### Map Location

STERLING FALLS WITHIN THE MassDEP CENTRAL REGION

This map is for illustrative purposes only. It represents the best statewide data available at the date of printing. There are other important natural resources that are not shown on this map because the digital spatial data do not exist.

### DATA SOURCES

**HYDROGRAPHY:** USGS/MapGIS, 1:25,000 or less. Hydrography from the USGS National Hydrography Database except where public water supply watersheds where the resolution is approximately 1:100,000.  
**TOPOGRAPHIC CONTOURS:** MapGIS, 1:5,000, 3 Meter contour elevations generated from digital ortho DTMs.  
**POLITICAL BOUNDARIES:** MapGIS. This political boundary data layer has been created from state and local government boundaries in the 68 volume Harbor and Lands Commission Town Boundary Atlas.  
**ROADS:** Mass Department of Transportation, 1:50,000. Road centerlines aligned with 1:50,000 Orthophotos. Attributes from DOT road database.  
**TRANS AND TRANSLINES:** Mass Department of Transportation Trans @ 1:50,000. Pipelines @ 1:25,000.  
**CARTOGRAPHIC FEATURES:** USGS/MapGIS, USGS Geographic Names Information System (GNIS) features matched to parcel data or orthophoto. Hydrography names taken from 1:50,000 features and placed using MapGIS.  
**WETLANDS:** USGS/MapGIS, USGS/MapGIS, USGS/MapGIS. Source scale: 1:12,000 to 1:34,000. Wetland information on this map consists of several wetlands datasets, including 99B (primarily on 1:12,000) and USGS Hydrology wetlands (1:25,000).
