"SECTION 72. Chapter 175 of the General Laws is hereby amended by inserting after section 47U, inserted by section 8 of chapter 141 of the acts of 2000, the following section:—

Section 47V. No individual or group accident and health insurance policies and health service contracts can refuse to reimburse a physician at the full rate for necessary medical or surgical services provided by a physician assistant practicing under the supervision of a physician if the policy or contract would have paid for the same services when provided by a physician. Individual or group accident and health insurance policies and health service contracts cannot impose a practice or supervision restriction which is inconsistent or more restrictive than state law. Provided, however, that the following conditions are met: (1) the service rendered is within the scope of practice of physician assistants pursuant to section 9E of said chapter 112; (2) such service is provided in compliance with all other requirements of law, including a formal supervisory arrangement with a physician as provided for by said section 9E (3) the policy or contract provides benefits for such service if rendered by a registered physician in the commonwealth.

SECTION 73. Chapter 176A of the General Laws is hereby amended by inserting after section 8Z, the following section:—

Section 8V. No contract or subscription certificate between an insured and the corporation can refuse to reimburse a physician at the full rate for necessary medical or surgical services provided by a physi-

cian assistant, certified by the board of registration of physician assistants pursuant to the provisions of section 9F of chapter 112, practicing under the supervision of a physician if the contract or subscription certificate would have paid for the same services when provided by a physician. A contract or subscription certificate between an insured and the corporation cannot impose a practice or supervision restriction which is inconsistent or more restrictive than state law; provided, however, that the following conditions are met: (1) the service rendered is within the scope of practice of physician assistants pursuant to section 9E of said chapter 112; (2) such service is provided in compliance with all other requirements of law, including a formal supervisory arrangement with a physician as provided for by said section 9E; and (3) the contract or subscription certificate provided benefits for such service if rendered by a registered physician in the commonwealth.

SECTION 74. Chapter 176B of the General Laws is hereby amended by inserting after section 4U, inserted by section 4R the following section:—

Section 4V. No contract or subscription certificate between an insured and the corporation can refuse to reimburse a physician at the full rate for necessary medical or surgical services provided by a physician assistant, certified by the board of registration of physician assistants pursuant to the provisions of section 9F of chapter 112, practicing under the supervision of a physician if the contract or subscription certificate would have paid for the same services when provided by a physician. No such contract of subscription certificate shall deny payment for such services solely on the basis that the service was provided by a physician assistant.

SECTION 75. The first paragraph of section 4 of chapter 176G of the General Laws is hereby amended by adding the following sentence:— Such health maintenance contract shall also provide coverage for the services rendered by a certified registered physician assistant, as set forth in section 47V of chapter 175, subject to the provisions of said section.”

The amendment was adopted.

Mr. Kaufman of Lexington and other members of the House then moved to amend the bill by striking out section 40; and the amendment was adopted.

Mr. D'Amico of Seekonk then moved, there being no objection, to amend the bill by striking out section 34 (as previously amended) and inserting in place thereof the following two sections:

“SECTION 34. Chapter 176O is hereby amended by inserting after Section 5B the following section:—

Section 5C. (a) No carrier shall enter or renew a contract or agreement on or after January 1, 2012 with any health care provider under which the carrier agrees to pay the health care provider at a rate that is 10% above or 10% below the carrier's 2013 statewide relative price. The carrier's annual average relative price shall be calculated using the standard method determined by the commissioner using the provider categories and uniform methodology for price relativities established by the division of health care finance and policy pursuant to section 6 of chapter 118G and shall be certified by an independent actuary selected by the carrier from a panel established by the division. Each carrier's 2013 relative price shall be based on the carrier's 2010 relative price adjusted annually by the percentage increase in the consumer price index for all urban consumers, as reported by the United States Bureau of Labor Statistics. For each subsequent year, the carrier's relative price shall not increase at a rate greater than the annual percentage increase in the employment cost index for the private industry health care and social assistance industry group, as reported by the United States Bureau of Labor Statistics.

(b) Notwithstanding subsection (a), the commissioner of insurance may by regulation establish rate factors based on actuarially and statistically sound analysis of the differences in the cost of providing health care services for different rate factor categories of health care provider by specialty, academic status or geographic location. A carrier may enter or renew a contract on or after January 1, 2013 under which the carrier agrees to pay the health care provider a rate that applies an applicable rate factor established under this section; provided, however, that the resulting rate may not be more than 15% above or 15% below the carrier's statewide relative price, as determined in paragraph (a), for all health care providers regardless of whether the rate factor applies to them or not. If a carrier chooses to apply a rate factor established by the commissioner, the carrier shall apply that rate factor consistently to every health care provider within that rate factor category, as determined by the commissioner. A carrier may not apply a rate factor established pursuant to this section to any health care provider that has not entered, renewed or renegotiated its contract to provide services with the carrier between the effective date of this act and January 1, 2013.

(c) Notwithstanding subsection (a), a carrier may enter a contract with a health care provider, under which the carrier agrees to pay the health care provider a rate or global budget rate calculated to result in health status adjusted total medical expenses for the primary care provider or group that is no more than 5% above the health status adjusted total medical expenses of the health care providers in the carrier's statewide network. The carrier's annual health status adjusted total medical expenses shall be calculated using the total medical expenses determined using the uniform methodology established by the division of health care finance and policy pursuant to section 6 of chapter 118G and shall be certified by an independent actuary selected by the carrier from a panel established by the division.

(d) Any savings realized by the carrier from any reduction or mitigation in the growth of provider prices shall be incorporated in the premiums charged to health plan members.

Health  
insurance.

SECTION 34A. The division of insurance, in consultation with the division of health care finance and policy, shall conduct a study of the impact of Section 34 (section 5C of chapter 176O). The study shall include, but not be limited to, an examination of the impact on carrier provider networks, network adequacy, rates paid to non-participating providers, cost shifting across market segments, and the overall impact on carrier member premiums. The division may conduct a public hearing and receive input from interested parties. The division shall file a report with the clerks of the senate and house of representatives not later than January 1, 2014 on its findings and may make recommendations for legislation.”

After remarks the amendment was rejected.

Messrs. Conroy of Wayland and Mariano of Quincy then moved to amend the bill by striking out section 29 and inserting in place thereof the following section:

“SECTION 29. Said chapter 176J is hereby amended by adding the following section:—

Section 11. (a) A carrier that offers a health benefit plan that: (i) provides or arranges for the delivery of health care services through a closed network of health care providers; and (ii) as of the close of any preceding calendar year, has a combined total of 5,000 or more eligible individuals, eligible employees and eligible dependents, who are enrolled in health benefit plans sold, issued, delivered, made effective or renewed to qualified small businesses or eligible individuals, shall offer to all eligible individuals and small businesses at least one plan with either a reduced or selective network of providers. The base premium for the reduced or selective network, or any tiered network plan shall be at least 15 per cent lower than the base premium of the carrier’s most actuarially similar plan with the carrier’s non-selective or non-tiered network of providers.

(b) A tiered network plan shall only include variations on member cost-sharing between provider tiers, which are reasonable in relation to the premium charged, as long as the carrier provides adequate access to covered services at lower patient cost sharing levels.

(c) The commissioner shall determine network adequacy for a tiered network plan based on the availability of sufficient network providers in the carrier’s overall tiered network plan.

(d) The commissioner shall determine network adequacy for a select network plan based on the availability of sufficient network providers in the carrier’s select network of providers.

(e) In determining network adequacy under this section the commissioner may consider factors including: the location of providers participating in the plan; employers or members that enroll in the plan; the range of services provided by providers in the plan; and any plan benefits that recognize and provide for extraordinary medical needs of members that may not be adequately dealt with by the providers within the plan network.

(f) The division of insurance shall report annually on utilization trends of eligible employers and eligible individuals enrolled in plans offered under this section. The report shall include the number of members enrolled by plan type, de-identified aggregate demographic, and geographic information on all members and the average direct pre-

mium claims incurred for selective and tiered network plans compared to non-selective and non-tiered plans.”; and by adding the following three sections:

“SECTION 76. Section 47H of chapter 175 of the General Laws, as appearing in the 2008 Official Edition, is hereby amended by striking out the last sentence and inserting in place thereof the following 2 sentences:—

For purposes of this section, ‘infertility’ shall mean the condition of an individual who is unable to conceive or produce conception during a period of 1 year if the female is age 35 or younger or during a period of 6 months if the female is over the age of 35. For purposes of meeting the criteria for infertility in this section, if a person conceives but is unable to carry that pregnancy to live birth, the period of time she attempted to conceive prior to achieving that pregnancy shall be included in the calculation of the 1 year or 6 month period, as applicable.

SECTION 77. Section 8K of chapter 176A of the General Laws, as so appearing, is hereby amended by striking out the last sentence and inserting in place thereof the following 2 sentences:—

For purposes of this section, ‘infertility’ shall mean the condition of an individual who is unable to conceive or produce conception during a period of 1 year if the female is age 35 or younger or during a period of 6 months if the female is over the age of 35. For purposes of meeting the criteria for infertility in this section, if a person conceives but is unable to carry that pregnancy to live birth, the period of time she attempted to conceive prior to achieving that pregnancy shall be included in the calculation of the 1 year or 6 month period, as applicable.

SECTION 78. Section 4J of chapter 176B of the General Laws, as so appearing, is hereby amended by striking out the last sentence and inserting in place thereof the following 2 sentences:—

For purposes of this section, ‘infertility’ shall mean the condition of an individual who is unable to conceive or produce conception during a period of 1 year if the female is age 35 or younger or during a period of 6 months if the female is over the age of 35. For purposes of meeting the criteria for infertility in this section, if a person conceives but is unable to carry that pregnancy to live birth, the period of time she attempted to conceive prior to achieving that pregnancy shall be included in the calculation of the 1 year or 6 month period, as applicable.”

The amendments were adopted.

Messrs. Conroy and Mariano then moved, there being no objection, to amend the bill by striking out section 34 and inserting in place thereof the following section:

“SECTION 34. Chapter 176O is hereby amended by inserting after section 5 the following section:—

Section 5C. (a) A contract or agreement between a carrier and a health care provider, including a hospital, physician group practice or imaging service, entered or renewed on or after January 1, 2012, shall adhere to the following:

(1) A carrier with a contract for payment between the carrier and a health care provider containing a rate, adjusted for volume and

Health  
insurance.

acuity, greater than or equal to 10 per cent above the carrier's statewide adjusted average in the previous year beginning October 1 through September 30 shall not increase rates to be paid under that contract beyond the prior year's existing rate.

(2) A carrier with a contract for payment between the carrier and a health care provider containing a rate, adjusted for volume and acuity, greater than zero per cent but lower than 10 per cent above the carrier's statewide adjusted average in the previous year beginning October 1 through September 30 shall not increase rates to be paid under that contract by a percentage greater than the 12 month projected change of the United States city average Consumer Price Index for Medical Care Services for the following year.

(3) A carrier with a contract for payment between the carrier and a health care provider containing a rate, adjusted for volume and acuity, between zero per cent and 10 per cent below the carrier's statewide adjusted average in the previous year beginning October 1 through September 30 shall increase rates to be paid under that contract by a percentage greater than the 12 month projected change of the United States city average Consumer Price Index for Medical Care Services for the following year. These contracts shall not increase by a percentage more than the 1.5 times the 12 month projected change of the United States city Consumer Price Index for Medical Care Services for the following year.

(4) A carrier with a contract for payment between the carrier and health care provider containing a rate, adjusted for volume and acuity, greater than 10 per cent below the carrier's statewide adjusted average in the previous year beginning October 1 through September 30 shall increase rates to be paid under that contract by a percentage more than 1.5 times the twelve month projected change of the United States city Consumer Price Index for Medical Care Services for the following year.

(b) Notwithstanding subsection (a) the division of insurance, in consultation with the division of health care finance and policy, may by regulation establish rate factors based on statistically sound analysis of the differences in the cost of providing health care services for different rate factor categories of health care provider, including, but not limited to, disproportionate share status, specialty, pediatric specialty, academic status and geographic location. A carrier may enter into or renew a contract on or after January 1, 2012 under which the carrier agrees to pay the health care provider a rate that applies an applicable rate factor established under this section; provided, however, that the resulting rate shall not be greater than 30 per cent above or greater than 30 per cent below the carrier's statewide adjusted average for all health care providers, regardless of whether the rate factor applies to the carrier or not.

(c) All contracts between a carrier and provider as defined in this section shall be filed with the division of insurance. The division may specify, by regulation, categories of information which may be furnished under an assurance of confidentiality to the provider. The division may review all contracts and shall refer any contracts deemed non-compliant to the attorney general.

(d) The division of insurance shall promulgate such regulations as may be necessary to ensure compliance with this section. The division of health care finance and policy shall publish carrier and aggregate statewide adjusted averages, rate factors and applicable consumer price index projections on an annual basis.

(e) Annually, on April 1, carriers shall submit an annual report to the division of health care finance and policy and to the division of insurance that identify all savings from reductions or mitigations in the growth of provider prices for the prior calendar year. The noted savings shall be certified by an actuary independent of the carrier. The division of health care finance and policy shall assess carriers 50 per cent of the savings identified in these reports to deposit in the Disproportionate Share Hospital Trust Fund, established in section 35MM of chapter 10, and shall distribute the proceeds of this fund annually to those hospitals meeting the definition of a disproportionate share hospital, as defined in section 1 of 118G, based on the hospital's prior year share of uncompensated care in the commonwealth. The division of health care finance and policy shall promulgate such regulations as may be necessary to ensure compliance with this subsection.

(f) Fifty per cent of the savings identified subsection (e) shall be incorporated as savings in premiums charged to health plan members.

(g) Not later than January 2012, the division of insurance, in consultation with the executive office of health and human services, shall determine the formula for carriers to use in complying with the requirements of this section. The division shall analyze the differences between a carrier's median, weighted average or un-weighted average and shall promulgate regulations requiring the use of either the median, weighted average or un-weighted average as the single standard formula across all carriers. The division in promulgating these regulations shall ensure that the standard formula used achieves the combined goals of maximizing reduction in premiums and reducing the disparities in what the highest and lowest reimbursed providers are paid.

(h) Provided that contracts between a carrier and a provider that automatically renew year to year shall be excluded from this section.

(i) Provided that the rates paid to a pediatric hospital as defined in c. 118G, Section 1 and its affiliated physicians shall be compared to the rates paid to pediatric hospitals of similar size and scope rather than to a statewide average rate"; and by striking out section 63 (as printed) and inserting in place thereof the following section:

"SECTION 66. Section 35 shall take effect on December 31, 2015."

The amendments were adopted.

Mr. deMacedo of Plymouth then moved to amend the bill by adding the following section:

The commission shall conduct a study of the small group rate regulation environment in Massachusetts. The study shall include analysis of the use of a presumptive disapproval standard, the short term and long term impact on small group premium rates and the potential impact on the health care industry of disapproving rates filed at a minimum level necessary to cover actual medical costs, as well as issues of carrier solvency. The commission shall hold its first meeting no later than October 1, 2010, and shall issue a report of its findings, including recommended policy changes, if any, with the clerks of the senate and the house of representatives and with the governor not later than July 31, 2011.”.

The amendment was rejected.

Mr. Perry of Sandwich and other members of the House then moved to amend the bill by adding the following three sections:

“SECTION 79. Chapter 112 of the Massachusetts General Laws, as appearing in the 2006 Official Edition, is hereby amended by striking out section 12C and inserting in place thereof the following section:—

Section 12C. No physician or nurse administering immunization or other protective programs under public health programs shall be liable in a civil suit for damages as a result of any act or omission on his part in carrying out his duties. No physician or nurse who is registered by the Commonwealth in the Massachusetts System for Advance Registration of Volunteer Health Professionals or its successor entity shall be liable in civil suit for damages for any act or omission on his part related to his voluntary participation in any disaster preparedness or response activity.

SECTION 80. Section 60H of chapter 231 of the General Laws, as appearing in the 2006 Official Edition, is hereby amended by striking out, in lines 6, 13 and 14, 21, and 23, in each instance, the words ‘five hundred thousand’ and inserting in place thereof in each instance the figures:— \$250,000.

SECTION 81. Said chapter 231, as so appearing, is hereby amended by adding after section 60K, the following new sections:

Section 60L. In any action for malpractice, error or mistake against a provider of health care licensed pursuant to section 2 of chapter 112, as most recently amended by Chapter 305 of the Acts of 2008, including actions pursuant to section 60B of this chapter, an expert witness shall be board certified in the same specialty as the defendant licensed pursuant to section 2 of chapter 112, as so appearing.

Section 60M. In every action for malpractice, negligence, error, omission, mistake or the unauthorized rendering of professional services against a provider of health care the court may, at the request of either party, enter a judgment ordering that money damages or its

equivalent for future damages of the judgment creditor be paid in whole or in part by periodic payments rather than by a lump-sum payment if the award equals or exceeds \$50,000 in future damages. In entering a judgment ordering the payment of future damages by periodic payments, the court shall make a specific finding as to the dollar amount of periodic payments which will compensate the judgment creditor for such future damages, and court shall require a defendant who is not adequately insured to post security adequate to assure full payment of such damages awarded by the judgment. Upon termination of periodic payments of future damages, the court shall order the return of this security, or so much as remains, to the defendant.

(a) (1) The judgment ordering the payment of future damages by periodic payments shall specify the recipient or recipients of the payments, the dollar amount of the payments, the interval between payments, and the number of payments or the period of time over which payments shall be made. Such payments shall only be subject to modification in the event of the death of the judgment creditor.

(2) In the event that the court finds that the defendant has exhibited a continuing pattern of failing to make the payments as specified in paragraph (1), the court shall find the defendant in contempt of court and, in addition to the required periodic payments, shall order the defendant to pay the plaintiff all damages caused by the failure to make such periodic payments, including court costs and attorney’s fees.

(b) Money damages awarded for loss of future earnings shall not be reduced or payments terminated by reason of the death of the plaintiff, but shall be paid to persons to whom the plaintiff owed a duty of support, as provided by law, immediately prior to his death, or to whom the plaintiff assigned, transferred, or bequeathed his right to receive payment. In such cases the court which rendered the original judgment, may, upon petition of any party in interest, modify the judgment to award and apportion the unpaid future damages in accordance with this subdivision.

(c) Following the occurrence or expiration of all obligations specified in the periodic payment judgment, any obligation of the defendant to make future payments shall cease and any security given, pursuant to this section shall revert to the defendant.

Section 60N. In any action for malpractice, error, omission, mistake or the unauthorized rendering of professional services against a provider of health care, the liability of each defendant for damages shall be several only and shall not be joint. Each defendant shall be liable only for the amount of damages allocated to that defendant in direct proportion to that defendant’s percentage of fault, and a separate judgment shall be rendered against that defendant for that amount.”.

After debate on the question on adoption of the amendment, the sense of the House was taken by yeas and nays at the request of Mr. Perry; and on the roll call 24 members voted in the affirmative and 129 in the negative.

SECTION 80. Chapter 176J of the General Laws is hereby amended by adding at the end thereof the following new section:

Section 11. Small Business Health Plans

(a) The commissioner shall write regulations governing the establishment and oversight of small business health plans. Those regulations shall require that all state mandated benefits are required under such plans, that denial of coverage due to the health condition, age, race or sex is prohibited, and that no eligible small business who is a member of the small business health plan may be charged a premium rate higher than what the carrier would charge to a similarly situated eligible small business who is not a member of the small business health plan.

(b) The commissioner shall biannually certify that a small business health plan satisfies the requirements of this chapter. Only a small business health plan that has been certified by the commissioner may procure health care coverage for the benefit of qualified association members.

(iv) For the purposes of this paragraph, in computing the amount of a Community Hospital and Community Health Center Capital Reserve Fund, securities in which all or a portion of the fund are invested shall be valued at par or, if purchased at less than par, at their cost to the authority unless otherwise provided in the resolution, trust agreement or indenture authorizing the issuance of bonds secured by the fund. (v) For the purposes of this paragraph, the amount of a letter of credit, insurance contract, surety bond or similar financial undertaking available to be drawn upon and applied to obligations to which money in the Community Hospital and Community Health Center Capital Reserve Fund may be applied shall be counted as money in the fund. For the purposes of this paragraph, in calculating the maximum amount of interest due in the future on variable rate bonds or bonds with respect to which the interest rate is not at the time of calculation determinable, the interest rate shall be calculated at the maximum interest rate on such bonds or such lesser interest rate as shall be certified by the authority as an appropriate proxy for such variable or nondeterminable interest rate. (vi) Bonds secured by a Community Hospital and Community Health Center Capital Reserve Fund shall be issued by the authority solely for the benefit of nonprofit community hospitals and nonprofit community health centers licensed by the department of public health. (vii) Notwithstanding any provision of this act to the contrary, no loan shall be made by the

authority to a nonprofit community hospital or nonprofit community health center from the proceeds of bonds secured by a Community Hospital and Community Health Center Capital Reserve Fund established under this paragraph unless: (a) the project to be financed by the loan has been approved by the secretary of health and human services; and (b) the loan and the issuance and terms of the related bonds have been approved by the secretary of administration and finance. In connection with any loan to a nonprofit community hospital or nonprofit community health center pursuant to this paragraph, the secretary of health and human services and the secretary of administration and finance may enter into an agreement with the authority and the nonprofit community hospital or nonprofit community health center to: (a) require that the nonprofit community hospital or nonprofit community health center provide financial statements or other information relevant to the financial condition of the nonprofit community hospital or nonprofit community health center and its compliance with the terms of the loan; (b) require that the nonprofit community hospital or nonprofit community health center reimburse the commonwealth for any amounts the commonwealth transfers to the fund under subparagraph (iii) to replenish the fund as a result of a loan payment default by the nonprofit community hospital or nonprofit community health center; and (c) require compliance by the nonprofit community hospital or nonprofit community health center or the authority with any other terms and conditions that the secretary of health and human services and the secretary of administration and finance considers appropriate in connection with the loan. (viii) When the authority notifies the secretary of administration and finance in writing that an institution eligible to use the authority under this paragraph is in default as to the payment of principal or interest on any bonds issued by the authority on behalf of that institution or that the authority has reasonable grounds to believe that the institution will not be able to make a full payment when that payment is due, the secretary of administration and finance shall direct the comptroller to withhold any funds in the comptroller's custody that are due or payable to the institution until the amount of the principal or interest due or anticipated to be due has been paid to the authority or the trustee for the bondholders, or until the authority notifies the secretary of administration and finance that satisfactory arrangements have been made for the payment of the principal and interest. Funds subject to withholding under this subparagraph shall include, but not be limited to, federal and state grants, contracts, allocations and appropriations. (ix) If the authority further notifies the secretary of administration and finance in writing that no other arrangements are satisfactory, the secretary shall direct the comptroller to make available to the authority without further appropriation any funds withheld from the institution under subparagraph (viii). The authority shall apply the funds to the costs incurred by the institution, including payments required to be made to the authority or trustee for any bondholders of debt service on any bonds issued by the authority for the institution or payments to replenish the Community Hospital and Community Health Center Capital Reserve Fund or required by the terms of any other law or contract to be paid to the holders or owners of bonds issued on behalf of the institution upon failure or default,

or upon reasonable expectation of failure or default, of the institution to pay the principal or interest on its bonds when due. (x) Concurrent with any notice from the authority to the secretary of administration and finance under this paragraph, the authority may notify any other agency, department or authority of state government that exercises regulatory, supervisory or statutory control over the operations of the institution. Upon notification, the agency, department or authority shall immediately undertake reviews to determine what action, if any, that agency, department or authority should undertake to assist in the payment by the institution of the money due or the steps that the agencies of the commonwealth, other than the comptroller or the authority, should take to assure the continued prudent operation of the institution or provision of services to the people served by the institution. (xi) Notwithstanding any general or special law to the contrary, in the event that a nonprofit community hospital or nonprofit community health center fails to reimburse the commonwealth for any transfers made by the commonwealth to the authority to replenish the Community Hospital and Community Health Center Capital Reserve Fund in accordance with subparagraph (iii) within 6 months after any such transfer and as otherwise provided in accordance with the terms of the agreement among the nonprofit community hospital or nonprofit community health center, the authority and the commonwealth authorized under subparagraph (vii), the secretary of administration and finance may, in his sole discretion, direct the comptroller to withhold any funds in the comptroller's custody that are due or payable to the nonprofit community hospital or nonprofit community health center to cover all or a portion of the amount the nonprofit community hospital or nonprofit community health center has failed to pay to the commonwealth to reimburse the commonwealth for any such transfers. All contracts issued by the group insurance commission, the commonwealth health insurance connector authority and MassHealth to a third party for the purposes of providing health care insurance paid for by the commonwealth shall provide that, at the direction of the secretary of administration and finance, the third party shall withhold payments to a nonprofit community hospital or nonprofit community health center which fails to reimburse the commonwealth in accordance with the agreement authorized under subparagraph (vii) and shall transfer the withheld amount to the commonwealth. Any such withheld amounts shall be considered to have been paid to the nonprofit community hospital or nonprofit community health center for all other purposes of law and the nonprofit community hospital or nonprofit community health center shall be considered to have reimbursed the commonwealth for all or a portion of any such transfers to the Community Hospital and Community Health Center Capital Reserve Fund for purposes of the agreement authorized under said subparagraph (vii). (xii) Notwithstanding any general or special law to the contrary, in the event that the commonwealth has not been fully reimbursed the amount of any transfer made pursuant to this subsection (g) as of the one year anniversary of such transfer, the authority shall pay to the commonwealth an amount equal to that portion of the transfer for which the commonwealth has not yet received reimbursement as of said anniversary. Said reimbursement shall be completed pursuant to a schedule determined

by the secretary of administration and finance. Said reimbursement shall not interfere with the obligations of a nonprofit community hospital or nonprofit community health center pursuant to subsection (g) (xi). Any funds received by the commonwealth pursuant to subsection (g) (xi) which exceed the full reimbursement to the commonwealth from the authority required by this subsection (g) (xii), shall be paid to the authority. (xiii) For the purposes of this paragraph, a community hospital or community health center shall not include a hospital where the ratio of the number of physician residents in training to the number of inpatient beds exceeds 0.25.

SECTION 84. Section 12 of said chapter 614 is hereby amended by striking out the last sentence and inserting in place thereof the following sentence: Except as otherwise provided in paragraph (g) of section 10, the issuance of revenue bonds under this act shall not directly, indirectly or contingently obligate the commonwealth or any political subdivision thereof to levy or to pledge any form of taxation therefore or to make any appropriation for payment of those bonds."

The amendment was adopted.

Messrs. Conroy of Wayland and Mariano of Quincy then moved, there being no objection, to amend the bill by striking out section 28 (as previously amended) and inserting in place thereof the following section:

"SECTION 28. Said Chapter 176J is hereby amended by striking out section 6 and inserting in place thereof the following section:—

Section 6. (a) Notwithstanding any general or special law to the contrary, the commissioner may approve health insurance policies submitted to the division of insurance for the purpose of being provided to eligible individuals or eligible small businesses. These health insurance policies shall be subject to this chapter and may include networks that differ from those of a health plan's overall network. The commissioner shall adopt regulations regarding eligibility criteria. These eligibility criteria shall require that health insurance policies that exclude mandated benefits shall only be offered to small businesses which did not provide health insurance to its employees as of April 1, 1992. These eligibility criteria shall also provide that small businesses shall not have any health insurance policies that exclude mandated benefits for more than a 5-year period.

(b) Notwithstanding any general or special law to the contrary, the commissioner shall require carriers offering health benefit plans to eligible small businesses and eligible individuals to submit information as required by the commissioner, including, but not limited to:

(i) underwriting, auditing, actuarial, financial analysis, treasury and investment expenses;

(ii) marketing and sales expenses, including, but not limited to, advertising, member relations, member enrollment and all expenses associated with producers, brokers and benefit consultants;

(iii) claims operations expenses, including, but not limited to, adjudication, appeals, settlements and expenses associated with paying claims;

(iv) medical administration expenses, including, but not limited to, disease management, utilization review and medical management;

Health  
insurance.

(v) network operations expenses, including, but not limited to, contracting, hospital and physician relations and medical policy procedures;

(vi) charitable expenses, including, but not limited to, contributions to tax-exempt foundations and community benefits;

(vii) state premium taxes;

(viii) board, bureau and association fees;

(ix) depreciation; and

(x) miscellaneous expenses described in detail by expense, including any expense not included in clauses (i) to (ix), inclusive.

(c) Notwithstanding any general or special law to the contrary, the commissioner may require carriers offering small group health insurance plans, including carriers licensed under chapters 175, 176A, 176B or 176G, to file all changes to small group product base rates and to small group rating factors at least 90 days before their proposed effective date. The commissioner shall disapprove any proposed changes to base rates that are excessive, inadequate or unreasonable in relation to the benefits charged. The commissioner shall disapprove any change to small group rating factors that is discriminatory or not actuarially sound. Rate filing materials submitted for review by the division shall be deemed confidential and exempt from the definition of public records in clause Twenty-sixth of section 7 of chapter 4. The commissioner shall adopt regulations to carry out this section.

(d) For base rate changes filed to be effective between October 1, 2010 and June 30, 2012, inclusive, if a carrier files a base rate whose administrative expense loading component increases by more than the most recent calendar year's percentage increase in the New England medical CPI or if a carrier's reported contribution to surplus exceeds 1.9%, such carrier's rate, in addition to being subject to all other provisions of this chapter, shall be presumptively disapproved as excessive by the commissioner as set forth in this subsection, with the exception of any carrier whose Risk Based Capital Ratio falls below 300% for the most recent four consecutive quarters. For such carriers the reported contribution to surplus may not exceed 2.5%.

(e) If a proposed base rate change has been presumptively disapproved:

(1) A carrier shall communicate to all employers and individuals covered under a small group product that the proposed increase has been presumptively disapproved and is subject to a hearing at the division of insurance.

(2) The commissioner shall conduct a public hearing and shall advertise it in newspapers in Boston, Brockton, Fall River, Pittsfield, Springfield, Worcester, New Bedford and Lowell, or shall notify such newspapers of the hearing. The commissioner shall adopt regulations to specify the scheduling of the hearings required pursuant to this subsection.

(f) If the commissioner disapproves the rate submitted by a carrier the commissioner shall notify the carrier in writing no later than 45 days prior to the proposed effective date of the carrier's rate. The carrier may request a hearing on the disapproval by filing a written request with the division of insurance within 10 days of its receipt of such notice."

The amendment was adopted.

Messrs. Alicea of Charlton and Mariano of Quincy then moved to amend the bill by adding the following section:

"SECTION 85. Chapter 111 of the General Laws is hereby amended by adding, after Section 24I, the following new section:—

Section XX. (a) The department shall conduct a study to determine the cost effectiveness of allowing eligible health care providers that participate in the Massachusetts Department of Public Health (MDPH) Immunization Program to select any FDA approved vaccine for use in an eligible patient, including combination vaccines and any dosage forms that:

(1) are recommended by the federal Advisory Committee on Immunization Practices or any successor committee serving a comparable function, for use in a particular patient population;

(2) are made available to the Department by the Centers for Disease Control and Prevention of the United States Public Health Service

(b) The Department shall also conduct a study to determine the cost effectiveness to allow the usage of a single preferred product for use in the Massachusetts Department of Public Health Immunization Program where equivalent vaccines exist if the cost to the department of providing the vaccine is more than 115 percent of the lowest priced equivalent vaccine. For the purposes of this section, "equivalent vaccines" means two or more vaccines that meet all of the following:
