

# **Statewide Family Support Directory**

**Commonwealth of Massachusetts**

**Department of Developmental Services**

**Elin M. Howe  
Commissioner**

**Updated  
March 2017**

## Introduction

The Department of Developmental Services (DDS) provides funding for family support programs and services across the state designed to provide information, assistance, and an array of supportive services to families with children and adults with disabilities who are living at home.

The Department views families as the best natural resource for individuals with disabilities and recognizes the importance of developing strong partnerships with families. Families know their children and their own strengths and needs. The design of the Family Support Services is to supplement and build upon the capacities of families, and should be flexible and respectful of cultural, economic, social, and spiritual differences.

Any family can contact one of the Family Support Centers listed in this Directory for information and referral services. However, to receive other DDS funded family support services, an individual must be found eligible for DDS services and must be living at home with their family. The Regional Eligibility team intake and eligibility process is conducted by a Regional Eligibility Team located at one of the four DDS regional offices listed in this Directory. The process begins by the submission of an Eligibility Application Form. More information about the eligibility process as well as the application forms can be found on the DDS website, [www.mass.gov/dds](http://www.mass.gov/dds). Eligibility Application Forms can also be obtained at any of the DDS Area or Regional offices.

The Department is pleased that you have received a copy of this *Family Support Directory* and hope it will be helpful to you in locating services and supports.

## Family Support Centers

Family Support Centers across the state provide a local presence and act as a hub for offering a wide range of general family support services and activities to families of children and adults who are eligible for DDS services. There is at least one Family Support Center in each DDS Area, with some Areas having more than one. Broad outreaches is the expectation for the centers and provide services to families from diverse cultural, ethnic and linguistic communities in the geographic area they are serving, which may involve creating partnerships with community organizations and other resources in order to provide culturally responsive services. Center staff are expected to be experts in generic resources and services in their respective areas and work with families to maximize natural supports. Centers are expected to encourage active family involvement and consultation to identify interests and needs in developing activities and service options.

Each Family Support Center provides the following array of services and supports for families:

### **INFORMATION & REFERRAL**

- Assistance to families in identifying resources and service options available in their local communities, as well as learning about other financial and/or state services for which families may be eligible (MassHealth, etc.), and provide guidance on how to navigate the service system. This can occur through phone contacts, 1:1 meeting at a variety of locations.
- Use of technology to provide a variety of ways to share information with families.
- A “library” of resources, such as helpful websites, fact sheets, community resources, information technology resource options, books, videos, etc.

### **FAMILY TRAININGS**

Sponsor educational events and trainings on relevant topics of interest to families of both children and adults which are open to all families for participation.

### **PARENT NETWORKING**

Promote parent networking and mentoring, such as parent support groups, parent connections (1:1 matching), and sibling support opportunities, as well as parental involvement in organizing or leading activities, etc.

### **COMMUNITY CONNECTIONS & RESOURCES**

Foster community affiliations and connections to explore and maximize the use of natural and generic resources and other potential sources of funding.

### **SERVICE NAVIGATION**

Comprehensive and individualized information, guidance, and support to families to address their needs, connect them to potential resources, assist with problem-solving, and help them navigate the service system. The level of involvement with each family will vary based on the needs of the individual and family. There are two types of Service Navigation:

- **Short-Term Service Navigation** The design is for families who will benefit from more individualized assistance for a period of time to obtain information, to receive assistance in accessing other services, or to receive guidance in addressing some specific problems. Development of an action plan with families occurs to focus on specific objectives.
- **Extended Service Navigation** The design is to provide ongoing support and coordination of services. Each Center has the capacity to provide Extended Service Navigation to an identified number of individuals/families. The Area Office must make referrals for this service, but the family, Family Support Center staff, or the Area Office can initiate the request. This service can also assist families to help plan and organize in-home supports they need to support their family member at home. Development of a Family Support Plan is an aid to remain focused on goals.

### **ADMINISTRATION OF FLEXIBLE FUNDING**

The Department may provide individual, flexible funding allocations to families based on the priority of need of the family and available budget resources. This funding must be used for allowable supports, services, or goods as defined in the Department’s Addendum to the Family Support Guidelines and Procedures, January 2011.

# FAMILY SUPPORT CENTERS

Following is a list of the Family Support Centers Across the State  
Organized by DDS Region and Area Office  
**Central/West Region**

## Berkshire Area

### **Berkshire County Arc**

# Autism Support Centers

There are seven Autism Support Centers throughout the state that provide an array of information and referral services, resources, and supports to children and adults with autism spectrum disorders. These Centers conduct broad outreach and provide services to families from diverse cultural, ethnic and linguistic communities in the geographic area they are serving and may create partnerships with community organizations and other resources in order to provide culturally responsive services.

The array of services and supports to families includes:

- Information and Referral
- Family Clinics
- Support Groups
- Access to the latest information on autism
- Family Trainings
- Parent Networking and Mentoring, and
- Social/recreational events, among other activities

**Below is a list of the Autism Support Centers across the state organized by DDS Regions:**

## Central/West Region

### Central

#### **HMEA: Autism Resource Center of Central Massachusetts**

Address: 71 Sterling Street, West Boylston, MA 01583  
Phone: (508) 835-4278

Email: [Barbaradomingue@community-autism-resources.com](mailto:Barbaradomingue@community-autism-resources.com)  
Website: [www.community-autism-resources.org](http://www.community-autism-resources.org) or  
[www.community-autism-resources.com](http://www.community-autism-resources.com)

## **Intensive Flexible Family Support Programs**

The primary goal of Intensive Flexible Family Support programs is to help support families with one or more members with a disability who are experiencing significant challenges, which are causing the child/individual to be at risk of out-of-home placement. This is a time-limited (6 to 12 months) and goal-oriented service providing more focused and intensive supports in response to identified areas of need and difficulty, and to build family capacity to support their child or young adult at home.

There are nineteen regional or area based Intensive Flexible Family Support Programs funded by DDS across the state. Children/families must meet specific eligibility criteria for participation in this Program and referral for services is made by the local DDS Area Offices. These services are available to children and young adults up to age 22.

For more information contact the local DDS Area Office.

## **Medically Complex Programs**

Medically Complex Programs provide a family-driven model of care which supports families with children and young adults having significant cognitive, physical, and complex health care needs who are living at home. The goal is to provide comprehensive wrap-around supports, which consist of specialized case management activities that help families integrate the variety of resources and supports they are receiving in order to care for their family member at home.

This Program complements and is supplemental to other MassHealth, state plan and third party insurers and provides vital assistance to families who need help in coordinating all of the in-home care they receive. This program offers an array of support options to families (parents and siblings) to keep their family member at home and allow for a meaningful quality of life for all, and helps to prevent out-of-home placements in a pediatric nursing home or residential school.

Children must meet specific eligibility criteria for participation in this Program and referral for Program services is made by the local DDS Area Offices. However, Program staff are available to provide information and referral services to families and/or provide consultation to staff working with families who have a child/young adult with significant medical, physical and cognitive challenges.

**Following is a list of Medically Complex Programs across the state organized by DDS Regions:**

## Medically Complex Programs Central/West Region

### Central

#### **Shriver Clinical Services Corporation**

Website: [www.bamsi.org](http://www.bamsi.org)

## Family Leadership Programs

The Family Leadership Program is designed to provide education, leadership training and mentoring for families with children and adults with disabilities living in the community. One goal of these activities is to provide information on best practices and opportunities to support individuals and families to fully participate in all aspects of community life. Family leadership training and mentoring is developed and provided by family members who have a child or adult family member with a disability. One vehicle for family leadership development is the sponsorship of a Family Leadership Series, but other opportunities and activities are available in response to local needs.

**Below is a list of Family Leadership Programs across the state organized by DDS Regions:**

### Central/West Region
