Subscription size empty or not included	SUBSCRIPTION & COST INFORMATION Subscription Size (kW DC):
	SUBSCRIPTION & COST INFORMATION Subscription Size (kW DC): Exact size to be determined by customer's annual use.
Subscription size broad range	SUBSCRIPTION & COST INFORMATION Subscription Size (kW DC): Up to 25 kW
	SUBSCRIPTION & COST INFORMATION Subscription Size (kW DC): Residential Average= 10kW DC, assuming 7,500kWh of annual usage Small Commercial Average= 33kW DC, assuming 45,000kWh of annual usage
Subscription size too high – subscription size should be less than 25 kW.	SUBSCRIPTION & COST INFORMATION Subscription Size (kW DC): 4,793,100
ACCEPTABLE	
Specific amount resulting from reviewing customer annual usage.	SUBSCRIPTION & COST INFORMATION Subscription Size (kW DC): 16.00 DC (approx. 11.8519 kW AC)

Estimated Year One Payments

NOT ACCEPTABLE	
Not specific dollar amount	Estimated Year One Payments (including any enrollment costs) (\$): Estimated payment is 90 percent of the monetary value of the alternative on-bill electricity credits.
Not specific to customer	<p>Estimated Year One Payments (including any enrollment costs) (\$): None other than the discounted cost for bill credits. For example, if your Subscription generated credits that reduced your utility bills by \$1000 in the first year, your total payments would be \$900 and you would save \$100.</p> <p>Estimated Year One Payments (including any enrollment costs) (\$): Average Residential Customers (assuming 7,500kWh annual usage): ~\$1,350.00 Average Small Commercial Customers (assuming 45,000kWh annual usage): ~\$4,300.00 **Note: Your payments will vary from the above due to your calculated subscription size</p>
Too much text	Estimated Year One Payments (including any enrollment costs) (\$): The Customer, you, will pay to [REDACTED] 50% of the value of the Alternative On-Bill Credits ("AOB Credits") applied to your monthly utility bill. Annually, [REDACTED] anticipates providing you with \$600 worth of AOB Credits, which means you would owe approximately \$300 per year to [REDACTED]. Each month, AOB Credits will show up on your monthly utility bill based on the energy produced at your Community Shared Solar Farm. Those AOB Credits may be approximately \$50 per month (but could be lower or higher depending on how much
ACCEPTABLE	
Specific dollar amount for the individual customer.	Estimated Year One Payments (including any enrollment costs) (\$): 1808.02
