What is MassHealth?

MassHealth is a program run by the Commonwealth of Massachusetts that provides health care benefits for people living in Massachusetts who have medium, low, or no income.

How can MassHealth help me?

If you are HIV+ and qualify, we can pay for your health care even if you do not have AIDS or are not disabled. We cover many services to keep you healthy including doctor visits, medications, lab tests, mental health services, treatment services for substance use disorder, hospital stays, dentists, eyeglasses, and quit-smoking services.

Do I qualify?

We look at income level and family size to decide if you or your family can get MassHealth. (See the income chart.) You may be eligible for MassHealth whether or not you work, and even if you have health insurance. Other rules may apply.

Can my children be covered too?

If they qualify, your children can get MassHealth too.

Will information be kept confidential?

Yes. We keep the information you give us private, and only use and disclose it in accordance with applicable law.
