AUTUMN OUTDOOR SAFETY TIPS

Fall is a great time to be outdoors enjoying the dazzling colors, crisp air and wildlife activity. Whether your passion is hiking, hunting, fishing, birding, or just taking in the scenery, a few common sense safety reminders will add to your enjoyment during a day in the field.

- **Know your limits.** Don't take off on a long hike, hunt, or bike ride if you're not physically ready. Tell someone where you're going and when you expect to return.
- **Watch the weather.** New England weather is notorious for quick changes. Be ready with an extra layer of clothing, warm hat, and gloves.
- **Expect the unexpected.** No one expects problems while spending a day outdoors, but having a fanny pack with a few first aid items, matches, water, extra food, pocket knife, map, compass, whistle, cell phone, and flashlight can help prevent small problems from becoming big ones.
- **Be Safe, Be Seen, Wear Blaze Orange!** Whether you're a hunter, hiker or walking the dog in rural areas, it's a good idea to wear a cap or vest of highly visible blaze orange clothing while enjoying the great outdoors. See some eye opening footage demonstrating how wearing blaze orange makes you highly visible to others.
- **Respect the water.** Canoeists and kayakers are required to wear life jackets from September 15 to May 15, but all water enthusiasts, especially anglers who wade our larger rivers, would be wise to wear floatation devices especially now that water and air temperatures are cool.
- **Respect other outdoor users.** Mountain biking, horseback riding, wildlife watching, hunting, and hiking are not mutually exclusive activities. Know the [hunting seasons](#) and who is likely to be sharing the woods

and waters with you. Keep dogs under control and respect other outdoor users' right to enjoy our wild open spaces.

- **Finally, licensed sportsmen and women are reminded to take the basics of hunter safety to heart.** Treat every firearm as if it were loaded, keeping the muzzle pointed in a safe direction at all times. Accurately identify your target and know what lies beyond it.

Outdoor activities are among the safest recreational pursuits available. With a little common sense, they'll stay that way.

FALL TROUT STOCKING

Autumn anglers will be pleased to learn that fall trout stocking is now underway. 64,500 rainbow trout have been allocated among the five wildlife management districts across the state. The rainbow trout slated for stocking average a whopping 14 inches long and weigh one pound. "These fish are the best fall trout stock I have seen in my time with the Division," said Dr. Ken Simmons, Chief of Hatcheries. "The hatchery staff should be commended for the fish they have produced." The fish are grown at MassWildlife hatcheries in Belchertown, Montague, Sandwich, and Sunderland. Trout stocking will begin the week of September 23 if water temperatures are favorable and is expected to be completed the week of October 7. A [list of trout stocked waters](#) is posted on the agency website. Water bodies stocked in the fall are underlined. Anglers are advised to contact the [District Office](#) in their area to confirm local stocking schedules: Northeast (Ayer): (978) 772-2145; Southeast (Bourne): (508) 759-3406; Central (W. Boylston): (508) 835-3607; Connecticut Valley (Belchertown): (413) 323-7632; Western (Dalton): (413) 684-1646.

MASSACHUSETTS TAKES LEADING ROLE WITH GRANT TO CONSERVE RARE SNAKES

The Massachusetts Division of Fisheries and Wildlife (DFW) and the University of Massachusetts -Amherst will be leading a collaborative effort to assess the cause and conservation significance of a new fungal skin disease that is affecting rare snakes such as the Timber Rattlesnake (*Crotalus horridus*) and Massasauga (*Sistrurus catenatus*) in several eastern and midwestern states. A working group of nine state fish and wildlife agencies, two universities, the USGS National Wildlife Health Lab, the U.S. Fish and Wildlife Service, and three nonprofit organizations including the Roger Williams Park Zoo was awarded a \$500,000 grant through a U.S. Fish and Wildlife Service Competitive State Wildlife Grant Program. The working group will develop conservation strategies for species potentially impacted by the disease, conduct regional snake species assessment, and implement other conservation actions including evaluation of treatments, captive rearing, monitoring, and habitat improvement. For more information, contact Dr. Tom French, Assistant Director of the DFW Natural Heritage and Endangered Species Program. (508) 389-6355.

SURPLUS ANTLERLESS DEER PERMIT SALES REMINDER

The Division of Fisheries and Wildlife reminds deer hunters about the following changes to the sale of Surplus Antlerless Deer Permits for 2013:

Staggered Sales Dates -- Sale of Surplus Antlerless Deer Permits by Wildlife Management Zone will be staggered over the following days beginning in early October:

- **Zone 11** permits go on sale on Tuesday, October 1st at 8AM, with a limit of 1 per day until sold out.

- **Zone 10** permits go on sale on Wednesday, October 2nd at 8AM, with a limit of 1 per day until sold out.
- **Zone 13 and 14** permits go on sale on Thursday, October 3rd at 8AM, with a limit of 4 per zone per day until sold out.

Once on sale, permits will remain available until sold out in each Wildlife Management Zone. Hunters may purchase surplus antlerless deer permits through the internet at www.mass.gov/massfishhunt, by visiting a license vendor location, or by visiting any DFW office. Hunters planning to purchase a surplus antlerless deer permit through a license vendor are reminded to check the hours of operation prior to the start of permit sales. Not all vendor locations will be open at 8AM.

BUCKLEY HONORED FOR INTERNATIONAL CONSERVATION EFFORTS

As part of an international technical working group, Jack Buckley, Deputy Director of Administration and Personnel for the Division of Fisheries and Wildlife, was recently honored by the Association of Fish and Wildlife Agencies (AFWA) with the 2013 Ernest Seton Thompson Award. The CITES Technical Working Group was presented with this prestigious award dedicated to leadership in scientific wildlife management. The Working Group was recognized for their efforts on behalf of the Association in international forums to protect states' wildlife management interests. The other members of the Association's CITES Technical Working Group Award honored were Buddy Baker, Louisiana Department of Wildlife and Fisheries; Bob Broscheid, Arizona Game and Fish Department; and Carolyn Caldwell from the Ohio Division of Wildlife.

The Convention on International Trade in Endangered Species of Wild Flora and Fauna (CITES) is an international agreement between governments with a mission to ensure that international trade in specimens of wild animals and plants does not threaten their survival. The CITES technical working group was established in 1994 and is composed of a representative from each region of the country. The group has served states in both advancing conservation where international trade threatens North American wildlife and in retaining authorities for state agencies that might otherwise be omitted due to deliberations of an international body with little understanding of the North American Model of Wildlife Conservation. The accomplishments of the CITES Technical Working Group are numerous and remarkable. The Working Group represented state interests in the convention and trade in crocodilians, amphibians and reptiles, native turtles, sturgeon, paddlefish, polar bears and furbearers such as bobcats. Most recently, the Technical Working Group represented the states' interests at the 16th Convention of the Parties in Bangkok, Thailand. Throughout the meeting, the group provided technical information and engaged with country delegates and non-governmental organizations to enhance global understanding of the role of state fish and wildlife agencies and scientific wildlife management. For more information, contact Laura MacLean, Director of Communications, Association of Fisheries and Wildlife Agencies at LMacLean@fishwildlife.org or (202) 624-7744.

CALENDAR OF EVENTS—Visit the MassWildlife [Calendar and Events page](#) for more listings.

October 3 – Wildlife Habitat Site Walk, Hardwick -- Join Division of Fisheries and Wildlife Ecologists and Foresters from 5PM – 6:15 PM to walk the Patrill Hollow section of the Division’s Muddy Brook Wildlife Management Area in Hardwick. Learn how MassWildlife will restore open sandplain and pitch pine/scrub oak habitats on over 100 acres of land. Attendees may encounter some of the wildlife benefiting from these activities. Landowners interested in managing their own properties for wildlife are encouraged to take advantage of this opportunity to find out more about wildlife habitat management. Dress for the weather; the event will be occurring rain or shine. Consider bringing binoculars, camera, and wearing sturdy boots. For cooler weather, dress warmly! Meeting location TBA on the Calendar of Events web page.

October 4 – 11 – MassWildlife at the Topsfield Fair, Topsfield – Stop by the Sportsmens and Wildlife Building at the Topsfield Fair and pick up information on the common wildlife you’ll see in your community, ask staff your wildlife, fishing or hunting questions, sign up to receive the MassWildlife Newsletter or for a subscription to Massachusetts Wildlife magazine! More on the Topsfield Fair at <http://www.topsfieldfair.org/>.

October 5 & 7—Youth Waterfowl Hunting Dates -- These dates are set aside annually for young waterfowl hunters ages 12-15. Youths may hunt for ducks, coots, merganser and geese. All youths must be accompanied by a licensed adult hunter with a valid MA waterfowl stamp. No federal stamp required. One firearm is allowed. The adult may not hunt and may carry the firearm only when it is unloaded and cased. No license or stamps are needed for youths 12-14 years of age. Hunting license and valid Massachusetts waterfowl stamp needed for youths age 15. No federal stamp is required of the 15-year old. All other [migratory game bird hunting](#) regulations apply.

October 10 – Wildlife Habitat Site Walk, Southwick -- Join Division of Fisheries and Wildlife Ecologists and Foresters from 5:00PM – 6:15 PM to walk the Division’s Southwick Wildlife Management Area in Southwick. This land contains extensive abandoned tobacco farmlands which have the potential to support extensive grassland habitats benefiting rare birds such as Grasshopper Sparrows and Upland Sandpipers. Learn how MassWildlife will establish native warm-season grassland across more than 100 acres at this site. Landowners interested in managing their own properties for wildlife are encouraged to take advantage of this opportunity to find out more about wildlife habitat management. Dress for the weather; the event will be occurring rain or shine. Consider bringing binoculars, camera, and wearing sturdy boots. For cooler weather, dress warmly! Meeting location TBA Meeting location TBA on the Calendar of Events web page.

October 16 – Climate Change and Birds, Hingham – As part of a Hingham Church Climate Change lecture series “Witness to Change”, Andrew Vitz, DFW State Ornithologist will be giving a public presentation “Bird responses to climate change in the Northeast: What we have seen and what we can expect”. The talk will take place at the New North Church, 1 Lincoln Street, Hingham at 7PM. Refreshments will be served. For more information, contact John Bewick at (781) 740-1117.

October 19-- Growing Up WILD Workshop for Pre-School Educators, Lenox -- Pre-school educators are invited to this fun, practical hands-on 6-hour workshop that focuses on early childhood education. The Guide is correlated to the National Association for the Education of Young Children (NAEYC) Standards and the Head Start Domains. Workshop participants will receive a copy of the Growing Up WILD guide and a certificate of completion. [Project WILD](#) is sponsored by DFW and the Massachusetts Wildlife Federation. Pre-registration is required, fee is \$30. Registration deadline is October 9. To register contact Gayle Tardif-Raser at MassAudubon's Pleasant Valley Sanctuary gtraser@massaudubon.org or call (413) 637-0320 or register online at www.mass.audubon.org/pleasantvalley (click on Program Catalog).
