422.402: Definitions

The following terms used in 130 CMR 422.000 have the meanings given in 130 CMR 422.402 unless the context clearly requires a different meaning. The reimbursability of services defined in 130 CMR 422.402 is not determined by these definitions, but by application of 130 CMR 422.000 and 450.000: *Administrative and Billing Regulations*.

The PCM agency conducts the assessment in accordance with 130 CMR 422.422(A) and the contract for PCM services. The result of an assessment is a determination that the member either requires a surrogate to receive PCA services or can manage the PCA program independently.

422.416: PCA Program: Prior Authorization for PCA Services

The PCM agency must request prior authorization from the MassHealth agency as a prerequisite to payment for PCA services. Prior authorization determines only the medical necessity of the authorized service and does not establish or waive any other prerequisites for payment such as member eligibility or utilization of other potential sources of health care as described in 130 CMR 503.007: *Potential Sources of Health Care* and 517.008: *Potential Sources of Health Care*. Prior authorization for PCA services does not authorize member scheduling of PCA overtime, which is described in 130 CMR 422.418. All requests for prior authorization for PCA services must include the provider number of the fiscal intermediary selected by the PCM agency pursuant to 130 CMR 422.404(C) and be submitted on MassHealth forms in accordance with the billing instructions in Subchapter 5 of the *Personal Care Manual* and 130 CMR 422.416. The MassHealth agency responds to requests for prior authorization in accordance with 130 CMR 450.303: *Prior Authorization*.

(A) Initial Request for Prior Authorization for PCA Services.

(1) With the exception of 130 CMR 422.416(D), PCM agencies must submit the initial request for prior authorization for PCA services to the MassHealth agency within 45 calendar days of the date of the member's referral to the PCM agency for PCA services. Requests for prior authorization for PCA services must include:

- (a) the completed MassHealth Application for PCA Services and MassHealth Evaluation for PCA Services;
- (b) the completed MassHealth Prior Authorization Request form;
- (c) any documentation that supports the member's need for PCA services. This documentation must:

- 1. identify a permanent or chronic disability that impairs the member's ability to perform ADLs and IADLs without physical assistance; and
- 2. state that the member requires physical assistance in two or more ADLs as defined in 130 CMR 422.410(A); and

(d) documentation that the member's physician or nurse practitioner has ordered PCA services. This documentation must take the form of either:

- 1. the completed and signed physician/nurse practitioner sign-off page of the MassHealth PCA evaluation form; or
- 2. documentation that the nurse who conducted the evaluation obtained verbal authorization to initiate (or continue) PCA services from the member's physician or nurse practitioner. Such documentation must include the member's name and address, the name and telephone number of the nurse who obtained the authorization, the date the authorization was obtained, the number of PCA hours requested by the PCM agency and ordered by the physician or nurse practitioner,

and the name, address, and telephone number of the physician or nurse practitioner who granted the authorization.

The PCM agency must maintain the physician/nurse practitioner sign-off page in the member's file, making it available to the MassHealth agency on request.

(B) Adjustment of Current Prior Authorization. Prior-authorization requests to increase or decrease the number of hours of PCA services must be submitted to the MassHealth agency in writing within 30 calendar days of the member or surrogate request, and include:

- (1) a copy of the original prior-authorization request and PCA evaluation;
- (2) a written summary of the specific adjustment requested that includes the reason for the adjustment and the specific ADLs or IADLs for which an increase or decrease in PCA services is being requested, including the number of units, the number of hours, and the duration of time for which the adjustment is being requested; and
- (3) a letter from the member's physician or nurse practitioner stating that the need for an adjustment in the member's authorized number of hours of PCA services is a result of changes in the member's medical condition, functional status, or living situation that affects the member's ability to perform ADLs and IADLs without physical assistance. The letter must also describe these conditions. The letter must include the length of time for which the adjustment is required.

(C) Continuation of PCA Services. To ensure the continuation of PCA services, PCM agencies must request prior authorization from the MassHealth agency at least 21 calendar days before the expiration date of the current prior-authorization period. 422.422: PCA Program: Operating Procedures

(A) Assessment. For each member determined eligible for PCA services in accordance with 130 CMR 422.421(A)(2), the PCM agency must conduct a written assessment of the member's capacity to manage PCA services independently. If a member has a court-appointed legal guardian or is a minor child, a surrogate is required, and the agency is not required to conduct an assessment. The PCM agency must document this in the application for PCA services and in the member's record. The assessment must be in a standard format developed by the PCM agency subject to approval by the MassHealth agency. The assessment process must include the member and may include participation of family members or other member representatives. The PCM agency must:

- (1) based on a face-to-face visit with the member, conduct a written assessment of the member's ability to manage PCA services and to function as an employer of PCAs. The assessment must be conducted before submitting an initial request for prior authorization for PCA services to the MassHealth agency, at least annually thereafter, and whenever necessary due to a change in circumstances that may affect a member's ability to manage PCA services independently or function as an employer of PCAs. The result of an assessment is that the member either:
  - (a) is able to perform independently all tasks required to manage the PCA program (The PCM agency will conduct a PCA evaluation and submit the request for prior authorization to the MassHealth agency.); or
  - (b) requires the assistance of a surrogate to perform some or all of the PCA management tasks that the member is unable to perform. (A surrogate must be identified before the PCM agency submits a prior-authorization request to the MassHealth agency.);
- (2) complete an assessment at the time of the member's reevaluation, which must occur at least annually and whenever necessary due to a change in circumstances that may affect a member's ability to manage PCA services independently or function as an employer of PCAs;
- (3) review the assessment and modify it, as appropriate, when:
  - (a) the member's medical, cognitive, or emotional condition changes in a way that affects the member's ability to manage PCA services independently;
  - (b) the member exhibits a pattern of overutilization of authorized PCA services, an inappropriate use of PCA services, or potential fraud, and does not discontinue such behavior after intervention from a skills trainer; or
  - (c) the member, the fiscal intermediary, or the MassHealth agency requests review of an assessment;
- (4) review the assessment with the member and obtain the signature of the member. If the member does not agree with the assessment, provide a process for resolving the disagreement; and
- (5) notify the MassHealth agency and the fiscal intermediary in writing of any change in the member's assessment findings.

	<b>Transmittal Letter</b> PCA-22	<b>Date</b> 05/05/17

(B) Surrogates.

- (1) If the PCM agency's assessment described in 130 CMR 422.422(A) determines that the member requires the assistance of a surrogate, the member will appoint a surrogate who meets the criteria described in 130 CMR 422.402 and who can assist the member to manage the PCA program in accordance with MassHealth regulations and the member's service agreement. The PCM agency will document the name, address, telephone number, and relationship to the member on the MassHealth evaluation and submit it to the MassHealth agency, along with the prior-authorization request for PCA services.
- (2) If the PCM agency's assessment determines that the member requires the assistance of a surrogate, or if the member has a court-appointed legal guardian or is a minor child, and the member cannot identify a surrogate, the PCM agency must assist the member or legal guardian in locating a surrogate.
  - (a) If a surrogate is identified and meets the criteria described in 130 CMR 422.402, the PCM agency must obtain the name, address, and telephone number of the surrogate and the surrogate's relationship to the member, and include this information on the MassHealth evaluation form when submitting the PA request for PCA services.
  - (b) If a surrogate is not available, the PCM agency will refer the member to an appropriate service provider, and will not submit a PA request to the MassHealth agency.
- (3) If a member's surrogate becomes unavailable at any time during the prior-authorization period, or the MassHealth agency requires the member to replace the surrogate pursuant to 130 CMR 422.420(B)(5), the PCM agency must immediately notify the member of the need to locate another surrogate within 30 calendar days.
  - (a) If another surrogate cannot be identified within 30 calendar days, the PCM agency must notify the MassHealth agency in writing and refer the member to an appropriate service provider.
  - (b) The MassHealth agency may terminate a member's PCA services in accordance with 130 CMR 422.420(B) when a surrogate cannot be identified.
- (4) If a member's capacity to independently manage PCA services changes during the prior-authorization period, the PCM agency will conduct an assessment in accordance with 130 CMR 422.422(A).
  - (a) If the assessment determines that the member requires a surrogate, the member will appoint a surrogate, and the PCM agency will notify the MassHealth agency and the fiscal intermediary in writing of the name, address, phone number, and relationship to the member.
  - (b) If the PCM agency's assessment determines that the member needs a surrogate, but one cannot be identified within 30 calendar days of the assessment, the PCM agency must notify the MassHealth agency and the member in writing, including a copy of the assessment, and refer the member to an appropriate service provider.
  - (c) If a surrogate cannot be identified, the MassHealth agency may terminate the member's PCA services in accordance with 130 CMR 422.420(B).
- (5) The PCM agency must provide the MassHealth agency and the fiscal intermediary with the name, address, and phone number of the member's surrogate, and report any changes in surrogate information.

(C) PCM Agency: Evaluation to Initiate PCA Services.

(1) An evaluation team consisting of a registered nurse and an occupational therapist must conduct an initial evaluation, under the supervision of a registered nurse, only for members who meet the criteria described in 130 CMR 422.403(A), (B), and (C)(1) through (3). The evaluation must accurately represent the member's need for physical assistance with ADLs and IADLs. The evaluation team must consider the member's physical and cognitive condition and resulting functional limitations to determine the member's ability to benefit from PCA services.

(2) The evaluation must take place in the member's presence and in the member's actual or proposed place of residence in the community, or in the following locations, if these situations apply:

(a) at the transitional living program site where the member lives if the member has completed functional skills training, but is unable to find housing; or

(b) at a hospital or institution if the member has been hospitalized or institutionalized for an extended period, unless the MassHealth agency exercises its option of conducting the initial evaluation in accordance with 130 CMR 422.416(D).

(3) All evaluations must be completed on the MassHealth evaluation form by either the registered nurse or the occupational therapist who conducted the evaluation.

(a) The completed evaluation must be reviewed, approved, and signed by the member, the member's legal guardian, the member's prescribing physician or nurse practitioner, and the member's surrogate, if appropriate. *See* 130 CMR 422.416 about documentation of the physician or nurse practitioner's authorization.

(b) The completed evaluation must be sent to the MassHealth agency, with the documentation described in 130 CMR 422.416(A).

(4) The MassHealth agency may defer or deny requests for prior authorization for PCA services where:

(a) the applicant does not meet the eligibility criteria defined in 130 CMR 422.403;

(b) the standard MassHealth personal care application and evaluation forms are not submitted or are incomplete;

(c) the evaluation provides insufficient information to determine if PCA services are medically necessary;

(d) the member or the surrogate has not signed the evaluation;

(e) there is not sufficient documentation to indicate that the physician or nurse practitioner has authorized PCA services;

(f) the surrogate information is not provided in the format requested by the MassHealth agency, or the PCM agency has determined that a surrogate is required but one is not identified in the evaluation; or

(g) the services being requested in the evaluation are not covered under the MassHealth PCA program. (*See* 130 CMR 422.410 through 422.412.)

(D) Reevaluation. Reevaluations must be conducted by a registered nurse, and must include a review of the service agreement and the assessment by qualified PCM agency staff. If appropriate, an occupational therapist may be involved in the process. Requirements cited in 130 CMR 422.422(C)(2) through (4) also apply to reevaluations.

<b>Commonwealth of Massachusetts MassHealth Provider Manual Series</b>  Personal Care Manual	<b>Subchapter Number and Title</b> 4 Program Regulations (130 CMR 422.000)	<b>Page</b> 4-26
	<b>Transmittal Letter</b> PCA-22	<b>Date</b> 05/05/17

(1) Except as described in 130 CMR 422.422(D)(2), reevaluations must be conducted annually, or more frequently when a significant change in the member's physical condition or living situation has occurred. The reevaluation must accurately represent the member's need for physical assistance with ADLs and IADLs, and must consider the member's physical and cognitive condition and resulting functional limitations to determine ability to benefit from PCA services.

(2) The MassHealth agency may, at its discretion, grant prior authorization beyond the usual one-year period for services requested in a reevaluation in cases where the member:

- (a) is 22 years of age or older;
- (b) had no significant change in medical condition, functional status, or living situation within the previous year that may increase or decrease the member's need for PCA services, and no significant change is anticipated; and
- (c) is not requesting an increase in the number of PCA hours provided per week.

(E) Authorization. The MassHealth agency, at its sole discretion, may elect to conduct the PCA evaluation for purposes of authorizing PCA services in accordance with 130 CMR 422.416(D).

(F) Rates. Rates for payment for evaluations and reevaluations are set by the Center in accordance with 101 CMR 309.00: *Independent Living Services for the Personal Care Attendant Program* and are inclusive of all related activities specified in 130 CMR 422.422(A), (C), and (D), including, but not limited to, conducting the assessment and evaluations, obtaining necessary medical documentation, contacting the physician or nurse practitioner, and responding to MassHealth agency inquiries or deferrals.

422.423: PCA Program: Service Agreement

(A) Before the initiation of PCA services, the PCM agency, in conjunction with the member and the member's surrogate, if any, must develop a written service agreement that is unique to the member and in a standard format developed by the MassHealth agency. The service agreement must be established face-to-face with the member. The service agreement must include, at a minimum:

- (1) a detailed description of the responsibilities of the PCA, the fiscal intermediary, the member, the surrogate, and the PCM agency;
- (2) if a surrogate is required, the identity of the surrogate and a detailed description of the surrogate's responsibilities, including the PCA management tasks the surrogate will perform or assist the member to perform, and the frequency of the surrogate's visits to the member. The surrogate must perform these tasks in the best interest of the member, and in accordance with 130 CMR 422.000. The service agreement will ensure the member's maximum participation in the management of the PCA tasks;
- (3) if a surrogate is not required, the service agreement must clearly state that the member has the sole responsibility of managing the PCA services;
- (4) the current and updated list of PCAs available when an unforeseen event occurs that prevents the member's regularly scheduled PCA from providing services, developed in accordance with 130 CMR 422.420(A)(16), and which is sufficient to address the member's needs and contains the PCA's contact information and available schedule;
- (5) the type and frequency of functional skills training that the PCM agency will provide to the member, and the surrogate, if any, to manage PCA services effectively, based on the member's individual abilities and need;

(B) Before implementing or modifying the service agreement, the PCM agency must provide to the member and surrogate, if any:

- (1) a copy of the plan;
- (2) an explanation, if necessary, of the terms of the plan;
- (3) an opportunity to object to any terms of the plan; and
- (4) a process to resolve any objections or disagreements as soon as possible, including an opportunity to meet with all interested persons.

(C) A review of the service agreement must include a review of the needs and circumstances of the member, the services provided by the PCA, and, if appropriate, the surrogate's management of the PCA.

- (1) The PCM agency will complete a service agreement with the member and surrogate, if any, before the initiation of PCA services and then at reevaluation, which must occur at least annually and as needed due to a change of circumstances that may affect a member's ability to manage PCA services independently or function as an employer of PCAs.
- (2) The PCM agency will review the service agreement with the member, and surrogate, if any, on at least a quarterly basis, and modify, as appropriate, when the following occurs:
  - (a) it is the first year in which the member has a new surrogate;
  - (b) the member is in the first year of prior authorization for PCA services;
  - (c) the member or surrogate is not managing PCA services effectively, as evidenced by consistent overutilization of PCA hours, scheduling of nonemergency overtime absent or in excess of MassHealth authorization of nonemergency overtime, inappropriate submission of activity forms, difficulty in retaining PCAs, suspicion of fraud, or other indication that the member or surrogate is not able to manage PCA services;
  - (d) significant changes affecting the use of PCA services have occurred in the member's life;
  - (e) other circumstances warrant a review;

422.431: Transitional Living Program: Prior Authorization

A provider of transitional living services must obtain prior authorization from the MassHealth agency as a prerequisite to payment for transitional living services. All requests for prior authorization for transitional living services must be submitted on MassHealth forms in accordance with the billing instructions in Subchapter 5 of the *Personal Care Manual*. A completed assessment, evaluation, and service agreement prepared in accordance with 130 CMR 422.438 and 422.439 that are signed by both the member and the program's director must be submitted to the MassHealth agency with a request for prior authorization.

(A) Notice of Approval. If the MassHealth agency approves a prior-authorization request for transitional living services, the MassHealth agency will send written notice to the member and the transitional living provider about the frequency, duration, and intensity of care authorized, as well as the effective date of the authorization.

(B) Notice of Denial and Right of Appeal.

(1) If the MassHealth agency denies a prior-authorization request for transitional services, the MassHealth agency notifies both the member and the transitional living provider. The notice states the reason for the denial and informs the member of the right to appeal and of the appeal procedure.

(2) If the MassHealth agency denies a PA request for transitional living services, a member may appeal by requesting a fair hearing from the MassHealth agency. The request for a fair hearing must be made in writing to the MassHealth Board of Hearings in accordance with the time lines described in 130 CMR 610.015(B): *Time Limitation on the Right of Appeal*. Requests for continuation of services during an appeal must be made in accordance with 130 CMR 610.036: *Continuation of Benefits Pending Appeal*. The MassHealth Board of Hearings conducts fair hearings in accordance with 130 CMR 610.000: *MassHealth: Fair Hearing Rules*.

422.433: Transitional Living Program: Scope of Services

A transitional living provider must, at a minimum, provide the following services in accordance with each member's needs as documented in the member's service agreement:

- (A) transitional living services, as described in 130 CMR 422.431 through 422.441; and
- (B) transportation to health-care facilities when public transportation is unavailable.

422.434: Transitional Living Program: Administrative Day Rate

If a member has completed the program of transitional living services but cannot secure an appropriate living arrangement, the MassHealth agency will pay an administrative day rate covering the program's overhead expenses and the member's personal care services. The MassHealth agency will pay this rate contingent upon documentation provided by the transitional living provider in the form and frequency determined by the MassHealth agency.

(B) Nonmedical Leave of Absence. If a member leaves the transitional living program for personal reasons, the MassHealth agency will pay the transitional living provider for a cumulative maximum of ten calendar days of nonmedical leave of absence during the member's stay in the transitional living program.

422.436: Transitional Living Program: Staffing Requirements

The transitional living provider must have the following staff at each transitional living program site:

- (A) a program director who must be on site for at least 20 hours per week;
- (B) a registered nurse who must be on site at least 15 hours per week, and who must supervise functional skills training in matters of personal health care (*see* 130 CMR 422.437(C)) and PCA services provided at the transitional living site;
- (C) an occupational therapist who will assist in the provision of functional skills training and in meeting the functional needs of program participants;
- (D) skills instructors or peer counselors to provide functional skills training;
- (E) a part-time driver who has a current, valid driver's license and is qualified to use adapted, accessible vehicles; and

422.437: Transitional Living Program: Functional Skills Training

The need for and benefit from functional skills training is to be determined as part of the assessment described in 130 CMR 422.438(A). At a minimum, each service agreement must contain provisions and a schedule for functional skills training in the four areas listed in 130 CMR 422.437(A) through (D).

(A) PCA Training. PCA training must instruct the member and the member's surrogate, if any, in the functions and scheduling of PCAs in relation to the member's needs.

- (B) PCA Management. The member and the member’s surrogate, if any, will be instructed in:
- (1) hiring of PCAs, including identification of local resources, advertising for PCAs, and interviewing techniques;
  - (2) use of time sheets and schedules in documenting the use of PCAs and meeting the requirements for reimbursement;
  - (3) methods for evaluating PCA competence and effectiveness and requesting assistance in dealing with training or other issues as necessary; and
  - (4) firing and replacing PCAs, including maintenance of a backup system as necessary.

- (C) Personal Health Care Maintenance. The transitional living provider must instruct the member and the member’s surrogate, if any, in the respective roles of the member, the PCAs, and others who assist the member in meeting personal health care needs and the respective abilities of each to:

- (1) identify, understand, and describe medical conditions, problems, and susceptibilities; and
- (2) identify, understand, and describe routines and treatments, including medication schedules and dosages, nutritional planning, bowel and bladder routine, and exercise/range-of-motion routine.

- (D) Emergency Management. The transitional living provider must instruct the member and the member’s surrogate, if any, to develop and review procedures to:

- (1) describe how and when to use a physician and a local hospital emergency room;
- (2) identify and respond to the signs of an emergency;
- (3) understand the appropriate treatment, equipment, or action for dealing with an emergency; and
- (4) maintain a list of emergency telephone numbers and procedures for use by the member, the member’s surrogate, if necessary, and PCAs.

422.438: Transitional Living Program: Operating Procedures

(A) Assessment. The assessment identifies the member’s needs and functional capabilities, including the ability to manage personal care services independently. For an individual who cannot manage personal care services independently, the assessment must identify a surrogate; if a surrogate is not available, the agency must refer the member to an appropriate service provider. The assessment process must include the member and may include participation of family members and advocates. The product of an assessment is either an evaluation or a referral to an appropriate service provider.

- (B) Evaluation.

- (1) An evaluation team consisting of a registered nurse and an occupational therapist must conduct an initial evaluation under the supervision of a registered nurse. The evaluation team must consider the member’s physical and cognitive condition to determine the member’s ability to benefit from PCA services. All evaluations are subject to the approval of the member’s physician.
- (2) The evaluation must take place in the member’s actual or proposed place of residence in the community, or in the following locations, if these situations apply:
  - (a) at the transitional living program site where the member lives if the member has completed functional skills training, but is unable to find housing; or

(b) at a hospital or institution if the member has been hospitalized or institutionalized for an extended period.

(C) Reevaluations. At least annually, and when necessary in the event of a significant change in the member's physical condition or living situation, the registered nurse must conduct a reevaluation, including a review of the personal care services plan. For plans designating a surrogate, *see* 130 CMR 422.439(B). The reevaluation must conform to the requirements in 130 CMR 422.438(B). If appropriate, the occupational therapist must be involved.

(D) Processing Services. The transitional living provider must process MassHealth agency payments for PCA services. The MassHealth agency pays the agency, which transmits the funds to the member or the surrogate, who pays the PCA.

- (1) The organization's administrator and the member both must sign an agreement on a form designated by the MassHealth agency. This agreement states the member's and the agency's legal responsibilities in the transitional living program.
- (2) Each pay period, not to exceed a month, the transitional living provider must collect activity forms from each member, signed by both the member and the PCA. The organization may claim payment from the MassHealth agency only for services actually provided by the PCA as documented by the activity forms, plus the processing fee established by the Center.
- (3) Within four working days after receiving payment from the MassHealth agency for PCA services, the transitional living provider must pay the member or the surrogate the amount owed to the PCA for these services.
- (4) The agency must maintain a separate account exclusively for PCA payments. All such payments must be maintained in such account until disbursed to the member or surrogate.

(E) Nursing Supervision. The transitional living provider must provide nursing supervision of transitional living services as authorized in the service agreement and at least annually as part of an evaluation or reevaluation.

422.439: Transitional Living Program: Service Agreement

- (A) (1) Before the initiation of PCA services, the transitional living provider, with the participation of the member and the surrogate (if any), must develop a written individual service agreement, which must describe in detail the responsibilities of the PCA, the member, the member's surrogate, and the transitional living provider.
- (2) On the basis of an assessment as provided in 130 CMR 422.438(A), the transitional living provider, with the participation of the member to the fullest extent possible, must determine whether a surrogate is needed to manage the personal care services. If no surrogate is needed, the service agreement must clearly state that the member has sole responsibility to manage the PCA.
- (3) If a surrogate is needed, the service agreement must name the surrogate, and pursuant to and as described in the service agreement, the member must be involved in managing the PCA to the maximum extent possible. The service agreement's description of the surrogate's responsibilities must include the frequency of the surrogate's visits with the member. The transitional living provider is responsible for monitoring the overall implementation of the service agreement.

- (b) an explanation, if necessary, of the terms of the agreement;
- (c) an opportunity to object to any terms of the agreement; and
- (d) a process to resolve any objections as soon as possible, including an opportunity to meet with all interested persons.

(B) Where the service agreement identifies the need for a surrogate, the organization, with the participation of the member and the surrogate, must review the service agreement and its implementation. Review of the agreement must include a review of the needs and circumstances of the member, the services provided by the PCA, and the surrogate’s management of the PCA. If necessary, the plan will be modified:

- (1) at least every three months;
- (2) when there is a change in the surrogate;
- (3) when other significant changes in circumstances necessitate it; and
- (4) whenever requested by the member or the surrogate.

- (A) The site must be accessible to and suitable for persons with multiple physical disabilities.
- (B) The site must comply with the laws and regulations of the Architectural Access Board (521 CMR).
- (C) There must be documentation of a site inspection and approval by the Massachusetts Department of Public Safety, local fire department, and building inspector, and compliance with all applicable federal, state, and local statutes, laws, and ordinances.
- (D) Members’ quarters must be near to and easily accessible from staff and attendant quarters.
- (E) The site must have an accessible, appropriate telephone or emergency call device located in each bedroom.

422.441: Transitional Living Program: Emergency Procedures
