General Instructions

What is the purpose of estimated tax payment vouchers?

The purpose of the payment vouchers is to provide a means for paying any taxes due on income which is not subject to withholding. This is to ensure that taxpayers are able to meet the statutory requirement that taxes due are paid periodically as income is received during the year.

Who must make estimated tax payments? Generally, you must make estimated tax payments if you expect to owe more than \$200 in taxes on income not subject to withholding. Every fiduciary, corporate trust, club or other unincorporated organization is subject to these requirements.

Are there penalties for failing to pay estimated taxes? Yes. An additional charge is imposed on the underpayment of any installment of estimated tax for the period of that underpayment. Use Form M-2210 when filing your annual return to determine the amount of any penalty due or if you qualify for the exceptions that avoid the penalty.

When and where do I file estimated tax payments? Generally, your estimated tax may be paid in full on or before April 15, or in equal installments on or before April 15, June 15, September 15 and January 15 of the following year. Make your check or money order payable to the **Commonwealth of Massachusetts**. Please write your Federal Identification number in the left hand corner on your check or money order. Send a completed voucher with each payment to ensure accurate crediting to your account. Vouchers should be filed with Massachusetts Department of Revenue, PO Box 7007, Boston, MA 02204. **Do not mail your payment with your prior year's annual return.**

If you pay your full estimated tax with your first payment voucher, you need not file the remaining payment vouchers unless your income increases during the year and you need to increase your estimated payment amount.

Are there exceptions to the due date? Whenever a due date falls on a Saturday, Sunday or legal holiday, the filing and payment may be made on the next succeeding business day. If your return is not on a calendar year basis, enter due dates on each voucher to correspond with your fiscal year. Your due dates will be the 15th day of the fourth, sixth, and ninth months of your fiscal year and the 15th day of your next fiscal year.

What if my tax liability changes during the year? Even though you may not expect to owe estimated tax payments, your income or deduction(s) may change during the year so that you will be required to make estimated tax payments. In such case, the payment dates are as follows: June 15, if the change occurs

between April 1 and May 31; September 15, if the change occurs between June 1 and August 31; next January 15, if the change occurs after August 31. Use the Amended Computation Worksheet if, during the year, you find that your estimated tax is substantially increased or decreased. The estimated tax may be paid in full at the time of filing your first payment voucher or in equal installments on the remaining payment dates. Be sure to use the appropriate voucher for each date.

What if I credited my 2000 refund to 2001 estimated taxes? If you overpaid your 2000 income tax and elected to apply it as a credit to your 2001 estimated income tax, the amount of overpayment may be applied in whole or in part to any installment period. If any overpayment credit remains, apply it to the next installment.

Be sure to enter the overpayment credit in line 1 of your original voucher and (if necessary) on your other payment vouchers and in column (c) of the Record of Estimated Tax Payments. If the credit equals or exceeds your full estimated tax liability for 2001, you need not file the payment vouchers. Send a payment voucher to DOR only when you are making a payment.
