Effective beginning in fiscal year 2006, assessors in communities with electric generating plants are no longer required to submit Form LA-4W, “Assessment/Classification Worksheet” each year. See IGR 05-401, Fiscal Year 2006 Guidelines for Annual Assessment and Allocation of Tax Levy (July 2005).

This Bulletin amends Section III-A of IGR 98-403, Valuation and Taxation of Electric Generating Property (September 2005) to reflect the elimination of this separate report.
