

Massachusetts Fire Training Council

Technical Rescuer – Confined Space Rescue I/II

Practical Certification Examination

Skill Sheet No.	CS – 1-1	03-01-2015	Candidate Number	
Skill Title: CONDUCT MONITORING OF THE ENVIRONMENT				
NFPA Objective:	7.1.1	Minimum to pass	6	
			P	F

1.	Choose appropriate detection and monitoring equipment (meter).	■			
2.	Demonstrate ability to zero out meter.	■			
3.	Describe how to calibrate a meter.				
4.	Describe how to read a peak level.	■		■	
5.	Describe what atmospheric conditions meter is looking for.				
6.	Describe and demonstrate how to meter a confined space.				
7.	Describe what levels should be tested.				
8.	Demonstrate recording of testing results.				
	ALL TASKS MUST BE COMPLETED APPROPRIATELY AND SAFELY DURING THIS SKILL				

Failure of this critical portion is cause for entire skill failure

Examiner Name: _____ Signature: _____ Date: ___/___/___

Please circle: PASS FAIL RETAKE

Massachusetts Fire Training Council

Technical Rescuer – Confined Space Rescue I/II

Practical Certification Examination

Skill Sheet No.	CS – 1-2	03-01-2015	Candidate Number	
Skill Title: PREPARE FOR ENTRY INTO A CONFINED SPACE				
NFPA Objective:	7.1.2	Minimum to pass		5
				P
				F

	1.	Demonstrate how to start and continue atmospheric monitoring.				
	2.	Demonstrate establishing communication with a victim.				
	3.	Describe and/or demonstrate LO/TO has been performed.				
	4.	Describe and/or demonstrate machinery is at zero mechanical state.				
	5.	Describe and/or demonstrate pipes have been LO/TO or blanked.				
	6.	Demonstrate gathering information from existing entry permit.				
	7.	Demonstrate starting rescue entry checklist.				
		ALL TASKS MUST BE COMPLETED APPROPRIATELY AND SAFELY DURING THIS SKILL				

Failure of this critical portion is cause for entire skill failure

Examiner Name: _____ Signature: _____ Date: ___/___/___

Massachusetts Fire Training Council

Technical Rescuer – Confined Space Rescue I/II

Practical Certification Examination

Skill Sheet No.	CS – 1-3	03-01-2015	Candidate Number	
Skill Title: ENTER A CONFINED SPACE GIVEN PPE				
NFPA Objective:	7.1.3	Minimum to pass	5	
			P	F

	1.	Choose appropriate rescue/retrieval equipment.				
	2.	Demonstrate setting up rescue/retrieval equipment.				
	3.	Demonstrate how atmospheric monitoring is continuous.				
	4.	Demonstrate attaching rescuer to appropriate retrieval system.				
	5.	Demonstrate system safety check of all components.				
	6.	Describe a type of victim retrieval device/system to be used.				
		ALL TASKS MUST BE COMPLETED APPROPRIATELY AND SAFELY DURING THIS SKILL				

Failure of this critical portion is cause for entire skill failure

Examiner Name: _____ Signature: _____ Date: ___/___/___

Technical Rescuer – Confined Space Rescue I/II

Practical Certification Examination

Skill Sheet No.	CS – 1-4	03-01-2015	Candidate Number	
Skill Title:	PACKAGE THE VICTIM FOR REMOVAL FROM A CONFINED SPACE			
NFPA Objective:	7.1.4	Minimum to pass	4	
			P	F

	1.	Demonstrate communication with victim.				
	2.	Describe donning respiratory protection for victim.				
	3.	Select appropriate victim packaging device/system.				
	4.	Connect victim to retrieval system.				
	5.	Perform system safety check.				
		ALL TASKS MUST BE COMPLETED APPROPRIATELY AND SAFELY DURING THIS SKILL				

Failure of this critical portion is cause for entire skill failure

Examiner Name: _____ Signature: _____ Date: ___/___/___

Technical Rescuer – Confined Space Rescue I/II

Practical Certification Examination

Skill Sheet No.	CS – 1-5	03-01-2015	Candidate Number		
Skill Title: REMOVE ALL ENTRANTS FROM A CONFINED SPACE					
NFPA Objective:	7.1.5	Minimum to pass	6		
				P	F

	1.	Assures victim is connected to system.				
	2.	Demonstrates hauling victim out of confined space.				
	3.	Describe criteria which rescuer comes out first.				
	4.	Demonstrates belayer is ready.				
	5.	Demonstrates the hauling person(s) are ready.				
	6.	Demonstrates hauling a rescuer out of the confined space.				
	7.	Demonstrates documentation all entrants are out.				
	8.	Describes decontamination of entrants.				
		ALL TASKS MUST BE COMPLETED APPROPRIATELY AND SAFELY DURING THIS SKILL				

Failure of this critical portion is cause for entire skill failure

Technical Rescuer – Confined Space Rescue I/II

Practical Certification Examination

Skill Sheet No.	CS – 2-1	03-01-2015	Candidate Number	
Skill Title: PRE-PLAN A CONFINED SPACE				
NFPA Objective:	7.2.1	Minimum to pass	4	
			P	F

	1.	Demonstrate using a Pre-plan form.				
	2.	Demonstrates ability to sketch a confined space.				
	3.	Describe configuration of a particular confined space.				
	4.	Demonstrates identifying all hazards for a confined space.				
	5.	Describe how to mitigate hazards for a confined space.				
		ALL TASKS MUST BE COMPLETED APPROPRIATELY AND SAFELY DURING THIS SKILL				

Failure of this critical portion is cause for entire skill failure

Technical Rescuer – Confined Space Rescue I/II

Practical Certification Examination

Skill Sheet No.	CS – 2-2	03-01-2015	Candidate Number	
Skill Title: ASSESS THE INCIDENT GIVEN A PRE-PLAN OF THE SPACE OR SIZE-UP INFORMATION				
NFPA Objective:	7.2.2	Minimum to pass	5	
			P	F

	1.	Demonstrate interpreting pre-plan for a given space.				
	2.	Demonstrate conducting interviews.				
	3.	Describe choosing and utilizing proper PPE.				
	4.	Demonstrates using monitoring equipment.				
	5.	Describe what hazards are for a given confined space.				
	6.	Describe evaluating space using risk-benefit analysis.				
	7.	Demonstrate choosing appropriate rescue retrieval equipment.				
		ALL TASKS MUST BE COMPLETED APPROPRIATELY AND SAFELY DURING THIS SKILL				

Failure of this critical portion is cause for entire skill failure

Practical Certification Examination

Skill Sheet No.	CS – 2-3	03-01-2015	Candidate Number		
Skill Title: CONTROL HAZARDS					
NFPA Objective:	7.2.3	Minimum to pass	3		
				P	F

	1.	Demonstrate ability to place scene barriers.			
	2.	Demonstrate operating atmospheric monitoring equipment.			
	3.	Demonstrate applying a LO/TO kit to energized equipment.			
	4.	Demonstrate applying a LO/TO kit to a ball or gate valve.			
		ALL TASKS MUST BE COMPLETED APPROPRIATELY AND SAFELY DURING THIS SKILL			

Failure of this critical portion is cause for entire skill failure
