Notice is hereby given that NSTAR Electric Company d/b/a Eversource Energy (the “Company”) has filed with the Department of Public Utilities (the “Department”) a petition, pursuant to G.L. c. 164, § 72, for approval to construct and operate a new, approximately 8-mile, 115-kilovolt (“kV”) predominantly overhead transmission line on an existing right-of-way (“ROW”) between the Carver Substation in Carver, Massachusetts and the Kingston Substation in Kingston, Massachusetts (the “Project”). The Project also includes minor upgrades to both substations. Carver to Kingston Reliability Project

The proposed route of the new line crosses Main Street (Route 58), Silva Street, Surrey Drive, Center Street, Plymouth Street, High Street, and Route 44 in Carver; Spring Street and Brook Street in Plympton; and Tall Timbers Lane, Deer Run Road, Pine Hill Road, Wapping Road (Route 106), Foxworth Lane, Grove Street and Pembroke Street (Route 27) in Kingston.
