

MFIRS : MASSACHUSETTS FIRE INCIDENT REPORTING SYSTEM

The Massachusetts Fire Incident Reporting System (MFIRS) training is a 4-hour class designed to teach firefighters the system and requirements for reporting their incidents to the Department of Fire Services and the U.S. Fire Administration. Fire chiefs are encouraged to send two or more members to one of these training sessions so that each department can gain a critical understanding of how MFIRS works and how the data is and may be used. Students will also learn of any new updates to the system.

Fire departments using this training as a train-the-trainer may obtain training materials by contacting the Department of Fire Services Research Analyst/MFIRS Manager.

You have the option of printing a hard copy of the student materials or downloading them to your computer or other device.

Course Code: 200-000-613-2016-SP-A Date: January 13, 2016	Time: 1000-1400 Location: Ipswich Fire Department 55 Central St. Ipswich, MA 01938 Training Room
