contractor shall include appropriate provisions to achieve the purpose of this condition in all subcontracts expected to produce copyrightable subject data.

(31) All such subject data furnished by the contractor pursuant to this agreement are instruments of his services in respect of the project. It is understood that the contractor does not represent such subject data to be suitable for reuse on any other project or for any other purpose. If the owner reuses the subject data without the contractor's specific written verification or adaptation, such reuse will be at the sole risk of the owner, without liability to the contractor. Any such verification or adaptation will entitle the contractor to further compensation at rates agreed upon by the owner and the contractor.

## **Appendix F**

### **MBE/WBE Forms - Professional Services Contracts**

**MINORITY AND WOMEN BUSINESS ENTERPRISE PARTICIPATION  
FOR  
PROFESSIONAL SERVICES CONTRACTS**

I. Purpose

The purpose of this guidance document is to assist local governmental units (LGUs) and their Prime Consultant in demonstrating compliance with the Massachusetts Department of Environmental Protection (MassDEP), Bureau of Resource Protection (the Bureau) requirements for minority and women's business enterprise (M/WBE) participation in professional services contracts.

II. Requirements

The Bureau applies 310 CMR 44.10 (Affirmative Action Requirements) to professional services contracts, which requires positive efforts to achieve a goal of 4.65% MBE and 16.03% WBE participation.

III. Procedures

1. In cases where the professional services contracts achieve the goal of 4.65% MBE and 16.03% WBE participation, the LGU and/or its Prime Consultant is required to submit Form EEO-DEP-190E (Schedule of Participation for Professional Services), Form EEO-DEP-191E (Letter of Intent), and Form EEO-DEP-VIF-E (Vendor Information Form) to MassDEP. Form EEO-DEP-190E identifies the proposed M/WBE subcontractors, the type of services to be provided by each subcontractor (e.g., Architecture, preparation of O&M manuals, laboratory analysis, etc.), and the respective dollar value of their participation. Form EEO-DEP-191E must be completed for each M/WBE subcontractor identified on Form EEO-DEP-190E. Form EEO-DEP-VIF-E will be used to analyze the actual availability of M/WBEs to do work in the relevant contract categories, and to evaluate the need for any additional modification of the Federal "Fair Share" M/WBE utilization goals applicable to SRF projects in subsequent years.
2. In the event that a professional services contract does not achieve the goal of 4.65% MBE and 16.03% WBE participation, the Bureau may request that the LGU's Prime Consultant provide additional documentation demonstrating what positive efforts were made to achieve the participation goal. In cases where the LGU's Prime Consultant fails to demonstrate the 4.65% MBE and 16.03% WBE participation in the professional services contract, the Prime Consultant must submit Form EEO-DEP-490E (Request for Waiver), together with the supporting documentation identified therein, to MassDEP.
3. The Bureau's project approval certificate shall contain a condition requiring the LGU's Prime Consultant to submit all executed consultant contracts, including contracts with M/WBE subcontractor(s) if in excess of \$25,000, to MassDEP within sixty (60) days from the date of the award of financial assistance to the LGU by the Water Pollution Abatement Trust (the Trust). Such contracts must be included as an attachment to Form EEO-DEP-290E (Certificate of Work Start-up by M/WBE) submitted to the Bureau.

4. In order for MassDEP to monitor compliance with its above stated M/WBE provisions for professional services contracts, any LGU who does not file monthly or bi-monthly Payment Requisitions on Form -3000 (Consultant Engineer's Request and Certification) to document W/MBE activity, will be required at a minimum to submit Form EEO-DEP-390E (Quarterly M/WBE Activity Report) on a quarterly basis. The Form EEO-DEP-390E is not attached to this package but will be made available to those that need to use it when the Form 3000 reporting is not an option. Finally, Form EEO-DEP-590E (M/WBE Contract Completion Verification) must accompany a request by an LGU for final payment from the Bureau.

MINORITY AND WOMEN BUSINESS ENTERPRISE PARTICIPATION  
MASSACHUSETTS DEPARTMENT OF ENVIRONMENTAL PROTECTION  
DIVISION OF MUNICIPAL SERVICES

**REQUEST FOR WAIVER FOR PROFESSIONAL SERVICES**

**Upon exhausting all known sources and making every possible effort to meet the minimum requirements for MBE/WBE participation, the Prime Consultant seeks relief from these requirements by filing this form. Failure to comply with this process shall be cause to reject the eligibility of engineering costs.**

General Information

Project Title: \_\_\_\_\_ Project Location: \_\_\_\_\_

Prime Consultant: \_\_\_\_\_

Mailing Address: \_\_\_\_\_

Contact Person: \_\_\_\_\_ Telephone No. ( ) \_\_\_\_\_ Ext. \_\_\_\_\_

Minimum Requirements

The Prime Consultant must show that good faith efforts were undertaken to comply with the percentage goals as specified. The firm seeking relief must show that such efforts were taken appropriately in advance of the time set for approval of the application by submitting the following:

- A. A detailed record of the effort made to contact and negotiate with minority and/or woman owned businesses, including:
  - 1. names, addresses, telephone numbers and contact dates of all such companies contacted;
  - 2. copies of dated written notice(s) which were sent to MBE/WBE potential subcontractors prior to application deadlines;
  - 3. copies of dated advertisements as appearing in general publications, trade-oriented publications, and applicable minority/women-focused media detailing the opportunities for participation;
  - 4. a detailed statement as to why each subcontractor contacted (i) was not willing to do the job or (ii) was not qualified to perform the work as solicited; and
  - 5. in the case(s) where a negotiated price could not be reached the Prime Consultant should detail what efforts were made to reach an agreement on a competitive price.
  
- B. The Agency may require the Prime Consultant to produce such additional information as it deems appropriate and may obtain whatever other information it deems necessary to reach a conclusion from any source.

- C. No later than fifteen (15) days after receipt of all necessary information and documentation, a decision will be made in writing to the Prime Consultant. If the waiver request is denied, the facts upon which a denial is based will be set forth. A Prime Consultant who is dissatisfied with the decision may then appeal that decision to the EOEA.

Special Note

If it is determined that one or more of the MBE/WBE subcontractors as submitted by the Prime Consultant on form EEO-DEP-190 is not SOMWBA certified or certified by the Local Government Unit in accordance with the provisions of Executive Order 237, the Prime Consultant shall have 10 working days, following notification, to either find a certified MBE/WBE subcontractor to perform work equal to or greater than that of the uncertified or submit a waiver request.

CERTIFICATION

The undersigned herewith certifies that the above information and appropriate attachments are true and accurate to the best of my knowledge and that I have been authorized to act on behalf of the Prime Consultant in this matter.

# **Appendix H**

## **Loan Reimbursements**

### **Loan Reimbursement Forms**

Once a loan has been made with the Trust the community may begin seeking reimbursement for costs incurred on the project. The consultant engineer for the project will fill out the forms, gather the

appropriate backup and submit the forms to MassDEP. MassDEP then forwards a 1000 form to the Trust. The Trust will then wire transfer the funds to the community.

The required forms needed to seek reimbursement are: 1000, 2000 and 3000 forms. The 1000 form states the following: the approved amount of the loan, the previous requests made by the community and the current requested amount. This form must be signed by the Authorized Representative of the community.

The 2000 form is known as the contractor's form. This form shows the approved amount of the contractor's contract and M/WBE information. Similar to the 1000 form, the 2000 form maintains a running balance of the contract. The M/WBE information must be updated with each reimbursement request. The 2000 form requires the signature of the contractor, the consulting engineer and the MassDEP inspector.

The 3000 form is known as the consultant engineer's form. The 3000 form is exactly like the 2000 form and its requirements. The 3000 form requires the signature of the consulting engineer.

When the community signs a final loan agreement with the Trust either the community or the consulting engineer should contact MassDEP to receive a copy of these forms. Those projects in the Northeast and Western regions should contact **Robert Bourque at (617) 556-1103**, and for those projects in the Southeast and Central regions contact **Margaret Mansfield at (617) 292-5943**.

Samples of these forms follow this page.
