MARKED HIKING TRAILS

Douglas State Forest

Detail Map

Married Hiking Trails:

Bird Blind Trail: Length 0.25 miles — orange straight This shortest trail is also the shortest. An easy hike for young legs or a steady hike for the less fit. The trail leads to the Bird Blind, a structure built for bird observation, through a variety of bird habitats. Enjoy a break on the long bench along the way.

Cedar Swamp Trail: Length 7 miles — red diamonds After the trail passes through a forest path, there is a boardwalk that leads through a shady cedar swamp. With a trail map available from the Nature Center and signs along the way, many of the fascinating sights on the trail are explained. Great trail for why this is the park's most popular trail.

Collector Loop Trail: Length 2.5 miles — blue dots Named for a feature that existed in previous days. This trail with blazes one through a variety of beautiful habitats. You will pass theuli St. John's and Middlemarch as well as through part of a glacial moraine that once was in this locality. The trail ends back at the Nature Center by Walnut Lake.

Mohawk Trail: Yellow triangles

7.8 miles of trails, which extend from Mohawk Island to New Hampshire, run through the Douglas State Forest. The total length of the Mohawk Trail is approximately 81 miles.
