

# Projected Bedrock Water Quality

## MILLVILLE

### Uranium Probability

% Probability of Exceeding the Public Drinking Water Standard of 30 micrograms per liter (30 PPB)

City/Town Statistics	Acres	Percent
<= 1.0%	0	0
1.1% to 4.7%	0	0
4.8% to 13.0%	1666.1	52.4
13.1% to 25.4%	0	0
Granite/Pegmatite*	1504.9	47.4
No Data	5.4	0.2
<b>Total</b>	<b>3176.4</b>	

\*Areas mapped as granite and pegmatite are located outside of the USGS SIR 2011-5013 study area. Although no precise uranium probability values exist for these bedrock units, these types of bedrock generally have an increased probability of containing naturally occurring radionuclides such as radium, uranium, or radon in well water at concentrations exceeding public drinking water limits.

#### Map Location

MILLVILLE FALLS WITHIN THE MassDEP CENTRAL REGION

This map is for illustrative purposes only. It represents the best statewide data available at the date of printing. There are other important natural resources that are not shown on this map because the digital spatial data do not exist.

#### DATA SOURCES

**HYDROGRAPHY:** USGS/MassGIS, 1:25,000 or less. Hydrography from the USGS National Hydrography Database merged with public water supply watersheds where the resolution is approximately 1:10,000.  
**TOPOGRAPHIC CONTOURS:** MassGIS, 1:5,000. 3 Meter contour elevations generated from digital ortho-RTM.  
**POLITICAL BOUNDARIES:** MassGIS. This political boundary dataset has been created from latitude and longitude coordinates found in the 66 volume Harbor and Lands Commission Town Boundary Atlas.  
**ROADS:** Mass Department of Transportation 1:50,000. Road centerlines signed with 1:50,000 OrthoPhotos. Attributes from DOT roads database.  
**TRAINS AND TRANSLINES:** Mass Department of Transportation Trans @ 1:50,000, Pipelines and Powerlines @ 1:25,000  
**GEOGRAPHIC FEATURES:** USGS/MassDEP, USGS Geographic Names Information System (GNIS) features related to geographic or hydrographic features. Data from USGS National Hydrography Database.  
**WETLANDS:** USGS Resource Mapping Project USGS/MassDEP/MassGIS. Source Scale 1:12,000 to 1:40,000. Wetland information shown on this map consists of several wetlands datasets, including DEP Orthophoto Wetlands (1:12,000) and USGS Hydrology wetlands (1:25,000).
