

COMMONWEALTH OF MASSACHUSETTS

BOARD OF REGISTRATION IN MEDICINE

POLICY 98-02

(Adopted November 20, 1998)

(Amended December 16, 2009)

POLICY ON RELEASE OF PHYSICIAN ADDRESSES

The Board has adopted the following policy regarding release to the public of physician addresses:

The Board makes a licensee's business address available to the public and includes it in the physician's Profile. If a physician does not have a business address, the Board will make public and use the physician's mailing address, even if that mailing address is the same as the physician's home address.

The Board will not otherwise disclose a licensee's home address or other personal data.
