

Increasing HPV Vaccine Coverage by Strengthening Adolescent AFIX Activities, Financed in Part by 2016 Prevention and Public Health Funds

(CDC-RFA-IP16-1608PPHF16)

Synopsis: The Massachusetts Department of Public Health will focus on increasing HPV vaccination rates by improving the quality of our Assessment, Feedback, Incentives, and eXchange (AFIX), a continuous quality improvement process. MDPH will employ three high-level strategies, each one with associated activities to accomplish the goal of increasing HPV coverage rates. The successful implementation of these strategies will ultimately result in increased HPV vaccination rates for adolescents.
