2016 ORGANIC CERTIFICATION COST-SHARE PROGRAM

To: Massachusetts Certified Organic Farms
From: Mary Jordan, Director of the Division of Agricultural Markets
Subject: 75% Reimbursement for Organic Certification for Producers and Handlers
Date: January 15, 2016

We are pleased to announce the Massachusetts Department of Agricultural Resources (“Department”) is authorized by the USDA – Agricultural Marketing Service (“AMS”) to reimburse certified Organic Crop and Livestock Producers and Handlers (processors) for the Federal 2016 Fiscal Year. Reimbursements are limited to 75% (seventy-five percent) of an individual’s certification costs, up to a maximum of \$750 (seventy-five hundred dollars) of certification, for the program year. Certified organic crop and livestock producers are eligible for up to three (3) categories of certification. These categories are the following:

Crops: Pastures, cover crops, green manure crops, catch crops, or any plant or part of a plant intended to be marketed as an agricultural product, fed to livestock, or used in the field to manage nutrients and soil fertility,

Wild Crops: Any plant or option of a plant that is collected or harvested from a site that is not maintained under cultivation, and;

Livestock: Any cattle, sheep, goats, swine, poultry, or equine animals used for food or in the production of food, fiber, feed, or other agricultural-based consumer products; wild or domesticated game; or other non-plant life, except such term shall not include aquatic animals for the production of food, fiber, feed, or other agricultural-based consumer products.

Operations may receive one (1) reimbursement per certificate or category of certification (if one certificate includes multiple categories). For example, if an operation is certified for the crops category only, it is eligible for up to 75% of certification costs up to a maximum of \$750. If an operation is certified for crops and livestock, it is only eligible for up to 75% of the certification costs for two of these categories for a total of \$1500. If an operation is certified for crops, wild crops and livestock, it is only eligible for up to 75% of certification costs for three of these categories for a total of \$2250.

Applicants must successfully receive their first organic certification from a USDA accredited certifying agent or have incurred expenses related to the renewal of certification between October 1, 2015 and September 30, 2016, thus the 2016 Federal Fiscal Year.

Please be advised that complete applications will take precedence over incomplete applications. Incomplete applications will be returned with a memo on required documentation. Complete applications will be processed on a first come basis until all funds are expended. **In order to receive reimbursement, please complete all enclosed forms by no later October 15, 2016 and submit them to:**

Mary Jordan, Massachusetts Department of Agricultural Resources
251 Causeway Street, Suite 500
Boston, MA 02114-2141
