

DBQ Instructions for MAP Trainers

To use the DBQ exercise, the following AMRW appendices are needed:

D12

E49

E64

E66

F15

F17- this is the medication sheet for Seena Albert. Adjustments that need to be made before the trainer uses it are;

- 1) The spelling of her name in the bottom left hand corner. "Senna" is a typo and needs to be changed to "Seena".
- 2) On the grid for the probenecid either a line or "x's" need to be drawn through the grid from the 1st through the 11th.
- 3) At 8am on the 12th, next to the probenecid, the initials "KM" with a circle around them needs to be added.
