90 O'Callahan Street
Lynn, MA 01901

All Seminars 4:00 pm – 5:30 pm

Fatalities from falls are the number one cause of workplace deaths in construction. Falls accounted for 34% of the construction fatalities in 2008 and 2009 ... and 35% of the fatalities since 2005.

Are you interested in learning how to comply with OSHA's fall protection requirements?

Are you interested in an update on OSHA's Residential Fall Protection regulations?

Did you know that residential construction employers generally must ensure that employees working six feet or more above lower levels use guardrails, safety nets, or personal fall arrest systems?

Attend a free training and learn about the OSHA fall protection standards and have an opportunity to ask questions.

The Occupational Safety and Health Administration (OSHA) and the Massachusetts OSHA On-Site Consultation Program are offering a **FREE** safety seminar designed to help employers in the construction industry prevent injuries/fatalities due to falls. Speakers are from OSHA and the MA OSHA Consultation Program.

Registration required as space is limited.

Send completed registration form to susan.humphreys@state.ma.us or fax to 978-688-0352
