Subject: Chapter 91 / MHP Regulations

CAUTION: This email originated from a sender outside of the Commonwealth of Massachusetts mail system. Do not click on links or open attachments unless you recognize the sender and know the content is safe.

Dear Mr. Padien,

Enclosed please find **1,015 signatures in support of MassDEP's proposed amendments** to 310 CMR 9.00, and endorsing the confirmation of each of the seventeen existing municipal harbor plans, including Boston's Downtown Waterfront MHP.

McDermott Ventures works in community relations to advance projects and causes in our community by educating and building consensus. We have been working with The Chiofaro Company in addition to several other development projects in other Municipal Harbor Plans. Our team canvassed across all neighborhoods of Boston for a period of two weeks, explaining the Downtown Municipal Harbor Plan and the proposed amendments.

As you will see, there is a great amount of support to move this plan forward and advance Boston's waterfront in terms of access, inclusion, sustainability, and economic vitality.

Thank you for your time and consideration.

Maggie

McDERMOTT
REAL ESTATE CONSULTING

The time to Advance Boston's Waterfront is now.

A recent Superior Court decision called into question thirty years of coastal planning across Massachusetts on process grounds, and the Department of Environmental Protection is currently pursuing a regulatory fix. The approved Downtown Waterfront Municipal Harbor Plan is an inclusive plan that leverages development to increase public access to Boston's waterfront and improve climate resiliency -- and it's under attack. Trashing the plan and starting from scratch will set progress back years, while the ocean laps at our front door. Tell DEP to ratify and confirm the Downtown Waterfront MHP along with every other locally-crafted harbor plan adopted statewide.

The time to Advance Boston's Waterfront is now.

A recent Superior Court decision called into question thirty years of coastal planning across Massachusetts on process grounds, and the Department of Environmental Protection is currently pursuing a regulatory fix. The approved Downtown Waterfront Municipal Harbor Plan is an inclusive plan that leverages development to increase public access to Boston's waterfront and improve climate resiliency -- and it's under attack. Trashing the plan and starting from scratch will set progress back years, while the ocean laps at our front door. Tell DEP to ratify and confirm the Downtown Waterfront MHP along with every other locally-crafted harbor plan adopted statewide.

A recent Superior Court decision called into question thirty years of coastal planning across Massachusetts on process grounds, and the Department of Environmental Protection is currently pursuing a regulatory fix. The approved Downtown Waterfront Municipal Harbor Plan is an inclusive plan that leverages development to increase public access to Boston's waterfront and improve climate resiliency -- and it's under attack. Trashing the plan and starting from scratch will set progress back years, while the ocean laps at our front door. Tell DEP to ratify and confirm the Downtown Waterfront MHP along with every other locally-crafted harbor plan adopted statewide.

The time to Advance Boston's Waterfront is now.

A recent Superior Court decision called into question thirty years of coastal planning across Massachusetts on process grounds, and the Department of Environmental Protection is currently pursuing a regulatory fix. The approved Downtown Waterfront Municipal Harbor Plan is an inclusive plan that leverages development to increase public access to Boston's waterfront and improve climate resiliency -- and it's under attack. Trashing the plan and starting from scratch will set progress back years, while the ocean laps at our front door. Tell DEP to ratify and confirm the Downtown Waterfront MHP along with every other locally-crafted harbor plan adopted statewide.

[illegible]
