Subject: Your TNC CCR is ready for posting

Attention TNC public water systems:

Your annual water quality report, commonly called a Consumer Confidence Report (CCR), is now ready for you to download, sign and post. MassDEP makes your TNC CCR for you so that you can share this information with interested customers that have a right to know what is in the water they are ingesting. By sharing this information your customers can make educated health choices for themselves.

All you have to do is go to the website, enter your PWS ID # or name to locate your system, download your report, print it, sign it, and post it in conspicuous locations for your customers to read.

Please book mark this web address (<http://www.mass.gov/eea/agencies/massdep/water/drinking/pws-documents-search-tool.html>). Besides your TNC CCR, you can also find your Certificate of Registration and your Sample Schedule from this same site.

If you think there is an error in your report contact MassDEP immediately. You can reply to this Program Director email address or contact Marie.Tennant@state.ma.us or at 617-292-5885.

You are receiving this message because you are a public water system representative or you indicated your interest in receiving information on public drinking water. If you are not a public water system representative and no longer want to receive these messages, please reply to this e-mail and include Unsubscribe in the subject line.
