

Projected Bedrock Water Quality

WARWICK

Uranium Probability

% Probability of Exceeding the Public Drinking Water Standard of 30 micrograms per liter (30 PPB)

City/Town Statistics	Acres	Percent
<= 1.0%	4912.8	20.4
1.1% to 4.7%	0	0
4.8% to 13.0%	0	0
13.1% to 25.4%	0	0
Granite/Pegmatite*	0	0
No Data	19190.3	79.6
Total	24103.1	

* Areas mapped as granite and pegmatite are located outside of the USGS SIR 2011-5013 study area. Although no precise uranium probability values exist for these bedrock units, these types of bedrock generally have an increased probability of containing naturally occurring radionuclides such as radium, uranium, or radon in well water at concentrations exceeding public drinking water limits.

Map Location

WARWICK FALLS WITHIN THE MASSDEP WESTERN REGION

This map is for illustrative purposes only. It represents the best statewide data available at the date of printing. There are other important natural resources that are not shown on this map because the digital spatial data do not exist.

DATA SOURCES

HYDROGRAPHY: USGS MassGIS, 1:25,000 or less. Hydrography from the USGS National Hydrography Database except within public water supply watersheds where the resolution is approximately 1:100,000. Elevation generated from digital ortho DTMs.

TPOGRAPHIC CONTOURS: MassGIS, 1:5,000. 3 Meter contour elevations generated from digital ortho DTMs.

POLITICAL BOUNDARIES: MassGIS. This political boundary data has been created from latitude and longitude coordinates found in the 48 volume Harbor and Lands Commission Town Boundary Atlas.

ROADS: Mass Department of Transportation 1:50,000. Road centerlines aligned with 1:50,000 OrthoPhotos. Attributes from DOT roads database.

TRANSITS AND TRANSLINES: Mass Department of Transportation Transits @ 1:50,000. Routes and Powerlines @ 1:25,000.

GEOGRAPHIC FEATURES: USGS/MassDEP USGS Geographic Names Information System (GNIS) features matched to parcel data or orthophoto. Hydrography names taken from HND features and placed using MapInfo.

WETLANDS: USGS Resource Mapping Project/USGS/MassDEP/MassGIS. Source Scale 1:12,000 to 1:40,000. Wetland information shown on this map consists of several wetlands datasets, including DEP Orthophoto Wetlands (1:12,000) and USGS Hydrology Wetlands (1:25,000).

Map Created March, 2011
