

The Commonwealth of Massachusetts

DEPARTMENT OF ENERGY RESOURCES

NOTICE OF PUBLIC FORUM TO ENTERTAIN COMMENTS **SEEKING TO IMPROVE MASS SAVE HOME ENERGY SERVICES PROGRAM** **IN JUNE 2016**

MEETING DATE: June 16, 2016.

The Massachusetts Department of Energy Resources (“DOER”) is conducting its own “listening session” to entertain comments and public input from residential contractors and other interested members of the general public for the purpose of informing the DOER in its own assessment of the current state of the MassSave Home Energy Services (“HES”) program administered by the Program Administrators of energy efficiency programs statewide. The DOER invites residential contractors who perform or seek to perform services for the Home Energy Services program the opportunity to offer comments regarding the program or simply to attend and listen to the comments of other interested parties. The “listening session” is open to the general public, however priority to speak will be afforded to those persons who are or who represent members of the residential contractor community providing or interested in providing contractor services in the HES program.

This fact-gathering session is open to the public, however, we anticipate that many members of the Energy Efficiency Advisory Council (“EEAC”) will likely have a strong interest in attending the event. They are invited to do so but we remind them that they may not conduct any business of the EEAC that might constitute a “deliberation” while in attendance.

The DOER will hold this public forum on Thursday, June 16, 2016 at 2:00 pm until such time as it determines that all those wishing to offer public comment have been heard. This “listening session” will take place at *100 Cambridge Street, 2nd Floor Conference Room B, Boston, Massachusetts 02114.*

This notice is provided pursuant to Massachusetts General Laws Chapter 30A, Section 11A ½.

A handwritten signature in black ink that reads "Steven I. Venezia".

Steven I. Venezia
Deputy General Counsel
Department of Energy Resources (DOER)
