NEW!

We help people like you every day.
Today, let's help you.

Senior Care Options (HMO SNP) from Tufts Health Plan was created for one reason: to make your life better.

Medical and prescription drug benefits, plus one more important difference:
The Care Manager.

Tufts Health Plan would like you to know about a new special needs plan created to make a difference in your life. It's called Tufts Health Plan Senior Care Options.

It's a plan that provides you medical benefits at no out-of-pocket cost, along with a Care Manager whose primary goal is to improve the coordination of care you receive.

What would make your life better?

What would it take to make your life better? Would it be assistance making doctor's appointments? Maybe receiving rides to and from your medical appointments? Perhaps you need help evaluating and managing your prescription medications.

Your Tufts Health Plan Care Manager can help, so you can live as healthy and as independent a life as possible.

Personal caring.

Once you enroll, we'll match you with a Tufts Health Plan Care Manager. They'll sit down with you to learn about your specific needs, and work with you and your doctor to create a continually updated Personal Care Plan. They'll help you get the support and services for which you qualify, as your needs change.

Ultimately, our goal and the goal of your Care Manager is the same as yours: a better, happier, healthier life for you.
