SURVEILLANCE DATA REQUEST FORM

Please note the Bureau of Infectious Disease employs the following data suppression rules unless a specialized agreement is in place to release more identifiable information:

1. If the population is > 50,000 the case count data may be released regardless of size
 2. If the population is < 50,000, the case count must be 5 or greater in order to report out a specific value, otherwise, see #3.
 3. If the population is < 50,000, and the case count is 4 or less, the case count must be reported as <5 regardless of the actual number
 4. 0 cases may be reported regardless of population size
- For population numbers, refer to www.census.gov

Name:	
Affiliation:	
Address:	
Telephone:	
Fax:	
Email:	
Requested completion date: <i>(Allow a minimum of two weeks to process a request.)</i>	
Reason for Request:	
Disease(s) Requested: <i>(See attached list on page two for a listing of diseases for which surveillance data is available)</i>	
Time period of interest: <i>(e.g., 2011-2013)</i>	
Geographic location: <i>(Keep in mind the data suppression rules above if you are requesting town-specific data.)</i>	<input type="checkbox"/> Statewide <input type="checkbox"/> County-specific Specify county or counties of interest: _____ <input type="checkbox"/> Town-specific Specify town or towns of interest <i>(keeping in mind suppression rules above):</i> _____

Office of Integrated Surveillance and Informatics Services
Bureau of Infectious Disease
Massachusetts Department of Public Health
William A. Hinton State Laboratory Institute
305 South St. Boston, MA 02130
